PART A - EXPLANATORY NOTES PURSUANT TO FRS 134

A1 Basis of preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirements of Financial Reporting Standard ("FRS") 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 January 2017. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 31 January 2017.

The accounting policies and methods of computation adopted by the Group in this interim financial statements are consistent with those of the annual financial statements for the year ended 31 January 2017 except for the adoption of the following new and amended FRSs and Issues Committee ("IC") Interpretations relevant to the current operations of the Group with effect from 1 February 2017.

Amendments to FRS 107	Disclosure Initiative
Amendments to FRS 112	Recognition of Deferred Tax Assets for Unrealised Losses
Annual Improvements to FRSs	2014-2016 Cycle :
Amendments to FRS 12	Disclosure of Interests in Other Entities

The adoption of the above did not have any significant effects on the interim financial report upon their initial application.

The Group has not elected for early adoption of the following new and amended FRSs and IC Interpretations relevant to the current operations of the Group, which were issued but not yet effective for the financial year ending 31 January 2018:

Effective for
financial periods
beginning on or after
1 Jan 2018
1 Jan 2018
1 Jan 2018
1 Jan 2018
1 Jan 2018
1 Jan 2018
1 Jan 2019
Deferred

These new and amended FRSs are not expected to have any significant impact on the financial statements of the Group and the Company upon their initial application other than:

Malaysia Financial Reporting Standards (MFRS framework)

The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141, Agriculture and/or IC Interpretation 15 Agreements for the Construction of Real Estate, including its parent, significant investor and joint venture (herein called "Transitioning Entities"). Generally, Transitioning Entities are entities involved in the real estate and agriculture industries that had been given the option to continue applying the FRS Framework.

On 8 September 2015, MASB confirmed that the effective date of MFRS 15 will be deferred to annual periods beginning on or after 1 January 2018. As a result, the effective date for Transitioning Entities to apply the MFRS framework will also be deferred to annual periods beginning on or after 1 January 2018.

(Company No. : 359750-D)

The core principle of MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For the real estate industry, MFRS 15 is expected to enable property developers to recognise revenue progressively. MFRS 15 includes new disclosures (quantitative and/or qualitative information) to help investors better understand the nature, amount, timing and uncertainty of revenue and cash flows from contracts with customers. The new comprehensive disclosures are in response to investorsqcomments that companies present revenue in isolation which make it difficult for them to relate to the entity financial position.

The Group expect to present their first set of MFRS financial statements from the financial year ending 31 January 2019. In presenting its first MFRS financial statements, the Group will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained profits.
