## a) Current Quarter vs Preceding Year Corresponding Quarter

The Group recorded a profit before taxation of RM1,239.2 million for the current financial quarter, representing a decrease of 8.8% or RM119.1 million as compared to RM1,358.3 million recorded in the preceding year corresponding quarter.

The Group revenue of RM6,341.4 million for the current financial quarter ended 30 June 2024, represents a decrease of RM744.4 million or 10.5% as compared to RM7,085.8 million recorded in the preceding year corresponding quarter.

The performance of the respective operating business segments for the current financial quarter ended 30 June 2024 as compared to the preceding year corresponding quarter is analysed as follows:

#### **Power Generation**

The decrease in profit before taxation was mainly due to lower margins, partially offset by lower interest expenses following loan repayments and strengthening of Singapore Dollar against Ringgit Malaysia.

The decrease in revenue was mainly due to the lower pool price.

## Water & Sewerage

The improvement in profit before taxation was mainly due to an increase in price as allowed by the regulator, lower depreciation charges and lower interest expenses on index linked bonds as indexation fell in line with inflation movements in the United Kingdom.

The higher revenue was contributed primarily from new contracts secured within the non-household retail market and an increase in price as allowed by the regulator, coupled with strengthening of Great Britain Pound against Ringgit Malaysia.

### Telecommunications

The improvement in profit before taxation and increase in revenue was mainly due to higher project revenue recorded.

#### Investment holding activities

The decrease in profit before taxation was mainly due to decrease in revenue as mentioned below and lower share of profits of investments accounted for using the equity method, partially offset by the fair value gain arising from the acquisition of shares in Ranhill Utilities Berhad.

Revenue normalised in the current quarter as compared to a one-off adjustment made on the accumulated technical services income and shareholder loan's interest income in the preceding year corresponding quarter following commercial operation of the Jordan project.

## b) Current Year vs Preceding Year

The Group's profit before taxation for the current financial year increased to RM4,114.6 million, representing an increase of 68.0% or RM1,665.1 million as compared to RM2,449.5 million recorded in the preceding year, principally attributable to better performance in the Power Generation segment.

The performance of the respective operating business segments for the year ended 30 June 2024 as compared to the preceding year was consistent with the notes mentioned in (a) above with the exception of the business segments mentioned below:

### Power Generation

The increase in profit before taxation was mainly due to better margins, lower interest expenses following loan repayments and strengthening of Singapore Dollar against Ringgit Malaysia.

The decrease in revenue was mainly due to the lower pool price and partially offset by strengthening of Singapore Dollar against Ringgit Malaysia.

### Water & Sewerage

The higher revenue was contributed primarily from new contracts secured within the non-household retail market and an increase in price as allowed by the regulator, coupled with strengthening of Great Britain Pound against Ringgit Malaysia, whilst reduction in loss before taxation was mainly due to higher revenue recorded.

## **Investment holding activities**

The increase in profit before taxation was mainly due to higher interest income and fair value gain arising from the acquisition of shares in Ranhill Utilities Berhad, partially offset by lower share of profits of investments accounted for using the equity method.

The increase in revenue was mainly due to higher interest income as mentioned above.

## **B2.** Comparison with Preceding Quarter

## **B3.** Prospects

The prospects of the respective business segments of the Group for the financial year ending 30 June 2025 are set out below:

## Power Generation

On January 2024, YTL PowerSeraya won the inaugural request for proposal under Singapore's Energy Market Authority's new Centralised Process framework to develop a new 600MW hydrogen-ready combined-cycle gas turbine ("CCGT") power plant at its Pulau Seraya Power Station site by the end of 2027. YTL PowerSeraya's CCGT power plant will be at least 30% volume hydrogen-ready, with the ability to be retrofitted to become operationally 100% hydrogen-ready in the future. This will aid in emissions reduction, as the combustion of hydrogen gas generates no greenhouse gases, thereby underscoring the organisation's commitment to environmentally sustainable practices.

As power generation is an essential service, electricity demand is expected to remain stable. This segment will continue to focus on customer service, operational efficiency and exploring diversification beyond the core business into integrated multi-utilities supply.

The Group will be developing a large portion of the Kulai Young Estate into a large scale solar power facility with a generation capacity of up to 500MW to co-power a 500MW green data center park. This is in line with the Group's shift towards investing in more sustainable renewable energy solutions moving forward.

### Water & Sewerage

As Wessex Water's appointed business enters the last year of its Price Review ("PR19"), it continues to work towards delivering the investment commitments agreed with the regulator until the next price review is published. Under the existing regulatory settlement, any enduring inflationary cost pressures will be compensated in future years' tariff revenues. Outside of the appointed business Wessex Water continues to explore low risk opportunities for organic growth within the wider UK group.

#### Telecommunications

The Group's YES #FirstTo5G and Infinite data plans which currently provide unlimited 5G plus 4G data and its Infinite+ device plans, enables users to experience the fifth generation of wireless mobile technology, delivering higher data speed, ultra-low latency, more reliable coverage, massive network capacity and a more uniform user experience. YTL Communications expects to extend its 5G services to the rest of the country in tandem with the rollout of Digital National Berhad's ("DNB") 5G network.

On 1 December 2023, the Company, simultaneously with Telekom Malaysia Berhad, Infranation Sdn. Bhd. (a subsidiary of CelcomDigi Berhad), Maxis Broadband Sdn. Bhd. and U Mobile Sdn. Bhd. (collectively the "MNOs"), executed share subscription agreements ("SSAs") with DNB and the Minister of Finance (Incorporated) to each take up a 14% equity stake in DNB.

[Company No. 199601034332 (406684-H)]

(Incorporated in Malaysia)

#### INTERIM FINANCIAL REPORT

#### Notes - continued

On 28 June 2024, DNB announced the completion of the SSAs with four mobile network operators ("MNOs") namely, YTL Communications Sdn. Bhd. through YTL Power International Berhad, CelcomDigi Berhad through Infranation Sdn. Bhd., Maxis Broadband Sdn. Bhd. and U Mobile Sdn. Bhd.. With the completion of the four SSAs (apart from Telekom Malaysia Berhad (TM) who requires more time to obtain shareholders' approval), the four MNOs collectively acquired 65.12% equity stake in DNB, with each MNO holding a 16.28% stake. Following completion of the TM portion, each MNO will hold a 14% stake in DNB.

By continuing to offer affordable data plans and offering innovative 5G services, this segment is looking to increase its subscriber base bolstered by partnerships and collaborations.

#### Investment holding activities

The Group is currently developing the YTL Green Data Center Park within the Kulai Young Estate in Johor. This will be the first data center campus in Malaysia to be copowered by on-site renewable solar energy. To date, the first phase of the data center park is operational with construction of subsequent phases in progress. The campus will incorporate innovative and sustainable solutions in design and operations to achieve high-energy efficiency. It is expected to serve a growing demand in the region for eco-friendly, cost-efficient data center solutions from hyperscalers and co-location customers alike.

The Group in consortium with Sea Limited was awarded a digital banking licence by Bank Negara Malaysia in April 2022. This new venture, which will leverage multiple synergies between the Group and Sea Limited, will enable the Group to further contribute to the growth of Malaysia's digital transformation and broaden access of its citizens to financial services, particularly the underserved and underbanked, as well as micro, small and medium enterprises (MSMEs).

The Group expects the performance of its business segments to remain resilient due to the essential nature of its operations, and will continue to closely monitor the related risks and impact on all business segments.
