Revenue was marginally lower in the second quarter of 2024 ("2Q2024") compared to the corresponding quarter of the preceding year ("2Q2023") mainly due to lower selling prices of various steel products in the Upstream Steel and Downstream Steel Divisions despite higher tonnage sold, mitigated by the increase in revenue from Green Technology Division following the commencement of waste management business since June 2023.

Revenue in the six months ended 30 June 2024 ("6M2024") was also lower compared to corresponding period of preceding year due largely to lower sales tonnage of various steel products despite higher selling price.

12 REVIEW OF PERFORMANCE (CONTINUED)

The Group registered a loss before tax ("LBT") of RM58.98 million and RM76.58 million in 2Q2024 and 6M2024 respectively, compared to a LBT of RM8.54 million and RM44.06 million in 2Q2023 and 6M2023 respectively. The higher LBT in 2Q24 was primarily attributed to the followings:

- a. Depressed profit margin resulted from lower selling prices of various steel products;
- b. Higher overhead cost for plant temporary shutdown of RM9.39 million in 2Q2024 compared to RM0.21 million in 2Q2023;
- c. Recognition of an allowance for inventories write down of RM5.10 million in 2Q2024 compared to a reversal of allowance for inventories write down of RM14.59 million in 2Q2023; and
- d. Recognition of one-off gain for disposal of property, plant and equipment of RM4.93 million and gain on disposal of investment properties of RM0.27 million in 2Q2023.

Lower revenue in 2Q2024 compared to the first quarter of 2024 ("1Q2024") was mainly due to lower selling prices of various steel products and tonnage sold.

2Q2024 LBT increased to RM58.98 million from RM17.60 million in 1Q2024 was primarily attributed to the followings:

- a. Lower selling prices and tonnage sold;
- b. Higher plant shutdown expenses amounting to RM9.39 million in 2Q2024 compared to RM0.88 million in 1Q2024; and
- c. Recognition of allowance for inventories write-down amounting to RM5.10 million in 2Q2024 compared to a reversal of allowance for inventories write-down amounting to RM6.16 million in 1Q2024.

15 PROSPECTS

The global steel market entered the second half of 2024 with bearish demand sentiment and weak fundamentals, weighed down by deteriorating economic conditions in China, escalating geopolitical conflicts and increasing uncertainty brought on by the upcoming U.S. presidential election.

China's steel market, being the world largest steel producing country, continues to struggle under the weight of subdued demand, largely attributed to the prolonged downturn in the property market and shrinking manufacturing activities. The near-term outlook remains dismal, as there is little indication of significant stimulus measures to boost the demand for steel products and large-scale production cuts to address the oversupply situation.

Domestically, the market is still awaiting the much-anticipated rollout of mega infrastructure projects, with expectations of a subsequent increase in demand for construction steel. These projects may include an expanded list of high-tech industrial buildings and mega infrastructure projects, such as data centres, Penang LRT, Johor ART, and HSR.

In response to these challenging market conditions, the Group is further strengthening its cash flow management. The Group is also proposing a Rights Issue with Warrants, to enhance its capital base and secure adequate funding for operations and strategic expansions in order to remain vigilant and competitive during this challenging period.
