This standard sets the overall requirements for the presentation of financial statements, guidelines for their structure and the minimum requirements for their content. The standard separates owner and non-owner changes in equity, whereby the statement of changes in equity will include only details of transactions with owners, and all non-owner changes in equity are presented separately. In addition, the standard introduces the statement of comprehensive income, which presents income and expense items recognised in profit and loss, together with all other items of recognised income and expense, either in one single statement, or in two linked statements. The application of this standard does not have any impact on the financial results of the Group, as the changes introduced are presentational in nature.

1 Review of performance

The revenue recorded in Q1 2011 increased by 12% to RM27.199 million as compared to Q1 2010. This was mainly due to the general increase in the take-up rates of the Group's development projects namely Seri Astana Parcel E and Cinta Sayang Resort Homes. The recognition of revenue from the above-mentioned development projects subsequent to the commencement of construction activities was also a contributing factor.

The profit before tax of the Group increased by 40% to RM1.203 million as compared to Q1 2010. The reasons are as above.

2 Variance of results against preceding quarter

The Group's turnover for the current quarter dropped by 23% to RM27.199 million as compared to RM35.497 million recorded in the preceding quarter. Correspondingly, profit before tax decreased by 47% to RM1.203 million.

3 Current year / future prospects

As anticipated, Bank Negara Malaysa increased the key rate by 25 basis point to 2.75% in July, citing strong growth prospects for the Malaysia economy on the back of strengthening private consumption and investment. Unfortunately, interest rate hikes would negatively impact the property sector.

On the back of this, the Group plans to launch several new projects this year in order to be able to response to potential market changes. Diversifying its portfolio to include high-end properties, commercial developments and mass housing allows us to target different segments of the market.

Market response for our existing projects has been encouraging. Barring unforeseen circumstances, the Group is positive about the year ahead and is well positioned to reap the opportunities present in the market.
