### PART A: EXPLANATORY NOTES PURSUANT TO FINANCIAL REPORTING STANDARD 134

#### 1. Basis of Preparation

The unaudited financial statements for the financial period ended 31 March 2010 of the Group have been prepared in accordance with Financial Reporting Standards ("FRS") 134 Interim Financial Reporting, Paragraph 9.22 and Appendix 9B of the Bursa Malaysia Securities Berhad ("Bursa Securities") Main Market Listing Requirements ("Main LR"), and should be read in conjunction with the Group's audited financial statements for the financial year ended 31 December 2009 ("2009 Audited Financial Statements").

### 2. Accounting Policies

The accounting policies, method of computation and basis of consolidation applied in the audited interim financial statements are consistent with those used in the preparation of the 2009 Audited Financial Statements except for the adoption of new standards, amendments to standards and IC Interpretations ("IC") that are mandatory for the Group for the financial period beginning 1 January 2010. The adoption of these standards, amendments and interpretations do not have a material impact on the interim financial information of the Group except for the adoption of the following standards as set out below:

# (a) Presentation of Financial Statements [FRS 101 (revised)] - Presentation of Financial Statements)

The revised standard prohibits the presentation of items of income and expenses (that is "non-owner changes in equity") in the statement of changes in equity, requiring "non-owner changes equity" to be presented separately from owner changes in equity. All non-owner changes in equity are required to be shown in the statement of comprehensive income which can be shown as a single statement or two statements (comprising the income statement and statement of comprehensive income). The Group has elected to present the statement of comprehensive income in a single statement. Comparatives have been restated to conform with current period presentation.

### (b) Segment information (FRS 8 – Operating Segments)

Operating segments are now reported in a manner consistent with the internal reporting provided to the chief operating decision maker, which has been identified as the key operating companies ("Opcos"). The adoption of FRS 8 has not resulted in a significant change in the number of reportable segments presented. Segment information is disclosed in Part A, 8 of this announcement.

# (e) Financial Instruments (FRS 139 - Financial Instruments: Recognition and Measurement)

The Group classifies its financial instruments in the following categories: at fair value through profit or loss, loans and receivable and other financial liabilities. The classification depends on the nature of the financial instruments and the purpose for which the assets/liabilities were acquired. Management determines the classification of its financial assets and liabilities at its initial recognition. Set out below are the major changes in classifications of the financial instruments of the Group:

### (i) Loans and receivables

Long term investment in unquoted investment, previously measured at cost and subject to impairment, are now classified as loans and receivables and measured at fair value plus transaction costs initially and subsequently, at amortised cost using the effective interest method.

When loans and receivables are impaired, the carrying amount of the assets is reduced and the amount of the loss is recognised in profit or loss. Impairment loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the assets' original effective interest rate.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtors' credit rating), the reversal of the previously recognised impairment loss is recognised in profit or loss.

#### (ii) Fair value through profit or loss

Derivative financial instruments and options held by the Group on the investments in associates were not previously recognised in the financial statements on inception. These are now recognised and measured at fair value on the date a derivative contract was entered into and are subsequently re-measured at fair value with changes in fair value recognised in profit or loss at each reporting date.

#### (iii)Other financial liabilities

Borrowings, previously measured at net proceeds received on issue are now recognised at fair value plus directly attributable transaction costs initially and subsequently, at amortised cost using the effective interest method.

#### 1. Review of Performance

### (a) Quarter-on-Quarter

The Group revenue grew by 31.0% in the current quarter to RM3,812.7 million from RM2,911.4 million recorded in the first quarter 2009 ("Q1'09"). The strong growth was resulted from continuous improvement in Opcos particularly in XL, Axiata (Bangladesh) Limited ("AxB") and Celcom. XL's revenue growth was in tandem with the increase in subscriber base. The subscribers with event, ARPM and ARPU grew by 67%, 17% and 21% respectively. AxB revenue grew by 25.4% compared to Q1'09 mainly resulted from increased in prepaid usage. Celcom revenue grew by 15.1% mainly due to increase in revenue generating base of 12%.

The depreciation of RM in current quarter against IDR had favourably affected the Group's translated revenue. At constant currency using Q1'09 exchange rate, the Group revenue would have registered a lower growth of 25.9%.

The Group other operating costs increased by 18.0% to RM2,134.4 million in Q1'10 from RM1,809.3 million in Q1'09, mainly driven by Celcom, XL and AxB. Celcom recorded higher marketing costs during the quarter, which was in line with higher revenue performance and aggressive marketing programs undertaken in Q1'10. While in XL, costs increased mainly resulted from sales and marketing costs, network frequency fee and licencing fee costs, which associate with 487% increase in XL's Blackberry subscribers. AxB recorded higher costs resulted from higher subscriber acquisition and rebranding exercise during the current quarter.

The Group other operating income increased by 151.7% to RM319.6 million in Q1'10 from RM127.0 million in Q1'09, mainly arising from one-off gain on disposal of shares in XL of RM307.5 million. The Group recorded a lower net finance costs of RM156.1 million in current quarter as compared to RM230.7 million in Q1'09 as a result of repayment of debt and reduction of overall debt position at Group level.

The Group recorded a foreign exchange gain of RM23.8 million in the current quarter as compared to loss of RM216.2 million in Q1'09 mainly due to strengthening of RM and IDR against USD.

The Group recorded a one-off gain on of RM173.2 million arising from the merger of Spice and Idea on 17 March 2010. Contribution from associates and a jointly controlled entity showed a loss of RM115.9 million compared to profit of RM6.8 million in Q1'09. This was mainly resulted from share of loss from licence fee write off of RM181.0 million in Spice and Idea merger exercise.

The Group profit after tax ("PAT") grew significantly to RM956.7 million in Q1'10 from RM49.8 million recorded in same period last year. The higher PAT was driven by improved PAT contribution in key Opcos and one-off gain on disposal of shares in XL.

#### 1. Review of Performance (continued)

The Group revenue improved by 1.5%, from RM3,756.0 million recorded in the fourth quarter 2009 ("Q4'09") to RM3,812.7 million in Q1'10. The growth was primarily attributed to higher revenue contribution from key Opcos resulted from increasing trend in subscriber base. Broadband revenue from Celcom continues to record positive growth of 14% compared to Q4'09. Celcom and XL remain as the major contributors towards the Group's revenue.

The Group other operating costs increased slightly by 0.7% to RM2,134.4 million in Q1'10 from RM2,120.3 million in Q4'09, mainly driven by AxB. The increase was resulted from higher subscriber acquisition and rebranding exercise in AxB during the current quarter.

Depreciation, amortisation and impairment in current quarter under review was lower by RM135.3 million compared to Q4'09. This was mainly resulted from higher depreciation charges in Celcom and Dialog Group in Q4'09.

The Group recorded a 609.0% increase in other operating income for the current quarter under review of RM319.6 million from RM45.1 million in Q4'09. The increase was mainly resulted from one-off gain on disposal of shares in XL of RM307.5 million.

The Group recorded a lower foreign exchange gain in Q1'10 of RM23.8 million as compared to gain of RM86.7 million in Q4'09. This was due to stable USD exchange rate against local currency of key Opcos.

The contribution from associates and a jointly controlled entity recorded a loss of RM115.9 million in current quarter from a profit of RM29.7 million. The Group PAT grew by 58.8% to RM956.7 million in Q1'10 from RM602.4 million recorded in Q4'09. \* EBIT = Earnings before Interest & Taxes

\*\* NOPLAT = Net Operating Profit/Loss after Tax

\*\*\* AIC = Average Invested Capital

\*\*\*\* WACC = Weighted Average Cost of Capital

Economic (Loss)/Profit is a yardstick to measure shareholder value as it provides a more accurate picture of underlying economic performance of the Group vis-à-vis its financial accounting reports, i.e. it explains how much return a business generates over its cost of capital. This can be measured from the difference of NOPLAT and Economic Charge.

The Group reported a higher WACC during the current quarter and financial period to-date due to higher proportion and cost of equity in conjunction with the enlarged equity base after the rights issue of the Company in the previous financial year.

The factors contributing to the higher Economic Loss in the current quarter and financial period to-date is mainly due to higher NOPLAT, AIC and offset by higher WACC.

### 2. Prospects for the Remaining Quarters Up to 31 December 2010

On 22 April 2010, the Group announced its Headline Key Performance Indicators guidance for the financial period ending 31 December 2010 ("2010 Headline KPIs"). 2010 Headline KPIs are as provided below:

| Headline KPIs   | 2010 Headline<br>KPIs |
|---|-----------------------|
| Revenue Growth (%)  | 12.1                  |
| Earnings before Interest, Tax, Depreciation and Amortisation Growth (%) | 14.1                  |
| Return on Invested Capital (%)  | 10.7                  |

2009 has seen an improvement in overall Group performance in almost all areas and in all major countries. This was due to our diligent execution of strategies across all operating companies. This has been further aided by the steady rebound seen in regional economies the Group operates in. However key risks continued to be faced by our operating companies include increasing competition and regulatory challenges. In light of this, a prudent approach focusing on cost management and operational improvements will continue to be the key focus as the Group see execution benefits of such a strategy amidst an uncertain environment.

The Group expects to face continued challenges for the financial period ending 31 December 2010 and will continue to take a long term view and adopt careful prudent measures in addressing the challenges to optimize its financial performance. Barring any unforeseen circumstances, the Board of Directors expect the Group's performance for the financial period ending 31 December 2010 would be in line with the announced KPIs.
