QUARTERLY REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2007

PART A – Explanatory Notes Pursuant to Financial Reporting Standard 134 ("FRS 134") Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB")

A1. Accounting policies

The quarterly report is unaudited and has been prepared in accordance with the requirements of Financial Reporting Standard ("FRS") 134: Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB"). The interim financial reporting should be read in conjunction with the audited financial statement of the Group for the year ended 31 December 2006 and the explanatory notes. These explanatory notes provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2006.

The significant accounting policies and methods of computation adopted by the Group in this quarterly report are consistent with those of the annual financial statements for the year ended 31 December 2006 except for the adoption of the following new and revised Financial Reporting Standards and Amendments issued by MASB that are effective for financial statements commencing 1 January 2007: -

FRS 6 Exploration for and Evaluation of Mineral Resources

FRS 117 Leases

FRS 124 Related Party Disclosures

Amendment to FRS 119₂₀₀₄ Employee Benefits

-Actuarial Gains and Losses, Group Plans and Disclosures

The Group has early adopted the Amendment to FRS 121:-

Amendment to FRS 121 The Effects of Changes in Foreign Exchange Rates

-Net Investment in a Foreign Operation

FRS 6 is not relevant to the Group's operations. The adoption of FRS 124, Amendment to FRS 119₂₀₀₄ and Amendment to FRS121 does not have a significant financial impact on the Group. The effect of the changes in accounting policy resulting from the adoption of FRS 117 is as follows:

FRS 117: Leases

(i) Leasehold land

Prior to 1 January 2007, leasehold land was classified as property, plant and equipment and was stated at cost less accumulated depreciation and impairment losses. The adoption of the revised FRS 117 has resulted in a change in the accounting policy relating to the classification of leases of land and buildings. Leases of land and buildings are classified as operating or finance leases in the same way as leases of other assets and the land and buildings elements of a lease of land and buildings are considered separately for the purpose of lease classification. Leasehold land is now classified as operating lease, the minimum lease payments or the upfront payments made are allocated between the land and buildings element in proportion to the relative fair values for leasehold interests in the land element and buildings element of the lease at the inception of the lease. The upfront payment represents prepaid lease payments and are amortised on a straight-line basis over the lease term.

QUARTERLY REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2007

A1. Accounting policies (Cont'd)

FRS 117: Leases (Cont'd)

(i) Leasehold land (Cont'd)

Upon adoption of the revised FRS 117 on 1 January 2007, the unamortised amount of leasehold land is retained as the surrogate carrying amount of prepaid lease payments as allowed by the transitional provisions. There were no effects on the consolidated income statement for the current year to date. The restatement of certain comparatives are shown below:

	As previously stated	Effect of FRS117	As restated
	RM'000	RM'000	RM'000

At 30 June 2006			
Investment properties	4,295	(1744)	2,551

Investment properties	2,653	1,878	4,531
Prepaid land lease payments	-	1,734	1,734

(ii) <u>Initial direct costs</u>

Prior to 1 January 2007, the Group, as a lessor in operating lease arrangements, had recognised initial direct costs incurred in negotiating and arranging leases as an expense in the income statement in the period in which they were incurred. The revised FRS 117 requires such costs to be added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease income. According to the revised FRS 117, this change in accounting policy should be applied retrospectively. The Group does not incur significant initial costs on negotiating and arranging leases and as a result, this change in accounting policy did not materially affect the financial statements of the Group.

QUARTERLY REPORT FOR THE SECOND QUARTER ENDED 30 JUNE 2007

PART B – Explanatory Notes Pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities")

B1. Review of the performance of the Company and its principal subsidiaries

(Commentary on current quarter and current year to date)

The Group reported a pre-tax loss of RM78,000 for the current quarter as compared to the previous year corresponding quarter pre-tax profit of RM397,000, a decreased of RM475,000.

The Group reported a pre-tax profit of RM0.28 million for the six months ended 30 June 2007 as compared to the previous year corresponding period of RM3.84 million, a decreased of RM3.56 million. This was principally due to lower revenue recognised as a result of slower construction activities, hence, lower progress billings and the delay in the launching of Mon't Jade, the upmarket development in Seremban. In addition, the "Build and Sell" concept for its high-end Sri Banyan residential project in Kajang which construction is expected to be fully completed by year ending 2007 to maximize returns for the Group was only launched with completed show units in the third quarter of 2007 and this has further delayed the revenue recognition.

B2. Material changes in the quarterly results

(Comparison on current quarter with the immediate preceding quarter)

The Group recorded a pre-tax loss of RM78,000 for the current quarter as compared to pre-tax profit of RM356,000 in the immediate preceding quarter. This was principally due to lower percentage of completion recognition.

B3. (a) Current year prospects

(Commentary on the remaining year)

The implementation of the 9th Malaysia Plan, relaxation of the Foreign Investment Committee legislation and the abolishment of Real Property Gains Tax and expected expansionary Budget 2008 will augur well for the property development sector in the country. The Group expects its existing development projects namely Bandar Puteri Jaya in Sungai Petani, Seremban 3 and the up-market project, Mon't Jade in Seremban and Sri Banyan in Kajang to contribute positively to the earnings for the remaining period of the year. The recent announcement of Northern Corridor Economic Region ("NCER") by Government would also benefit the Bandar Puteri Jaya project located in Sungai Petani which is within NCER when the NCER development is in full swing.

The Group will continue to actively source for new land bank and projects in strategic locations for future developments. In this respect, the Group plans to refurbish and redevelop the recently completed acquisition of Atria Shopping Centre. In addition, the existing projects and proposed acquisition of Semponia and Country Wheels (A10 (b)) and two pieces of land (B9 (b)) are expected to contribute positively to the earnings of the Group going forward.

(c) <u>Proposed renounceable rights issue by the Company on the basis of two (2) Rights Shares with one (1) free detachable warrant for every two (2) existing ordinary shares of RM1.00 each in the Company ("OSKP Share(s)" or "Share (s)") held on an entitlement date to be determined later ("Proposed Rights Issue") (Cont'd)</u>

The Proposed Rights Issue is expected to raise an estimated gross proceeds of between RM95.49 million and RM149.99 million based on an indicative issue price of RM1 per Rights Share. The proceeds are expected to be utilised mainly for working capital, redemption of 1st tranche of Al-Bai' Bithaman Ajil Islamic Debt Securities of RM25 million due on 6 April 2008 and estimated expenses for the Proposed Rights Issue of RM1.88 million.

The rationale of the Proposed Rights Issue is (i) to provide the shareholders of the Company an opportunity to further increase their equity participation in the Company; (ii) to raise additional working capital for the Group; and (iii) the free Warrants B attached to the Rights Shares is expected to provide the shareholders of the Company an incentive to subscribe for the Rights Shares. It would enable the entitled shareholders to benefit from the future growth of the Company and any potential capital appreciation arising thereof. The Company would then be able to raise further proceeds as and when any of the Warrants B are exercised.

The Securities Commission and Bank Negara Malaysia had approved the Proposed Rights Issue on 15 June 2007 and 20 June 2007 respectively.

On 30 July 2007, shareholders of the Company have approved the ordinary resolution pertaining to the Proposed Rights Issue at the Extraordinary General Meeting.

On 31 July 2007, the Board had resolved to fix the following prices for the securities to be issued pursuant to the Proposed Rights Issue as follows:-

- (i) The issue price of the Rights Shares shall be fixed at RM1.00 per Rights Share; and
- (ii) The exercise price of the free detachable Warrants B to be issued pursuant to the Proposed Rights Issue shall be fixed at RM1.25 for every one (1) new OSKP Share.

The aforementioned issue price of RM1.00 per Rights Share was arrived at after taking into consideration the five (5)-day weighted average market price of OSKP Shares as traded on Bursa Malaysia Securities Berhad from 24 July 2007 to 30 July 2007 of RM1.412 per Share. The issue price represents a discount of RM0.206 per Share or approximately 17.081% to the theoretical ex-rights price of RM1.206.

The aforementioned exercise price of RM1.25 per Warrant B was arrived after at, taking into consideration the theoretical ex-rights price of OSKP Shares of RM1.206. The said exercise price represents a premium of RM0.044 per Share or approximately 3.648% to the theoretical ex-rights price of RM1.206.

The Proposed Rights Issue is subject to approval from Bursa Securities and is expected to be completed by the fourth quarter of 2007.
