### 12 REVIEW OF PERFORMANCE (CONTINUED)

Lower revenue in the second quarter of 2023 ("2Q2023") compared to the corresponding quarter of the preceding year ("2Q2022") was mainly due to lower selling prices of various steel products coupled with lower export sale tonnage, despite a slight improvement in local sale tonnage.

Revenue in the six months ended 30 June 2023 ("6M2023") was also lower when comparing to corresponding period of preceding year due largely to lower selling prices and tonnage of various steel products.

The Group register a loss before tax ("LBT") of RM8.54 million and RM44.06 million in 2Q2023 and 6M2023 respectively, compared to a profit before tax ("PBT") of RM29.73 million and RM71.92 million in second quarter of 2022 ("2Q2022") and six months ended 30 June 2022 ("6M2022") respectively. The loss in 2Q2023 and 6M2023 were primarily attributed to lower selling price and tonnage despite the cost of sales was lower brought on by the downward impact of raw material and fuel costs. In comparison, 2Q2022 PBT was mainly contributed from compensation for trespassing claims of RM26.97 million from Tenaga Nasional Berhad.

## 13 VARIATION OF RESULTS AGAINST PRECEDING QUARTER

	3 months	3 months ended	
	30.6.2023 RM'000	31.3.2023 RM'000	(%)
Revenue	593,643	670,726	(11.5)
Loss before tax	(8,537)	(35,518)	76.0

Lower revenue in 2Q2023 compared to the first quarter of 2023 ("1Q2023") was mainly due to lower overall sales tonnage as well as lower selling price of various steel products.

2Q2023 LBT narrowed to RM8.54 million from RM35.52 million in 1Q2023, owing primarily to lower cost of sales from lower raw material and fuel costs. The better performance was also contributed by the reversal of allowance for inventory write down of RM14.59 million (1Q2023: allowance for inventory write down of RM0.032 million). This was despite a lower one-off gain in 2Q2023 on disposal of property, plant, and equipment of RM4.93 million compared to a RM7.82 million gain on disposal of investment properties in 1Q2023.

#### 15 PROSPECTS

The global steel market remains challenging in the near term, as key steel consuming markets, particularly China is still facing strong headwinds as a result of declining steel prices and a slower pace in demand recovery amid China's faltering economy, which has been weighed down by its prolonged property sector crisis. Adverse market conditions and enduring uncertainties, such as weak global economic data, geopolitical tensions and waning global demand, continue to pose downside risks in the remainder of 2023.

Domestically, muted mega infrastructure projects continue to weigh on construction steel demand. The conclusion of the recent state elections, however, is anticipated to spur further development at both state and federal government levels, paving the way for the rollout of infrastructure projects and the implementation of its reform agenda in the coming months.

The Group continues to grow its Green Technology Division in line with its aspiration of investing in green initiatives as part of our ESG journey. Among others, Bumi Segar Indah Sdn Bhd, a 51% indirect subsidiary of the Company, had on 15 June 2023 commenced operation of the waste transfer station. Further, Ann Joo Green Energy Sdn Bhd, an indirect wholly owned subsidiary of the Company, together with its consortium partners, JAKS Solar Power Sdn. Bhd. and Fabulous Sunview Sdn. Bhd, has been successfully selected as a Solar Power Producer with an allocated export capacity of 29.99MW under the Corporate Green Power Programme. This paves the way for our presence in the green energy sector. Given that these investments are still in the early stages of development, the Group does not anticipate a significant contribution from the divisional operations in the near future.

## 15 PROSPECTS (CONTINUED)

The Group remains cautious about the development of both domestic and external fronts, and will continue to place its strong emphasis on balance sheet and cash flow management in order to stay vigilant and navigate through this volatile and challenging period.
