Review of Group's Results for the current quarter and Period-to-date ended 30 Sep 2021

The Group recorded a total revenue of RM21.664 million for the quarter ended 30 Sep 2021. The Group's loss before tax ("LBT") and loss after tax ("LAT") for the quarter were RM1.843 million for the period respectively.

The Group's revenue of RM43.458 million for the period to date 30 Sep 2021 represents an increase of approximately 18.52% as compared to the preceding corresponding period. The Group recorded LBT and LAT of RM3.139 million for the period to date 30 Sep 2021 as compared to LBT and LAT of RM1.222 million for the preceding year to date 30 Sep 2020.

The Group had recorded continuous increases in revenue for the last 2 quarters compared to preceding year corresponding quarters. However, due to the continuous increase of copper clad laminates cost, which represents more than 70% of the product COGS, the Group had not been able to generate a profit from the increasing revenue. Agreements had been gradually made with customers in relation to the copper clad laminates cost and the Group is confident to turn the losses to profit very soon. Besides, the Malaysia factory activity is back to 100% operation in September 2021 after the Government had announced Phase 2 (MCO) for State of Johor. During the past quarter, the Malaysia factory was still operating with 60% - 80% work force, while customers' purchase orders still remained at the low side while fixed expenses exceeded the income, hence resulting in losses for the Malaysia factory.

2. Financial review for Current Quarter and Immediate Preceding Quarter

	Current Period Quarter 30.09.2021 RM'000	Immediate Preceding Quarter 30.06.2021 RM'000	Changes (Amount) RM'000
Revenue	21,664	21,794	(130)
Operating Profit	559	621	(62)
Loss Before Interest and Tax	(1,744)	(888)	(856)
Loss Before Tax	(1,843)	(1,296)	(547)
Loss After tax	(1,843)	(1,296)	(547)
Loss Attributable to the Owners of the Company	(1,843)	(1,296)	(547)

The Group recorded a decrease of approximately 0.60% in its revenue of RM21.664 million for the quarter ended 30 Sep 2021 against RM21.794 million for the immediate preceding quarter ended 30 Jun 2021. The slight reduction of revenue in the current quarter is mainly due to the shortage of semiconductors globally which affected the production quantity in PNE's customers. The Group recorded LBT and LAT of RM1.843 million respectively for the current quarter ended 30 Sep 2021, as compared to LBT and LAT of RM1.296 million respectively in the immediate preceding quarter ended 30 Jun 2021. The increased loss is mainly due to higher cost of operation and slowdown of sales in Malaysia due to Covid-19 movement control order as well as the increasing cost of copper clad laminates (CCL).

3. Current year prospects

The Group is expecting a slowing down of customers' order in the 3rd Quarter due to the impact of the Global Shortage of chips, hence will lead to a slight reduction of revenue. The Malaysia factory is resuming 100% operation starting mid-September 2021, and will be expecting gradual increase in customers' demand, however, we are expecting to see the positive impact in 4th Quarter. The Group will be working hard to achieve a break-even for current financial year amid the continuous 2 years of pandemic impact on the business.

4. Segment information

Segment information is presented in respect of the Group's geographical segments. Inter-segment pricing is determined based on a negotiated basis.
