## 2. Changes in accounting policies (Cont'd)

# Amendments to MFRS 116 and MFRS 138: Clarification of Acceptable Methods of Depreciation and Amortisation

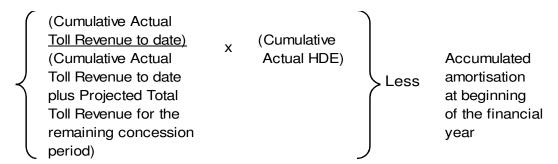

On 11 July 2014, MASB issued Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments to MFRS 116 and MFRS 138). The amendments introduced the predominant limiting factor inherent in the intangible asset to be considered in determining the appropriate amortisation methods. The predominant limiting factor is the term of contract that sets out the rights over the use of the intangible asset such as predetermined number of years, number of units produced or fixed amount of revenue to be generated. The method chosen when applied shall closely reflect the expected pattern of consumption of economic benefits, otherwise the straight-line method shall be used.

The amendments further clarify that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through the use of an asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets.

The amendments are effective prospectively for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments will be effective to the Group's financial statements ending 31 March 2017.

Subject to any consensus by the accounting profession in Malaysia over this matter, the Group continues to amortise its HDE using the existing formula and will review the existing amortisation method upon adoption of the amendment.

The Group amortise the HDE based on the following formula:

#### **MFRS 9 Financial Instruments**

In November 2014, MASB issued the final version of MFRS 9 Financial Instruments which reflects all phases of the financial instruments project and replaces MFRS 139 Financial Instruments: Recognition and Measurement and all previous versions of MFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. MFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. The adoption of MFRS 9 will have an effect on the classification and measurement of the Group's financial assets, but no impact on the classification and measurement of the Group's financial liabilities.

## 21. Comparison of profit before taxation with the immediate preceding quarter

The Group recorded higher profit before taxation of RM56.9 million for the current quarter as compared to RM43.6 million recorded in the immediate preceding quarter. This is mainly attributable to higher revenue recorded in Lingkaran Tran Kota Sdn Bhd ("LITRAK"), a subsidiary company of the Group, lower maintenance expenses in the current quarter and higher share of profit in an associate, Sistem Penyuraian Trafik KL Barat Holdings Sdn Bhd ("SPRINT Group").

The higher share of profit in SPRINT Group in the current quarter of RM5.2 million as compared to RM2.9 million recorded in the immediate preceding quarter is mainly due to lower accrual of maintenance and minor repairs in SPRINT Group in the current quarter.

#### 22. Review of performance for the current quarter and financial year-to-date
