1. Basis of Preparation

The interim financial statements have been prepared under the historical cost convention except for the revaluation of leasehold land and buildings included within property, plant and equipment, prepaid lease payments and plantation development expenditure.

The interim financial statements are unaudited and have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 30 June 2007. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 30 June 2007.

2. Changes in Accounting Policies

The significant accounting policies adopted are consistent with those of the audited financial statements for the financial year ended 30 June 2007 except for the adoption of the Financial Reporting Standards ("FRS") 117 Leases, which is effective for financial year beginning 1 July 2007.

Prior to 1 July 2007, the Group's leasehold land held for own use was classified as property, plant and equipment and was stated at cost/valuation less accumulated depreciation and impairment losses. The adoption of the revised FRS 117 resulted in a retrospective change in the accounting policy relating to the classification of leasehold land and land deposit separately from property, plant and equipment. The upfront payments for leasehold land represent prepaid lease payments and are amortised on a straight line basis over the lease term. As allowed by the transitional provisions of FRS 117, the unamortised revalued amount of leasehold land is retained as the surrogate carrying amount of prepaid lease payments.

The reclassifications of leasehold land and land deposit have been accounted for retrospectively and the following comparative amounts as at 30 June 2007 have been restated:

Consolidated Balance Sheets At 30 June 2007	As previously stated RM '000	Adjustments on adoption of FRS 117 RM '000	As restated RM '000
Property, plant and equipment	781,592	(245,507)	536,085
Prepaid lease payments	-	245,507	245,507

The Group's profit before taxation has increased to RM168,661,000 in current quarter from RM67,861,000 in Q3 FYE2007. The Directors are of the view that the overall performance of the Group will continue to be strong due to positive CPO price and market outlooks and increased contribution from the China operation. The potential for the China operation is positive as the demand for oils and fats products are expected to be high in this growing economy.
