2. Seasonal or cyclicality of operations

The Group's Agro business is influenced by both Crude Palm Oil ("CPO") prices and Fresh Fruit Bunches ("FFB") crop production which may be affected by weather and cropping patterns. The cyclical swing in FFB crop production is generally at its lowest in the first half of the year, with gradual increase to peak production towards the second half.

The remainder of the Group's operations are not materially affected by any seasonal or cyclical events.

EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD 134

3. Items of unusual nature, size or incidence

With reference to the Winding Up of the Group's former subsidiary, KUB Sepadu Sdn Bhd ("KUBS") (as disclosed in Note 24(a)), the Liquidator had officially taken over the operational matters of KUBS on 16 November 2022. As a consequence thereof, the Group no longer holds significant influence over KUBS and has accordingly ceased to be an associate company of the Group.

The Group has therefore recognised the investment in KUBS as a financial asset measured at fair value through profit or loss ("FVTPL") with the fair value of KUBS investment of RM62.3 million. As a result, the Group recognised a gain on the fair value of RM13.4 million in the current financial year.

Pending the conclusion of the Winding Up Appeal which has been fixed on 25 September 2023, the liquidator has given their undertaking not to dispose the assets of KUBS. As such, in view of there being no active programme or committed plan to sell the assets of KUBS by the liquidator, the Group is maintaining the presentation of Agro segment as part of continuing operations.

Save as above, there were no other unusual items affecting assets, liabilities, equity, net income or cashflows during the financial period under review.

4. Changes in estimates

There were no significant changes in estimates of amounts reported in the previous quarters and financial years that have had a material effect on the financial statements of the financial year under review.

5. Debt and equity securities

There were no issuance, cancellation, repurchase, resale and repayment of debt and equity securities during the financial year under review.

6. Dividends paid

The first and final single tier dividend of 1.5 sen per ordinary share amounting to RM8.3 million in respect of the financial year ended 30 June 2022 was paid on 13 October 2022.

7. Subsequent events

There were no items, transactions or events of a material and unusual nature which have arisen since 30 June 2023 to the date of this announcement.

8. Changes in the composition of the Group

As disclosed in Note 3, KUBS is no longer an associate company to the Group and has now been classified as a financial asset measured at FVTPL which forms part of Other Investments in the Statement of Financial Position.

During the current period under review, the following dormant subsidiaries had been struck off pursuant to section 550 of the Companies Act 2016 and ceased to be the subsidiaries of the Group.

- (i) KUB Hotel and Resort Management Sdn Bhd
- (ii) ITTAR Sdn Bhd

Save as disclosed above, there were no other changes in the composition of the Group for the current quarter under review and financial period to-date.

13. Group's Financial Performance Review and Segmental Analysis

For the financial year ended 30 June 2023, the Group registered revenue of RM488.9 million and a profit after zakat and tax ("PAT") of RM33.9 million as compared to a top line of RM547.96 million and a PAT of RM24.1 million in the previous financial year.

The Group's revenue was lower than the previous financial year due to the absence of revenue contribution from the oil palm plantation business following the deconsolidation of KUBS as a subsidiary in June 2022. Despite this, the PAT rose to RM33.9 million or 41% following the recognition of gain on fair value of investment in KUBS of RM13.4 million as well as improved performance by LPG division.

The segmental performance review by divisions for the year under review are as follows:

LPG Division: The division's revenue decreased marginally by 2% or RM10.4 million as a result of the drop in average Contract Price ("CP") despite higher sales volume by 11%. Nevertheless, the overall PAT in the current financial year substantially improved by more than two-fold to RM14.8 million on the back of reduction in LPG costs as well as direct selling expenses.

Agro Division: The Agro division's revenue and profitability was formerly dependent on the plantation estates in Mukah, Sarawak held by KUBS. Following the deconsolidation of KUBS accounts in June 2022 and the official handover of the estates' operations to the liquidator on 16 November 2022, the Group no longer consolidates or equity accounts the financial results of KUBS respectively. The investment in KUBS is now classified as part of financial assets (under Other Investments) measured at FVTPL and upon the initial recognition, the Group has recognised a gain on fair value of investment at RM13.4 million in the current financial year.

As of 30 June 2023, no active programme or committed plan to sell the assets of KUBS have been initiated by the liquidator pending the conclusion of the Winding Up Appeal on 25 September 2023. As such, the Group is maintaining the presentation of Agro segment as part of continuing operations.

Others: The division's profit of RM3.96 million was substantially contributed by improved performance by the ICT business on the back of higher profit margin from the maintenance and services, and reversal of impairment on receivables by the power business.

14. Profit for the period for the current quarter compared to the immediate preceding quarter

The quarterly revenue decreased by 19.3% or RM25.1 million from the preceding quarter largely attributable to the lower LPG average contract price ("CP") whilst the sales volume remain the same.

The Group, however, posted a higher PAT than the previous quarter by 19.0% or RM1.6 million arising from higher operating margins from the LPG division. Included in the net other income in the current and previous quarter were additional fair value gain on investment in KUBS amounting to RM5.2 million and reversal of impairment on receivables RM3.1 million by the power business respectively.

15. Prospects

The Group continues to foresee a challenging and competitive economic environment to remain as issues going into FY2024 due to weakening of the Ringgit and inflationary pressures.

As the primary revenue and earnings driver of the Group, the LPG division will continue to embark on various initiatives to intensify its sales and marketing efforts to build its market share and to preserve its operational margins which have been impacted by escalating input costs and stiff competition. Barring unforeseen circumstances, the Group continues to foresee a stronger performance for the LPG business in the next financial year.

For the Agro division, apart from attempting to overturn the winding up order of KUBS at the Court Of Appeal (fixed for hearing on 25 September 2023) we are still actively pursuing several other options in order to resolve this matter with the minority shareholders in an amicable and speedy manner to achieve the best outcome for KUBS and the Group.

Overall, the Group will continue to maintain a cautious stance on the overall market and industry outlook, while remaining flexible in executing strategic plans in expanding our existing business and identifying new business opportunities as and when they arise. The Group will also continue to be vigilant and take appropriate and timely measures to sustain the Group's profitability for the FY2024.
