Malaysian Financial Reporting Standards

On 19 November 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards Framework ("MFRS Framework"), a fully-IFRS compliant framework. Entities other than private entities should apply the MFRS Framework for annual periods beginning on or after 1 January 2012, with the exception of Transitioning Entities.

Transitioning Entities, being entities within the scope of MFRS 141 Agriculture and/or IC Interpretation 15: Agreements for the Construction of Real Estate, including its parents, significant investors and venturers were allowed to defer the adoption of the MFRS Framework until such time as mandated by the MASB.

The Malaysian Accounting Standards Board (MASB) has, on 8th September 2015, confirmed that the effective date of MFRS 15, Revenue from Contracts with Customers will be deferred to annual periods beginning on or after 1 January 2018, following the recent press release by the International Accounting Standard Board (IASB) confirming a one-year deferral of IFRS 15, Revenue from Contract with Customers.

The Group falls within the scope definition of Transitioning Entities and has availed itself of this transitional arrangement and will continue to apply FRSs in the preparation of its financial statements. Accordingly, the Group will be required to apply MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards in its financial statements for the financial year ending 31 December 2018, being the first set of financial statements prepared in accordance with the new MFRS Framework.

* Discontinued operations refers to A&W Thailand (Food), KUB Builders (EC) and Bina Alam (Others).

Below are the segmental review as compared to previous year corresponding period:

IT Sector : The sector recorded a substantial increase in revenue and profit before tax by 386% and 117% respectively as compared to the preceding year. The improvement in performance was mainly contributed by the RM42 million Automatic Fare Collection ("AFC") system contract which was awarded to the company by the Ministry of Transport in October 2015.

Energy Sector : The sector's pre-tax profit surged to RM6.1 million compared to a loss of RM155,000 in the preceding year. This was achieved through an increase in sales volume of LPG, the upward revision in the Automatic Pricing Mechanism (APM) structure and improved dealer margin as well as foreign exchange gains recognised in the current quarter.

Agro Sector : Despite the increase in fresh fruit bunch (FFB) production, the sector's pre-tax profit dropped from RM1.6 million to RM791,000 as compared to the previous year largely due to the losses incurred by the newly operational palm oil mill in Mukah.

Food Sector : The revenue for the sector increased by 7% compared to the corresponding period last year. However, the profit before tax was lower due to losses incurred on the new outlets opened in the second half of

Engineering & Construction ("EC") Sector : The sector incurred losses in the current period due to the reduced number of projects undertaken as well as the increase in production costs for existing projects.

Properties Sector : The sector remained stagnant in the current period and recorded a loss before tax of RM31,000 as compared to a loss before tax recorded in preceding year of RM25,000.

Power / O&G Sector : The sector's performance improved mainly due to a partial reversal in the LAD previously provided for certain projects.
