NOTES TO THE INTERIM FINANCIAL STATEMENTS 30 APRIL 2013

1 BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with *MFRS 134: Interim Financial Reporting* and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. These financial statements also comply with *IAS 34: Interim Financial Reporting* issued by the International Accounting Standards Board (IASB). For the periods up to and including the year ended 30 April 2012, the Group prepared its financial statements in accordance with Financial Reporting Standards (FRSs).

These condensed consolidated interim financial statements are the Group's first MFRS condensed consolidated interim financial statements for part of the period covered by the Group's first MFRS annual financial statements for the year ending 30 April 2013. MFRS 1 First-Time Adoption of Malaysian Financial Reporting Standards ("MFRS 1") have been applied.

The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 30 April 2012.

In preparing its opening MFRS Statement of Financial Position as at 1 May 2011 (which is also the date of transition), the Group has adjusted the amounts previously reported in financial statements prepared in accordance with FRS. The impact of the transition from FRS to MFRS is described in Note 2 below.

2 SIGNIFICANT ACCOUNTING POLICIES

(i) Adoption of MFRS 1

The audited financial statements of the Group for the year ended 30 April 2012 were prepared in accordance with FRS. As the requirements under FRS and MFRS are similar, the significant accounting policies adopted in preparing these condensed consolidated interim financial statements are consistent with those of the audited financial statements for the year ended 30 April 2012 except as discussed below:

(a) Property, plant and equipment

The Group has previously recorded its land and buildings at revalued amount, which is the fair value at the date of the revaluation less accumulated depreciation and any accumulated impairment losses.

30 APRIL 2013**2 SIGNIFICANT ACCOUNTING POLICIES** (Continued)**(i) Adoption of MFRS 1** (Continued)**(a) Property, plant and equipment** (Continued)

Upon transition to MFRS, the Group has elected to apply the optional exemption and measure all its property, plant and equipment at cost model under MFRS 116 Property, Plant and Equipment. At the date of transition to MFRS, the Group uses previous revaluation at or before the date of transition as deemed cost as these amounts were broadly comparable to fair value at that date. Accordingly, the revaluation surplus has been transferred to retained earnings.

(ii) Reclassification of Leasehold Land Use Rights

The Group had obtained an extension for one of its Land Lease Use Rights to 99 years and had reclassified to Property, plant & equipment in accordance with FRS 117.

The reconciliations of Condensed Consolidated Statements of Financial Position for comparative periods and of Condensed Consolidated Statements of Financial Position at the date of transition reported under FRS to those reported for those periods at the date of transition under MFRS and the reclassification are provided below:

30 APRIL 2013**17 MATERIAL CHANGE IN THE PROFIT BEFORE TAX FOR THE CURRENT QUARTER AS COMPARED TO THE IMMEDIATE PRECEDING QUARTER**

For the quarter ended 30 April 2013, the Group recorded a revenue of RM54.697 million, a decrease of RM2.273 million over the revenue of RM56.970 million in the preceding quarter, while the pre-tax profit was RM9.574 million, a decrease of RM2.626 million over the pre-tax profit of RM12.200 million in the preceding quarter.

Decrease in demand from both local and export markets during the festive month had resulted in lower sales.

The lower revenue and higher operating cost had resulted in a decrease in the current quarter's profit.

18 CURRENT YEAR PROSPECTS

Despite a recent fall in the prices of certain raw materials, the prices of the key materials remain high which will affect the input cost. The Group's operating environment is therefore expected to remain challenging and competitive.

Nevertheless, the Board is optimistic that the performance of the Group will continue to remain profitable. The Group will strive to ensure that it continues to achieve satisfactory results by implementing prudent measures, improving operational efficiency while remaining focused on product and service quality.
