7 SEGMENT RESULTS AND REPORTING

For management purposes, the Group is organised into business units based on their services and has three key reportable segments based on operating segments as follows:

- (i) The television segment is a provider of television services including television content creation, aggregation and distribution, talent management, multimedia interactive services and digital media;
- (ii) The radio segment is a provider of radio broadcasting services and media sales services;
- (iii) Home-shopping business; and
- (iv) Other non-reportable segments.

The corporate function relates to treasury and management services and is not an operating segment. The corporate function is presented as part of the reconciliation to the consolidated total.

14 ANALYSIS OF PERFORMANCE (continued)

(a) Performance of the current quarter (First Quarter FY23) against the corresponding quarter (First Quarter FY22) (continued):

Consolidated Performance

Revenue

Revenue for the current quarter of RM962.1m dropped by RM99.4m or 9.4% against the corresponding quarter of RM1,061.5m, mainly arising from the decrease in subscription revenue and merchandise sales, offset by an increase in advertising revenue.

EBITDA margin

EBITDA margin decreased by 2.5% against the corresponding quarter. This is mainly due to higher content costs, marketing and market research expenses and broadband costs, offset by lower merchandise costs and license, copyright and royalty fees, as a percentage of revenue.

Net Profit

Net profit decreased by RM46.9m or 32.9% compared with the corresponding quarter, mainly due to the decrease in EBITDA as mentioned above and higher net financing costs due to unfavourable unrealised forex loss arising from unhedged lease of transponder, offset by lower depreciation of right-of-use assets and tax expenses.

Television

Revenue for the current quarter of RM859.2m was lower by RM44.3m or 4.9% against the corresponding quarter of RM903.5m, mainly arising from the decrease in subscription revenue.

Television EBITDA decreased by RM52.1m or 14.9% against the corresponding quarter. This is due to a decrease in revenue, as mentioned above, higher broadband cost and marketing and market research expenses, mitigated by lower license, copyright and royalty fees and cost of set-top boxes.

<u>Radio</u>

Radio's revenue for current quarter has increased by RM6.0m or 14.0% compared to the corresponding quarter of last year benefiting from recovery momentum in transition to the endemic phase and the higher advertising spend in line with Ramadhan and Raya festivities in the quarter.

The higher revenue growth has contributed to an increase of EBITDA by RM8.2m or 40.6%.

Home-shopping

Home-shopping's revenue for the current quarter reduced by RM61.2m or 53.1% to close at RM54.0m compared with the corresponding quarter of RM115.2m, primarily due to the return of customers to physical stores as Malaysia entered into the endemic phase for COVID-19, subdued consumer sentiment and more cautious spending.

The lower EBITDA during the quarter is consistent with the lower revenue during the quarter.

Consolidated Performance (continued)

Net Profit

Net profit decreased by RM29.2m or 23.4% to RM95.8m during the quarter. The decrease was due to higher net finance costs due to unfavourable unrealised forex loss arising from unhedged lease of transponder, depreciation of right-of-use assets and tax expense, offset by higher EBITDA, as explained above.

Television

Revenue for the current quarter of RM859.2m dropped by RM48.7m or 5.4% against the preceding quarter of RM907.9m. This was mainly due to decrease in advertising revenue, subscription revenue and prepaid subscription revenue.

EBITDA improved by RM10.6m or 3.7% against the preceding quarter mainly due to decrease in content costs, licenses, copyright and royalty fees, staff related costs and marketing and distribution expenses, offset by decrease in revenue, as mentioned above.

<u>Radio</u>

Radio's revenue of the preceding quarter was elevated due to higher advertising spends with the New Year and Chinese New Year festive celebrations. Revenue for current quarter has dropped by RM7.7m or 13.6% as compared to preceding quarter.

EBITDA in current quarter was lower by RM16.9m or 37.3% due to the decline in revenue and higher marketing, promotion and research costs incurred in line with Radio's listenership survey.

Home-shopping

Home-shopping's revenue for the current quarter of RM54.0m was lower by RM12.9m or 19.3% compared with the preceding quarter of RM66.9m. The decline is mainly due to the return of customers to physical stores, subdued consumer sentiment and more cautious spending during the period.

15 PROSPECTS FOR THE FINANCIAL YEAR ENDING 31 JANUARY 2023

We are committed to further enhance the New Astro experience to be The Entertainment Destination for Malaysians and will continue to invest in our transformation plans, in particular content, broadband, streaming, customer experience, data, addressable advertising and technology infrastructure to simplify our processes and most importantly, to better serve our customers.

The Copyright (Amendment) Act 2022, which was gazetted in February 2022, is a major step forward in addressing digital piracy, resulting in criminalisation of the sale of Illegal Streaming Devices (ISD); and the distribution or sharing of unauthorised copyright content through applications, websites, and hyperlinks by any party through messaging applications or social media platforms.

Having transitioned into the endemic phase, the nation's economy is expected to recover. However, recovery is expected to be uneven with headwinds from intermittent COVID-19 waves, supply chain disruption leading to cost-push inflation, further interest rate hikes, and near term market volatility resulting from current geopolitical events. The Group remains cautiously optimistic and will continue to monitor business conditions, whilst prudently managing costs.

21 DERIVATIVE FINANCIAL INSTRUMENTS (continued)

(a) Disclosure of derivatives (continued)

There have been no changes since the end of the previous financial year ended 31 January 2022 in respect of the following:

- (i) the market risk and credit risk associated with the derivatives as these are used for hedging purposes;
- (ii) the cash requirements of the derivatives;
- (iii) the policies in place for mitigating or controlling the risks associated with the derivatives; and
- (iv) the related accounting policies.

(b) Disclosure of gains/(losses) arising from fair value

As for IRS and CCIRS, the fair values were obtained from the counterparty banks.

As at 30 April 2022, the Group recognised net total derivative financial assets of RM51.5m, an increase of RM49.9m from the previous financial year ended 31 January 2022, on re-measuring the fair values of the derivative financial instruments. The corresponding increase of RM50.1m has been included in equity in the hedging reserve and remaining of RM0.2m were net accrued interest.
