1.1 Current Year-To-date vs Preceding Year-To-date

The Group revenue decreased significantly by 59.4% from RM77.43 million reported in the preceding year corresponding period to RM31.40 million for the period ended 30 September 2020, mainly due to lower revenue generated by our property development segment as a result of the economic impact caused by Coronavirus Disease 2019 ("Covid-19") pandemic and the Movement Control Order ("MCO") effective from 18 March 2020.

The Group recorded a profit before taxation for the period ended 30 September 2020 of RM10.01 million, decreased by RM20.90 million or 67.6% as compared to preceding year's profit before taxation of RM30.91 million. The decrease in the Group's profit is mainly due to lower revenue generated by the property development segment.

The property development segment continues to be the key contributor registering a revenue of RM19.01 million for the six months period ended 30 September 2020, representing about 60.5% of the consolidated revenue. The property development segment will remain focused on building landed properties and affordable value homes with readily available mortgage financing facilities from banks. Goodview Heights, an integrated mixed-development township in Sungai Long South, Selangor Darul Ehsan, Villa Sungai Long semi-detached houses and bungalows and Sg Long Residence condominiums in Bandar Sungai Long, Selangor Darul Ehsan have contributed significantly to the financial performance of the Group.

Despite the current challenging and unpredictable Malaysian economic environment, the investment and services segment registered a revenue of RM6.28 million for the six months period ended 30 September 2020, representing about 20.0% of the consolidated revenue as rental income is secured by the tenancy agreements.

The construction segment registered a revenue of RM5.65 million for the six months period ended 30 September 2020, representing about 18.0% of the consolidated revenue.

Performance of the respective operating business segments for the current year-to-date as compared to the preceding year-to-date is analysed as follows:

- (i) Property Development The decrease in pre-tax profit was mainly due to lower revenue generated by the property development segment. The financial performance is in tandem with the prevailing poor economic condition.
- (ii) There are no significant variations for other business segments.

1.2 Current Quarter vs Preceding Year Corresponding Quarter

On a quarterly basis, the Group recorded a profit before taxation for the period ended 30 September 2020 of RM7.36 million, decreased by RM8.22 million or 52.7% as compared to preceding year's profit before taxation of RM15.58 million. The decrease of the Group's profit is mainly due to lower revenue generated by the property development segment and decrease in other operating income.

Performance of the respective operating business segments for the current year-to-date as compared to the preceding year-to-date is analysed as follows:

- (i) Property development The decrease in pre-tax profit was mainly due to lower revenue generated by the property development segment.
- (ii) There are no significant variations for other business segments.

The Group revenue increased by 240.2% from RM7.13 million reported in the immediate preceding quarter to RM24.27 million for the current quarter, mainly due to substantially higher revenue generated by the property development segment as lockdowns were gradually lifted in some sectors following the subsequent transition to Conditional Movement Control Order in May 2020 and Recovery Movement Control Order in June 2020. A rebound in industrial activity and large government support resulted in the economy recording positive growth after contracting in the first quarter.

The Group's profit before taxation of RM7.36 million for the current quarter increased by RM4.71 million compared to RM2.65 million achieved in the immediate preceding quarter. The increase in pretax profit was mainly due to substantially higher revenue generated by the property development segment.

3. Prospects for the next financial year

Against this highly challenging economic outlook, Malaysia's Gross Domestic Product growth is projected to be between -2.0% to 0.5% in 2020 (2019: 4.3%). The Coronavirus Disease 2019 ("Covid-19") has interrupted the movement of people and goods throughout the world and many levels of government are instituting restrictions on individuals and businesses. Given these circumstances, the Government of Malaysia has issued a Federal Government Gazette imposing a Movement Control Order ("MCO") effective from 18 March 2020.

The domestic economy will be impacted by the necessary global and domestic actions taken to contain the outbreak of the Covid-19. Of significance, tourism-related sectors are expected to be affected by broad-based travel restrictions and travel risk aversion, while production disruptions in the global supply chain will weigh on the manufacturing sector and exports. The implementation and subsequent extension of the MCO, while critical, will dampen economic activity following the suspension of operations by non-essential service providers and lower operating capacity of manufacturing firms. Beyond the MCO period, reduced social and recreational activities until the pandemic is fully controlled globally and domestically will continue to dampen consumption and investment activity. Apart from the pandemic, the domestic economy will also be affected by the sharp decline and volatile shifts in crude oil prices and continued supply disruption in the commodities sector.

Given the significant headwinds to growth arising from the Covid-19, the Government and Bank Negara Malaysia have introduced large countercyclical policy measures to mitigate the economic impact of the pandemic.

As at the date of issue of this quarterly financial report, the Covid-19 pandemic and the MCO have a significant financial impact to the Group, particularly on the property development segment of the Group. Some businesses of the Group have resumed operations with the approvals obtained from the relevant authorities during the MCO. Nevertheless, the Group is focusing on its efforts in the best possible way to mitigate its impact while protecting the business potential and branding from the medium to long term perspective. The Covid-19 pandemic and the MCO is not expected to impact our ability to meet our commitments over the next twelve months due to our high level of liquidity, mainly in the form of cash and deposits.

In view of the lack of visibility on the end date of the Covid-19 pandemic and the MCO, the Group is not able to estimate the full potential financial impact as at the date of issue of this quarterly financial report. As such, the Directors of the Group will continue to monitor the situations closely and respond proactively to mitigate the impact on the Group's financial performance and financial position. The Group will provide further updates on the financial impact and mitigating actions relating to the Covid-19 pandemic in its forthcoming quarterly financial reports.

The housing market in Malaysia has not been able to provide an adequate supply of affordable housing for the masses at affordable prices in relation to the demography of the nation. This undersupply of affordable homes at affordable prices is likely to worsen given the current trends in income and demographic factors. Going forward, a carefully-designed strategy of participation by the private sector for the housing market will ensure that the supply of houses is able to accommodate households of all income groups. Meeting the demand of affordable housing units will require the commitment of both the Government on policies and the private sector for efficiency planning towards the supply side of affordable homes.

Despite the current challenging and unpredictable Malaysian economic environment, SHL Consolidated Bhd will remain resilient and focused on building landed properties and affordable value homes at Bandar Sungai Long, Goodview Heights in Sungai Long South, Alam Budiman in Shah Alam and Rasa in Batang Kali, all property development projects located in Selangor Darul Ehsan, the primary social and economic centre of Malaysia.

Barring any unforeseen circumstances, the Board of Directors is cautiously optimistic that the Group's performance for the current financial year will be satisfactory.
