NOTES TO THE INTERIM FINANCIAL REPORT for the 3rd financial quarter ended 31 October 2016

Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with MFRS 134 "Interim Financial Reporting" and paragraph 9.22 of the Bursa Malaysia Listing Requirements. The interim financial report also complies with IAS 34 "Interim Financial Reporting" issued by the International Accounting Standards Board.

The Internal Reorganisation (refer Note B8) of Mintye Industries Bhd. ("Mintye") in which Mintye Berhad ("MBG") was established as the new holding company of Mintye is accounted for when:

- a) MBG obtained control of Mintye via a one to one share exchange with the shareholders of Mintye;
- b) the assets and liabilities of Mintye Group are the same immediately before and after the reorganisation; and
- c) the owners of Mintye before the reorganisation have the same absolute and relative interests in the net assets of Mintye Group and MBG Group immediately before and after the reorganisation.

The consolidated financial statements of the new MBG Group have been prepared using the merger accounting principles for the combining entities with common control. To that effect, the accounting for the combining entities is made as though no acquisition has occurred and the separate entities were continuing as before. The comparative figures are presented as if the combination had occurred from the date when the combining entities first came under the control of the controlling parties.

The interim financial report has been prepared on a condensed basis and as such it should be read in conjunction with the audited annual financial statements of Mintye for the financial year ended 31 January 2016. The notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the financial year ended 31 January 2016.

MFRS 134 - Paragraph 16

Amendments to MFRSs (Annual Improvements 2012 - 2014 Cycle)
Amendments to MFRS 10, MFRS 12, MFRS 101, MFRS 116, and MFRS 127

The adoption of the above standards, amendments and interpretations did not have significant impact on the financial statements of the Group.

Group profit for the financial				
period	476	4,133	(3,657)	(88.48)

The Group's turnover for the current cumulative quarter ended 31 October 2016 was at RM34.694 million compared to previous year corresponding quarter of RM37.344 million, a decrease of RM2.65 million or 7.1%. The decline is mainly due to weaker demand for our products as a result of general market uncertainties, particularly in the domestic market.

The Group profit from operations for the current cumulative quarter was RM0.911 million compared to the profit from operations for the previous year corresponding quarter of RM5.407 million, a decrease of RM4.496 million. This is due to lower turnover and lower foreign exchange gain, initial operation cost incurred on a technical centre of a subsidiary and implementation of minimum wages policy.

B2. Comments on material changes in profit before taxation in the current financial quarter as compared with the immediate preceding financial quarter

	Current	Preceding

period	395	883	(488)	55.27

The Group's turnover for the current financial quarter ended 31 October 2016 was at RM11.794 million compared to RM11.942 million in the preceding quarter, a marginal decrease of RM0.148 million or 1.24%.

The Group profit from operations for the current financial quarter was RM0.611 million compared to the profit from operations for the preceding quarter of RM1.245 million, a decrease of RM0.634 million or 50.92%. This is due to increase in cost of production.

B3. **Prospects**

The business environment continues to be challenging with increasing costs impacting on the Group's profit. The Group will continue its efforts to remain profitable by improving its production efficiencies and volume with gradual improvement in labour supplies.

B4. Variance of actual profit from forecast profit
