Notes to the condensed consolidated interim financial statements Part A: Explanatory notes pursuant to MFRS 134

A10. Segmental information (continued)

Port operations

For the current quarter, the port operations segment contributed 97% to the Group's revenue (30 September 2019: 90%) and 85% (30 September 2019: 76%) to the Group's profit before tax.

For the year-to-date, it contributed 96% to the Group's revenue (30 September 2019: 90%) and 73% (30 September 2019: 81%) to the Group's profit before tax.

The operations for this segment are mainly in Sabah and Sabah Ports plays an important role in supporting the State's economy as shipping is widely used to transport imports and exports.

The cargo volume handled at Sabah Ports is closely correlated to the Sabah State's economy and also the regional economy. For the current quarter, there was an increase in cargo throughput of 8% as compared to the preceding year's corresponding quarter, mainly attributed to higher bulk oil and palm oil throughput. However, for the year to date, there was a decrease in cargo throughput of 15% mainly due to imposition of Movement Control Order during the year which has resulted in the drop in throughput of all types of commodities handled by the ports. The total tonnage handled for the current quarter and year-to-date was 6.8 million and 18.1 million metric tonnes respectively.

The category of container which is charged differently as per the Sabah Ports' Tariff registered an increase in total TEUs handled in the current quarter by 9% to 102,649 from 94,146 TEUs in the preceding year's corresponding quarter. For the year-to-date, total TEUs was 7% lower at 262,657 as compared to 282,446 TEUs registered in prior year-to-date.

Profit before tax has decreased by RM19.2 million (42%) to RM26.4 million for the current year-to-date from RM45.6 million in prior year. This was mainly due to lower revenue from operations registered during the year-to-date.

Despite the uncertainties in current economic condition which has been significantly impacted by the COVID-19 pandemic, we expect there will be gradual and continuous improvements in cargo throughput and containers going through the wharves for the coming months.

Logistics and bunkering services

For the current quarter and year-to-date, the logistics and bunkering services segment contributed <1% (30 September 2019: <1%) to the Group's revenue.

Although low revenue was registered for the segment, the company will continue to support the ports business as agent in logistics handling and shipping agency services.

(Company No: 198301001662 (96895-W))

Notes to the condensed consolidated interim financial statements Part A: Explanatory notes pursuant to MFRS 134

A10. Segmental information (continued)

Contract and engineering and ferry terminal operations

For the current quarter, this segment contributed 3% of the Group's revenue (30 September 2019: 15%).

For the year-to-date, it contributed 3% of the Group's revenue (30 September 2019: 9%).

The main contributor to the contract segment's revenue is the Railway upgrading project connecting Halogilat and Tenom for Sabah State Railway Department amounted to RM3.5 million for the year-to-date (30 September 2019: RM14.2 million).

In the ferry terminal operations, the passenger fees from Jesselton Point operations is the main source of revenue, contributed 35% (30 September 2019: 57%). Other revenues are derived from berthing fees, retail outlets, indoor soccer centre and handling of cruise ship passengers at Kota Kinabalu Port. During the current quarter and year-to-date, the business was adversely affected by the COVID-19 pandemic and the imposition of Movement Control Order which has affected the State's tourism sector.

Gross profit margin for this segment has decreased to <1% from 13% in 2019.

Investment holding

The investment holding or corporate segment's revenue, mainly from management fees and dividend income receivable from subsidiaries are eventually eliminated at Group's level.

Other income derived from short term investments securities and fixed deposits with licensed financial institutions are classified under other income category.

Property development

The property development's revenue is a non-recurring income to the Group which was derived from the Joint Venture with SBC Corporation Berhad to develop a parcel of development land approximately 16.25 acres, namely Jesselton Quay project at Tanjung Lipat, Kota Kinabalu.

This segment's revenue has been fully recognised in 2015 based on the minimum entitlement as per the Joint Venture Agreement but discounted to the net present value, as the proceeds will be receivable over 8 years.

Thus, for the year 2020, there would not be any amount recognised in Group's revenue except for the unwinding of discount on long term trade receivable amounted to RM13.9 million (30 September 2019: RM14.4 million) recognised under other income.

The physical works of the first phase of the project have commenced in December 2016 and has been progressing well until the imposition of the Movement Control Order ("MCO") starting 18 March 2020. Due to the MCO, the completion of the project is expected to be deferred to early 2021.

B1. Performance review

Current quarter

For the current quarter ended 30 September 2020, the Group registered revenue of RM60.9 million, decreased by RM4.4 million or 7% when compared to revenue in the previous year's corresponding quarter ended 30 September 2019 of RM65.3 million. The decrease in revenue was mainly due to lower contribution from operating activities across all business segments as well as from construction services for concession infrastructure.

The operating revenue was registered lower in the current quarter at RM56.6 million compared to RM62.3 million in the previous year's corresponding quarter, lower by RM5.7 million (9%). Besides, in accordance with IC Interpretation 12: Service Concession Arrangements, the port operations shall register revenue from construction services arising from upgrading and construction of ports infrastructure and facilities. During the quarter, revenue from construction services amounted to RM4.4 million (30 September 2019: RM3.0 million), was higher by RM1.4 million (47%). However, this revenue from construction services has no impact to the Group's profit as the same amount of construction services cost was recognised under cost of sales and zerorised at gross profit level.

The Group registered a pre-tax profit of RM14.8 million for the current quarter ended 30 September 2020, slightly lower by RM0.1 million (<1%) from RM14.9 million for the corresponding quarter ended 30 September 2019, mainly due to lower operating revenue for the quarter under review.

Year-to-date

For the year-to-date ended 30 September 2020, the Group registered revenue of RM164.5 million, decreased by RM40.1 million or 20% when compared to the prior year-to-date ended 30 September 2019 of RM204.6 million. The decrease in revenue was mainly due to lower contribution from operating activities across all business segments as well as from construction services for concession infrastructure.

The Group registered a pre-tax profit of RM36.3 million for the year-to-date ended 30 September 2020, decreased by RM19.9 million (35%) from RM56.2 million for the prior year-to-date ended 30 September 2019, mainly due to lower revenue from operations and higher other expenses for the current year-to-date.

Explanatory comment on the performance of each of the Group's business activities is provided in Note A10.

B2. Comment on material change in profit before taxation

The Group reported a pre-tax profit of RM14.8 million for the current quarter as compared to RM8.6 million for the immediate preceding quarter, representing an increase of RM6.2 million (72%), mainly due to higher operating revenue registered for the current quarter under review.

(Company No: 198301001662 (96895-W))

Notes to the condensed consolidated interim financial statements Part B: Explanatory notes pursuant to Main Market Listing Requirements of Bursa Malaysia Securities Berhad

B3. Commentary on prospects

It is anticipated that the business environment is going to be very challenging in 2020 in view of the uncertain economic outlook following the widespread of COVID-19 pandemic to most countries around the world.

The Board is positive that the port operations being the core business of the Group and categorised as essential service under the Movement Control Order, will be able to withstand the challenges and will remain resilient to contribute positive results for the Group for the financial year.

B4. Statement by directors on achievability of revenue or profit estimate, forecast, projection or internal targets

The statement by directors on achievability of revenue or profit estimate, forecast, projection or internal targets are not applicable. The Board did not announce or disclose any profit estimate, forecast, projection or internal management targets in a public document.

B5. Profit forecast or profit guarantee

The disclosure requirements for explanatory information for the variance of actual profit after tax and non-controlling interest and forecast profit after tax and non-controlling interest and for the shortfall in profit guarantee are not applicable.

B6. Corporate proposals

There are no corporate proposals announced as at the date of issue of these financial statements.

B7. Changes in material litigation

There were no material litigations for the current financial quarter and financial year-to-date.

B8. Dividends declared

No interim dividend has been recommended in respect of the financial year-to-date ended 30 September 2020 (30 September 2019: Nil). Please refer note A9.

B9. Disclosure of gains/losses arising from fair value changes of financial liabilities

The Group did not enter into any financial liabilities measured at fair value through profit or loss as at 30 September 2020 and 30 September 2019.

(Company No: 198301001662 (96895-W))
