A1. BASIS OF PREPARATION (continued)

Malaysian Financial Reporting Standards

On 19 November 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards Framework (“MFRS Framework”), a fully-IFRS compliant framework. Entities other than private entities shall apply the MFRS Framework for annual periods beginning on or after 1 January 2012, with the exception of Transitioning Entities.

Transitioning Entities, being entities within the scope of MFRS 141 *Agriculture* and/or IC Interpretation 15: *Agreements for the Construction of Real Estate*, including its parents, significant investors and venturers were allowed to defer the adoption of the MFRS Framework until such time as mandated by the MASB. On 2 September 2014, with the issuance of MFRS 15 *Revenue from Contracts with Customers* and Amendments to MFRS 116 and MFRS 141 *Agriculture: Bearer Plants*, the MASB announced that Transitioning Entities which have chosen to continue with the FRS Framework are now required to adopt the MFRS Framework latest by 1 January 2017.

On 8 September 2015, the MASB confirmed that the effective date of MFRS 15 will be deferred to annual periods beginning on or after 1 January 2018. However, early application of MFRS 15 is still permitted.

The Group falls within the scope definition of Transitioning Entities and has availed itself of this transitional arrangement and will continue to apply FRSs in the preparation of its financial statements. Accordingly, the Group will be required to apply MFRS 1 *First-time adoption of Malaysian Financial Reporting Standards* in its financial statements for the financial year ending 30 September 2019, being the first set of financial statements prepared in accordance with new MFRS Framework.

The Group is currently assessing the impact of adoption of MFRS 1, including identification of the differences in existing accounting policies as compared to the new MFRSs and the use of optional exemptions as provided for in MFRS 1. At the date of authorisation for issue of these financial statements, accounting policy decisions or elections have not been finalised. Thus, the impact of adopting the new MFRS Framework on the Group’s first set of financial statements prepared in accordance with the MFRS Framework cannot be determined and estimated reliably until the process is complete.

B1. REVIEW OF PERFORMANCE OF THE GROUP FOR:

(i) Third quarter ended 30 June 2016

The Group recorded higher revenue and profit before tax for the current quarter of RM282.1 million and RM62.6 million as compared to the preceding year correspondence quarter of RM255.8 million and RM30.3 million respectively. The increase in the Group's revenue by 10.3% and profit before tax by 106.6% was mainly contributed by the property and construction division from its on-going and new development projects and the unrealised foreign exchange gains of RM4.9 million from the plantation division following the strengthening of Indonesia Rupiah against the United States Dollar borrowings as compared to the unrealised foreign exchange losses of RM5.4 million in the preceding year correspondence quarter.

(ii) Financial year-to-date ("YTD") ended 30 June 2016 by Segments

Property and construction

The division recorded higher revenue and profit before tax of RM620.6 million and RM149.8 million for the current YTD as compared to the preceding YTD of RM445.0 million and RM73.5 million respectively following the higher revenue and profit recognition from the ongoing projects, namely Hill Park Shah Alam, Pelangi Heights, Kajang East, MKH Avenue, MKH Boulevard, Saville @ Kajang, Pelangi Semenyih (built then sell), and new projects, namely Saville @ Cheras and Hillpark 3 and a project grant from government of RM11.7 million.

As at 30 June 2016, the Group has locked-in unbilled sales value of RM800.6 million from which attributed sales revenue and profits will be recognised progressively as their development percentage of completion progresses.

Plantation

The division recorded an increase in revenue and profit before tax of RM154.8 million and RM51.5 million for the current YTD as compared to the preceding YTD of RM165.6 million and RM1.9 million, mainly due to inclusion of unrealised foreign exchange gains of RM31.9 million in the current YTD as compared to the preceding YTD unrealised foreign exchange losses of RM19.0 million. The current YTD unrealised foreign exchange gains were mainly due to strengthening of Indonesia Rupiah against the United States Dollar borrowings.

Excluding the unrealised foreign exchange gains/losses, this division recorded lower profit before tax of RM19.6 million in the current YTD as compared to the preceding YTD of RM20.9 million mainly due to lower crude palm oil ("CPO") sales volume and average CPO price of 70,500 metric tonnes ("MT") and RM1,995 per MT in current YTD as compared to 72,800 MT and RM2,091 per MT in preceding YTD respectively. The lower CPO sales volume was mainly due to deferment of sales totaling 3,750 MT to the following quarter for better pricing strategy and lower external CPO sales trading.

Hotel and property investment

Despite the marginal increase in revenue of RM27.4 million in the current YTD as compared to the preceding YTD of RM26.3 million, this division maintained its profit before tax at RM9.0 million in the current YTD.

Trading

Despite the higher revenue of RM54.5 million in the current YTD as compared to the preceding YTD of RM47.8 million, this division recorded lower profit before tax of RM3.7 million in the current YTD as compared to the preceding YTD of RM4.2 million mainly due competitive pricing strategy imposed to certain customers.

Manufacturing

This division recorded higher revenue and profit before tax of RM12.6 million and RM1.5 million for the current YTD as compared to the preceding YTD of RM7.7 million and RM0.4 million respectively mainly due to increase in sales orders as a result of improvement in product quality and manage to secure new customers.

Investment holding

This division revenue and profit before tax/(loss before tax) were mainly derived from the inter-group transactions on management fee and interest billings and charging which were eliminated at the Group level.

B2. COMMENT ON MATERIAL CHANGES IN THE PROFIT BEFORE TAX OF THE CURRENT QUARTER COMPARED WITH PRECEDING QUARTER

	3rd Quarter ended 30.06.2016 RM'000	2nd Quarter ended 31.03.2016 RM'000
Profit before tax	<u>62,638</u>	<u>75,197</u>

The profit before tax for the current quarter of RM62.6 million was lower compared to the preceding quarter of RM75.2 million. Excluding unrealised foreign exchange gains, the profit before tax of RM57.7 million in current quarter was lower as compared to the preceding quarter of RM71.2 million mainly due to absent of gain on bargain purchase on acquisition of RM4.7 million and higher accrual of sales commission by the property division. In addition, plantation division also recorded lower CPO sales in the current quarter of 21,300 MT as compared to the preceding quarter of 32,100 MT. The lower CPO sales was mainly due to deferment of sales totaling 3,750 MT to the following quarter for better pricing strategy and absent of external CPO sales trading.
