### 10. MATERIAL EVENTS SUBSEQUENT TO THE END OF THE FINANCIAL PERIOD

- (a) On 19 April 2023, the Group had received a Notice of additional assessment for RM71.7 million from Inland Revenue Board and the details are as disclosed in Note 12.
- (b) On 27 April 2023, the Group issued additional Sukuk Murabahah in tranches for an aggregate nominal value of RM900 million to finance its capital expenditure and general working capital requirements:

Series	Tenure (years)	Maturity	Nominal value (RM'm)
Eighteenth	5	April 2028	700
Nineteenth	7	April 2030	200

(c) On 3 May 2023, the Government of Malaysia announced its decision to focus on achieving 80% 5G coverage of populated areas by the end of year 2023 under Digital Nasional Berhad ("DNB"), followed by the implementation of 5G under two networks ("Phase 2").

Save for the above items, there were no other material events subsequent to the end of the financial period up to the date of this report.

#### 11. CHANGES IN THE COMPOSITION OF THE GROUP

The Group diluted its equity interests in Gurulab Sdn. Bhd. ("GSB") from 59% to 56% following the issuance of new ordinary shares by GSB. The dilution did not have any material impact to the Group for the three months ended 31 March 2023.

Save for the above, there were no changes in the composition of the Group during the three months ended 31 March 2023.

### 12. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

In the normal course of business, there are contingent liabilities arising from legal recourse sought by the Group's customers or vendors and indemnities given to financial institutions on bank guarantees. There were no material losses anticipated as a result of these transactions.

Maxis Broadband Sdn. Bhd. ("MBSB"), a wholly owned subsidiary of the Company, was served with the below notices of additional assessment with penalties by Inland Revenue Board ("IRB"). MBSB has appealed and initiated legal proceedings to challenge the basis and validity of these additional assessments:

(i) In November 2019, the IRB disallowed MBSB from its entitlement to incremental chargeable income exemption for Year of Assessment 2017. A notice of additional assessment of RM37.4 million was issued ("ICI Notice"). In July 2022, the Kuala Lumpur High Court ("High Court") granted leave for MBSB's judicial review application. MBSB's substantive judicial review application was heard on 9 March 2023 and decision is scheduled to be delivered on 15 June 2023. The stay of the enforcement of the ICI Notice is extended until the disposal of the judicial review application;

### 12. CONTINGENT LIABILITIES AND CONTINGENT ASSETS (CONTINUED)

- (ii) In November 2020, the IRB disallowed MBSB's deduction of interest expenses incurred for the Years of Assessment 2016 and 2017. Notices of additional assessment totalling RM140 million were issued ("2020 Notices"). The High Court had granted and subsequently extended the interim stay of the enforcement of the 2020 Notices until the disposal of MBSB's leave application for judicial review challenging the 2020 Notices;
- (iii) In March 2021, the IRB disallowed MBSB's deduction of interest expenses incurred for the Years of Assessment 2018 and 2019. Notices of additional assessment totalling RM230 million were issued ("2021 Notices"). The High Court had granted and subsequently extended the interim stay of the enforcement of the 2021 Notices until the disposal of MBSB's leave application for judicial review challenging the 2021 Notices;
- (iv) In February 2022, the IRB disallowed MBSB's deduction of interest expenses incurred for the Year of Assessment 2020. Notice of additional assessment totalling RM107 million was initially issued ("2022 Notice") but subsequently reduced to RM104 million. The High Court had granted the interim stay of the enforcement of the 2022 Notice until the disposal of MBSB's leave application for judicial review challenging the 2022 Notice. In March 2023, MBSB's leave application challenging the 2022 Notice was heard and decision is scheduled to be delivered on 19 June 2023; and
- (v) In April 2023, the IRB disallowed MBSB's deduction of interest expenses incurred for the Year of Assessment 2021. Notice of additional assessment totalling RM71.7 million was issued ("2023 Notice"). The High Court had granted an interim stay of the enforcement of the 2023 Notice until the disposal of MBSB's leave application for judicial review challenging the 2023 Notice.

The Directors are of the view that no provision is required in the condensed consolidated financial statements at this juncture based on the facts surrounding the above additional assessments received from the IRB and the legal view obtained from external legal counsel that there is sufficient evidence and case law to support MBSB's appeals and proceedings against the ICI Notice, 2020, 2021, 2022 and 2023 Notices.

### (A) Performance of the current quarter against the preceding quarter (Q1'23 vs Q4'22)

Service revenue for Q1'23 was relatively stable at RM2,112 million, contributed by the healthy growth in Consumer Postpaid revenue, offset by a decline in Consumer Prepaid revenue. The growth in Postpaid is attributed by the enhanced product and service offerings for both Maxis Postpaid and Hotlink Postpaid. Though Postpaid ARPU diluted slightly in Q1'23, the increase in subscribers led to higher revenue quarter-on-quarter. Through the successful execution of Hotlink's pre-to-post migration strategy, Consumer Prepaid subscriptions contracted slightly in Q1'23, while Prepaid ARPU remains largely stable.

Home Connectivity revenue grew on the back of 24,000 fibre net adds quarter-on-quarter, offset slightly by 5,000 reduction in WBB subscriptions as Maxis actively converted existing WBB customers onto fibre. Home blended ARPU remained stable in the quarter.

Enterprise revenue remained consistent at RM365 million in the current quarter.

### 16. ANALYSIS OF PERFORMANCE (CONTINUED)

#### (A) Performance of the current quarter against the preceding quarter (Q1'23 vs Q4'22) (continued)

EBIT and profit before tax was higher in the current quarter from lower marketing costs after year end promotions in Q4'22 and low depreciation and amortisation costs as there was non-recurring one-off incurred in the preceding quarter. Profit after tax was higher following the discontinuation of Prosperity Tax (Cukai Makmur) charges in year 2023.

Total capex for the current quarter was RM130 million, in line with normal phasing of capex.

OFCF was RM181 million and lower in the current quarter mainly due to higher payments for regulatory compliance costs and capex that was incurred in Q4'22. Deposits, cash and bank balances remains healthy at RM340 million at the reporting date.

#### (B) Performance of the current quarter against the preceding year corresponding quarter (Q1'23 vs Q1'22)

Year-on-year, service revenue grew RM82 million (4.0%), driven by the overall growth in Consumer Business revenue and offset slightly by Enterprise Business revenue.

In Postpaid and Home Connectivity, the increase was supported by higher subscriptions for device-bundled plans, converged propositions for the home, and entry-level postpaid plans, offset by the slight decline in WBB as consumers transition to fibre connectivity. Prepaid revenue grew from higher ARPU, attributed to better service offerings as well as encouraging customer demand via HotlinkMU personalised promotions.

In Enterprise, revenue declined RM23 million (5.9%) following Maxis' strategic move to focus on higher margin services. Excluding wholesale voice that was discontinued since Q4'22, Enterprise revenue grew RM19 million year-on-year.

EBIT grew 3.4% year-on-year at the back of service revenue growth. Profit before tax was relatively flat due to higher finance costs on supplier financing and borrowing. The weighted average interest rates and proportion of borrowings between fixed and floating interest rates are disclosed in Note 23. Profit after tax was higher following the discontinuation of Prosperity Tax (Cukai Makmur) charges in year 2023.

Capex spend for the current quarter was prudent at RM130 million, as requirement for 4G network coverage and capacity continues to moderate post 3G sunset.

OFCF was RM181 million and lower in the current quarter mainly due to higher tax and vendor payments. Deposits, cash and bank balances remain healthy at RM340 million at the reporting date.
