16. Operating Segments Review

Third Quarter ended 30 September 2023 ("Q3, 2023") versus Third Quarter ended 30 September 2022 ("Q3, 2022")

In Q3, 2023, the Group recorded a revenue of RM166.1 million, a decrease of 12.8% from RM190.5 million in Q3, 2022. The decreased in revenue mainly due to lower average selling paper price since Q2, 2022.

The Group's overall gross profit decreased by RM1.0 million in the current quarter under review. The decreased in gross profit was mainly due to lower production and sales volume particularly from Vietnam entities, which is a result of lower demand in key export markets and a general slowdown in the Vietnam economy.

Consequently, the Group recorded a lower loss before taxation in Q3, 2023.

Period-To-Date ended 30 September 2023 ("PTD Q3, 2023") versus Period-To-Date ended 30 September 2022 ("PTD Q3, 2022")

In PTD Q3, 2023, the Group's revenue was RM477.9 million, a decrease of 17.0% from RM576.1 million recorded in PTD Q3, 2022. The decreased in revenue is mainly due to lower sales tonnage achieved to date. In addition, revenue decreased due to the down trend in average selling paper price as the price of paper rolls have been declining since Q2, 2022. As such, the lower selling price has partly caused the decrease in total revenue.

The Group's PTD Q3, 2023 gross profit has decreased by RM7.5 million as compared to PTD Q3, 2022. The decreased in gross profit is mainly due to lower production and sales volume particularly from the Vietnam entities because of lower demand in key export markets and a general slowdown in the Vietnam economy weighing on the manufacturing companies in Vietnam.

Consequently, the Group has recorded a higher loss before taxation in PTD Q3, 2023 as compared to PTD Q3, 2022.

17. Material Change in Performance of Operating Segments for Q3, 2023 compared with Immediate Preceding Quarter Ended 30 June 2023 ("Q2, 2023")

	Current Quarter Ended 30.9.2023 RM'000	Immediate Preceding Quarter Ended 30.6.2023 RM'000	Changes %

Loss attributable to:			
Owners of the company	(647)	(4,320)	(85.0)

The Group's overall revenue increased by RM11.7 million in the current quarter under review. The increase in revenue is mainly due to higher sales tonnage from Malaysia and Vietnam.

The overall production and sales tonnage in Q3, 2023 are higher as compared to Q2, 2023. Consequently, the Group has recorded a higher gross profit by RM4.2 million and a lower loss before taxes in Q3, 2023.

18. Commentary on Prospects

The Group operates in a very competitive industry with numerous competitors. As a consequence, the results continued to reflect the challenges of managing inflationary cost impact, and the volatility of Malaysian Ringgit against United States Dollar ("USD") and hikes in interest rates.

Moreover, secondary packaging such as corrugated cartons are very dependent on the economic condition in the countries we operate in. In particular, Vietnam experienced headwinds in their economy due to a slowdown in exports. This has a direct impact to the demand for carton packaging.

Some of the plans or measures being undertaken by the Group in 2023 include the following:

- to allocate additional resources for business development activities to further increase the sales volume and sales orders from existing and new customers;
- to further improve inventories management and control to rationalise paper roll purchases;
- to further improve the production efficiencies by reducing production wastages and increase process automation to reduce overheads cost;
- · to increase focus on sales and collections to free up cash flow for the Group; and
- continuous skills development for the existing employees from sales, production and procurement divisions to enhance productivity and efficiency.

The Board of Directors ("Board") remains cautiously optimistic in addressing the challenges faced by the Group as the Group strives to improve its performance in 2023.
