SUSTAINABILITY STATEMENT

Subur Tiasa Holdings Berhad Group ("Subur Tiasa' or the 'Group") has made progressive steps to improve our sustainability initiatives while effectively managing our environmental footprint and achieving business profitability. The Group has undertaken wide range of initiatives and efforts to further enhance our environmental management, social accountability and step up operational excellence in building a sustainable business.

SCOPE

The scope of our Sustainability Statement covers Subur Tiasa and all its subsidiaries. This encompasses its core businesses in timber industries and oil palm plantation for the financial year ended 31 July 2020.

CORPORATE GOVERNANCE

Subur Tiasa recognises the importance of managing its diverse business operations in a responsible manner through a systematic governance structure across its entire operations. By adhering to good corporate governance framework, responsible environmental and social practices, the Group is able to achieve sustainable growth and to enhance long-term value for its shareholders.

The Group has pledged a zero tolerance approach towards all forms of bribery or corruption. This is consistent with the core value to ensure that all our business relationships are conducted with integrity, ethical and honest manner. All our employees, contractors and suppliers are required to comply with the Group Anti-Bribery and Anti-Corruption Policy and legislations. The Whistleblowing Policy provides an avenue to all employees and external parties to report any illegal, unethical and improper conducts. The whistleblowing reporting procedures are available in our corporate website.

STAKEHOLDER ENGAGEMENT

At Subur Tiasa, we continue to promote regular and transparent engagement with our key stakeholders in developing trusting relationship and understanding their expectations. Stakeholders' engagement is essential for us to gain insights into matters which they are most concerned with and to address these concerns accordingly. Summarized below is an overview of our stakeholder engagement through various channels, followed by the areas of interest and outcomes achieved.

MATERIALITY MATRIX

This statement highlights some of the Group's key material issues and how we are addressing them during the year. These material issues have been ranked through our materiality assessment using data analysis and stakeholder engagement. The materiality matrix is generated based on the importance of material sustainability issues to our stakeholders and business operation as charted below:

ECONOMIC

i.

(8) Customer Requirement

The trust of consumers and other stakeholders is built by continuously delivering good quality products in line with our vision as the preferred reliable supplier of premium wood-based products. Along the way to fulfill customer expectations for consistent quality and to achieve competitive pricing, the Group has embraced innovative technology and the expansion of valueadded products.

ii. 🖉 Product Quality and Services Responsibility

Since 2019, our oil palm plantations such as Victory Pelita Kabah, Palmlyn, Tiasa Palm, Tiasa Mesra and Infrapalm have successfully obtained the Malaysian

Sustainable Palm Oil ("MSPO") Certification. Our Mujong-Melinau Forest Management Unit ("FMU") has been awarded the Certificate for Forest Management (Natural Forest) on 24 August 2020. We undertake to maintain and renew our certifications in order to uphold the highest standards prescribed under respective certifications.

iii. **Economic Performance**

The global Covid-19 pandemic as declared by World Health Organization has brought an adverse impact to the global economy. In such unpredictable economic situation, we are managing our business risks in a prudent manner while adapting to the new norm and re-strategizing our operational structures. With the economic resources provided by our shareholders and banking partners, we will continue to adopt good governance practices and to embrace proactive capital management in order to meet the financial commitments and achieve business profitability.

ENVIRONMENT

We have adopted a zero burning policy for all our oil palm plantations and logging camp operations. The Group is committed to protecting the High Conservation Value ("HCV") areas and the biodiversity found within our concession areas. Through stakeholder engagement meetings with the local communities and statutory bodies, we promote the awareness on biodiversity protection. Our initiatives on wildlife protection include enforcement of nohunting policy in our concessions areas.

🛛 🢑 Water Management

Our operations have adopted an extensive environmental management strategy to manage and preserve the available water resources. We undertake to:

- Monitor the water supply for our operation sites to ensure there is no water shortage.
- Conduct periodic water sampling to ensure our water sources are not affected by the operational

activities or external pollutants.

Maintain riparian boundaries to prevent contamination of the natural water resources.

ii. 👩 Pesticide Usage

Our operations minimize the usage of chemicals and only utilize chemical application as the last resort in managing the outbreak of pests and diseases with the following mitigation measures:

- Collect relevant data and palm trees' nutrient levels to ensure appropriate dosage levels and application methods for the application of any inorganic fertilizers.
- Apply empty fruit bunches mulch in the plantations to improve the soil nutrients and reduce the burden on the soil caused by pesticide usage.
- Collaborate with agrochemical experts to identify other natural or biological alternatives to minimize our chemical usage.
- Adopt traditional pest control using traps coupled with the usage of insecticides to better control the infestation.
- Carry out regular monitoring and census findings to ensure the pest infestation levels are below the critical levels.
- Provide internal training for all workers on the appropriate and safe methods in handling the chemicals.
- Carry out annual medical surveillance for chemical handlers to monitor their health conditions.

iii. 1 Energy Efficiency

We aim to mitigate the impacts of climate change by using the best mix of energy sources including renewable energy while improving the energy usage in our operation sites as follows:

- Raise awareness among our employees on effective control measure for energy usage.
- Install energy efficient equipment to reduce our energy consumption and wastage.
- Substitute electric lamps with solar powered alternative at operation sites.

SOCIAL

i.

Subur Tiasa believes in equal opportunity and embraces diversity within our organization. Our Group provides a conducive working environment for our people by providing training and development, career progression and retention program. We reach out to the local communities by giving back to those in need, creating job opportunities and improving the basic infrastructures.

i i i Human Resources Management

We nurture a continuous learning culture for our employees. The employees receive relevant training

to ensure that they are equipped with appropriate skills and knowledge. We strive to ensure that work-life balance is achieved and encourage healthy lifestyle with activities such as sports and recreational events through our recreational club. We continue to engage with employees through a variety of social activities and festive celebrations which serve as avenues for relationship-building and fostering a sense of belonging among employees across all business units.

ii. Occupational Safety and Health

Subur Tiasa aims to create a safe and healthy working environment for its employees. Occupational safety and health is integrated and incorporated into its business operations ranging from manufacturing, forest operations and oil palm plantations.

Various activities have been organized to promote and enhance workplace safety and health. Among the programs, three mills in our manufacturing division have volunteered to be part of the Systematic Occupational Health Enhancement Level Program (SOHELP) Phase 3 for the year 2018/2019, which was organized by the Department of Occupational Safety and Health. Overall, Subur Tiasa was selected as the top 3 from Sarawak and was chosen to represent Sarawak at SOHELP Convention in Putrajaya in August 2019. The achievements of Subur Tiasa's mills were as below:

First Aid Training

Covid-19 Prevention Measures

| Factory | Achievement |
|-------------------------------------|------------------------|
| Subur Tiasa Plywood Sdn. Bhd. | Level 4 (Advanced) |
| Subur Tiasa Particleboard Sdn. Bhd. | Level 3 (Intermediate) |
| Grace Million Sdn. Bhd. | Level 3 (Intermediate) |

In November 2019, Subur Tiasa has organized the second disaster drill at one of our factories in collaboration with agencies in Sibu such as the General Hospital, Fire and Rescue Department, Royal Malaysia Police and Civil Defense Department. The first collaborated disaster drill exercise with the said departments was held in the year 2015.

A fire and building evacuation drill, aside from basic firefighting training was organized for the logging camp in Mujong-Melinau with the assistance of Kapit Fire and Rescue Department in July 2019.

The success of safety and health program implementations was also evidenced by the attainment of MSPO certifications for oil palm plantations and the forest management certification for our logging operations.

To ensure safety awareness is continuously instilled among the workers, internal trainings are conducted by the Safety and Health Section throughout the year. Employees are also given the opportunity to attend external trainings, seminars and conferences in order to raise safety and health awareness. Safety and health committees are established at every subsidiary company as well. The committee members put on the best efforts to ensure the workplace safety by performing periodic workplace inspections and safety and health committee meetings.

In light of the recent Covid-19 pandemic outbreak, the management has also taken prompt action to ensure that the safety and well-being of the employees are taken care of. Rigorous measures as recommended by the World Health Organization and Malaysia Ministry of Health have been implemented across the Group. The Group has set up a special task force comprising kev management personnel from various operation sites and its subsidiaries. Updates from both Keselamatan Negara Mailis (MKN) and Majlis Keselamatan Negeri Sarawak (MKNS) are shared among the members

of the special task force to disseminate the information to our respective operation sites and subsidiaries. We have complied with the Safe Work Procedure for Prevention of Covid-19 at Workplace which is published by the Department of Occupational Safety and Health and Ministry of Human Resource Malaysia.

iii. 💭 Community

We seek to alleviate the community's hardships by providing our support and contribution via physical, financial and other engagements. Over the years, we have participated in our communities' festivities

Factory disaster drill in collaboration with Sibu General Hospital, Sibu Fire and Rescue Department, Sibu Royal Police and Sibu Civil Defence

The Logging camp's fire, building evacuation drill and fire safety training with Kapit Fire and Rescue Department

to foster closer ties and build rapport. We encourage volunteerism among our employees to cultivate an understanding of the communities where we operate.

We also conduct annual monitoring and review of the Social Impact Assessment internally to assess and mitigate any potential negative impacts while positive impacts are further enhanced. We have collaborated with government bodies to conduct training programs to up-skill not just our employees but the local community such as Traditional Knowledge Documentation at Mujong – Melinau FMU.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Board of Directors ("Board") of Subur Tiasa Holdings Berhad ("Subur Tiasa" or the "Company") upholds good corporate governance in building a sustainable business. The Board is committed to ensuring that a high standard of corporate governance is built on core values such as accountability, transparency and integrity. These fundamentals are practiced throughout the Group in discharging its responsibilities to protect and enhance shareholders' value and the financial performance of the Group.

Subur Tiasa takes cognizant that corporate governance is a continuous process that requires periodic reassessment and refinement of management practices and systems as set out in the Malaysian Code on Corporate Governance 2017 ("Code"). The Corporate Governance Overview Statement ("CG Statement") is to be read together with Corporate Governance Report ("the CG Report"), based on prescribed format as outlined in paragraph 15.25 of the Main Market Listing Requirements. The CG Statement and CG Report are available for reference on the Group's website at <u>www.suburtiasa.com</u>.

The Board is pleased to present the following statement which describes how the Company has applied the principles and practices as set out in the Code that has been in place throughout the financial year ended 31 July 2020.

PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS

I. BOARD RESPONSIBILITIES

The Board acknowledges its leadership role in the direction and business operations of the Group toward enhancing shareholders' value and ensuring long term sustainable development and growth of the Group.

The Board delegates the authority to the Group Managing Director who is supported by the senior management team in achieving the corporate objectives. The Group Managing Director remains accountable to the Board for the performance of the Group.

The Board also delegates specific responsibilities to Board Committees, namely Audit Committee, Nomination Committee and Remuneration Committee, all of which operate within defined terms of reference. All Board Committees do not have executive power but report to the Board on all matters considered and the ultimate responsibility for decision making on recommendations presented by the Board Committees lies with the Board.

ETHICAL STANDARDS THROUGH CODE OF CONDUCT

The Board is committed to conducting its business in accordance with a high standard of business ethics and complying with the laws, rules and regulations.

The Board has adopted a Code of Conduct covering Business Ethics, workplace safety, employees' personal conduct and for Directors in the performance and discharge of their duties and responsibilities as Directors of the Company.

The Board has also adopted a Whistleblowing Policy which aims to encourage reporting by employees in good faith, of any suspected and/or known instances of misconduct, wrongdoings, corruption, fraud, waste and/or abuse involving the resources of the Group. The Whistleblowing Policy provides an avenue not only to our employees but also external parties to report any illegal, unethical and misconducts.

During the year, the Board has established Anti-Bribery and Anti-Corruption Policy which sets out the Group's zero tolerance approach towards all forms of bribery and corruption. The policy provides guidelines for the employees and associates engaged by and representing or acting on behalf of the Group to ensure compliance with the legislations.

A summary of the Code of Conduct, Anti-Bribery and Anti-Corruption Policy and Whistleblowing Policy are available on the Company's website at <u>www.suburtiasa.com</u>.

BUSINESS SUSTAINABILITY

The Board is mindful of the importance of business sustainability and the impact on the environment, social and governance aspects in conducting the business is taken into consideration. Subur Tiasa Group also embraces sustainability in its operations and supply chain, through its own actions as well as in partnership with its stakeholders including suppliers, customers and other organizations.

The Group's activities to promote sustainability during the financial year under review are also disclosed in the Sustainability Statement set out on pages 17 to 25 of this annual report.

CORPORATE GOVERNANCE OVERVIEW STATEMENT (CONT'D)

ACCESS TO INFORMATION AND ADVICE

Management has an obligation to provide the whole Board with complete, well-focused and adequate information of which it is aware of in order to discharge the Board's responsibilities. The Board therefore expects to receive timely advice on all material information about the Group, its operating units, its activities and performance, particularly any significant variances from a planned course of progress. As a general rule, the agendas and papers on subjects discussed during Board meetings are disseminated to the Board in a timely manner prior to the Board meetings to accord sufficient time for their review, consideration and to seek clarifications (if any) so as to enable them to participate effectively in Board deliberations and decisions making. This, in turn, enables the time at the Board meeting to be conserved and used for focused discussion. All Directors have the rights and duties to make further enquiries whenever necessary.

The Board may seek independent professional advice at the Group's expense, in the furtherance of their duties to make well-informed decisions.

COMPANY SECRETARIES

The Board is supported by qualified and competent Company Secretaries to provide sound governance advice, ensure adherence to Board policies and procedures, laws and regulatory requirements, and advocate adoption of corporate governance best practices in addition to the administrative matters. All Directors have full access to the advice and services of the Company Secretaries at all times.

BOARD CHARTER

The Board has adopted a Board Charter which provides Directors with greater clarity regarding the role of the Board, the requirements of Directors in carrying out their role and discharging their duties to the Company and the Board's operating practices. The Board Charter is reviewed and updated annually in line with changes in the expectations of the investing public and stakeholders of the Company in general and the guidelines issued by the regulatory authorities from time to time.

The summary of the Board Charter is accessible through the Company's website at www.suburtiasa.com.

II. BOARD COMPOSITION

BOARD BALANCE

The Board currently has five (5) members, comprising three (3) Independent Directors, one (1) Non-Independent Non-Executive Director and one (1) Managing Director. Together, the Directors bring wide range of business, regulatory, industry and financial experience relevant to the direction of the Group.

The Board complies with paragraph 15.02 of the listing requirement of Bursa Malaysia which requires that at least two (2) Directors or one-third (1/3) of the Board, whichever is the higher, are Independent Directors. The Directors have the necessary skills, experience, qualification and other core competencies, in order to carry sufficient weight in making balanced, objective and accountable decisions.

The concept of independence as adopted by the Board is consistent with the definition of an Independent Director as set out in Paragraph 1.01 and Practice Note 13 of the Listing Requirements. The key elements for fulfilling the criteria are the appointment of Directors who are not members of Management and who are free of any relationship which could interfere the exercise of independent judgement or the ability to act in the best interest of the Company and the Group. Although all the Directors have an equal responsibility for the Group's operations, the role of Independent Directors is particularly important in ensuring that the strategies proposed by the management are fully discussed and examined, taking into account the long term interest, not only of the shareholders, but the employees, customers, suppliers and the communities in which the Group operates in.

Further, the current size and composition of the Board are considered adequate to provide an optimum mix of skills, experience and expertise. Although the Chairman is not an independent director, more than half of the Board members are independent directors. The Board is of the view that with the current Board composition, there is no imbalance of power and authority on the Board between the non-independent and independent directors. The Board believes that the Chairman is well placed to act in the best interests of the shareholders as a whole. The Board will continue to monitor and review the Board size and composition from time to time.

ANNUAL ASSESSMENT OF INDEPENDENT DIRECTORS

The Board has, through the Nomination Committee, adopted the same criteria of independence as set out in the Listing Requirements to assess the Independent Directors on an annual basis. In assessing the independence of Independent Directors, the Board, taking into account their skills, experience and contributions, as well as their background, will consider whether the Independent Directors have any relationships with the Company and their ability to exercise independent and objective judgement to the Board's deliberations at all times and to act in the best interests of the Company.

The Board, through the Nomination Committee has assessed all the Independent Directors and concluded that they met the criteria and are able to bring unbiased, independent view and advice in discharging their duties and responsibilities.

TENURE OF INDEPENDENT DIRECTORS

Under Practice 4.2 of the Code, it is recommended that the tenure of an Independent Director shall not exceed a cumulative or consecutive term of nine (9) years. However, the Nomination Committee and the Board have assessed the independence of Mdm. Ngu Ying Ping, who has served for more than nine (9) years in the Board and recommended that she continues in office as an Independent Director of the Company based on the following justifications:

- (a) Her experience, networking, understanding of business and objectively in approach enables her to provide the Board and Board Committees with pertinent expertise, skills and competence and her independent judgement will continue to add credence to the Company;
- (b) She remains professionally independent and vocal, actively participated in deliberations and exercised independent judgment at Board and Board Committee meetings without being influenced by operational consideration; and
- (c) She acts in the best interests of all shareholders and her continuation in office as Independent Director will provide a check and balance to operational management.

SEPARATION OF ROLES OF CHAIRMAN AND GROUP MANAGING DIRECTOR

There is a clear division of responsibility between the Chairman and the Group Managing Director to ensure that there is a balance of power and authority to the Board's dynamics, such that no one individual dominates the decision-making process and powers. The positions of Chairman and Group Managing Director are held by different individuals.

The Chairman, Mr. Tiong Kiong King is a Non-Independent Non-Executive Director who is responsible for the orderly conduct of meetings, facilitating matters between the Board and its investors and stakeholders, leadership, effectiveness, conduct and governance of the Board. The Group Managing Director, YBhg. Dato' Tiong Ing is responsible for the development and implementation of strategy, policies and decisions made by the Board, managing the day-to-day business operations of the Group and in ensuring the efficiency and effectiveness of the operations for the Group.

DIRECTORS' TRAINING

As an integral element of the process in appointing new Directors, the Nomination Committee provides for adequate orientation of newly appointed Directors with respect to the business structure, corporate strategy, risk profile, legal requirements, financial overview as well as expected contributions to the Board and Group.

All the Directors had completed the Mandatory Accreditation Program ("MAP") as required by Bursa Securities. The Board acknowledges that continuous training is important to broaden Directors' perspectives and to keep them abreast with latest developments in the industry, particularly on relevant new laws, regulations and changing risk factors in competitive business environment.

The Board through its Nomination Committee has assessed the training needs of its members to ensure that they are equipped with the necessary skills and knowledge in discharging of their duties as Directors of the Company.

30

CORPORATE GOVERNANCE OVERVIEW STATEMENT (CONT'D)

The descriptions of the trainings/seminars attended by the Directors during the financial year ended 31 July 2020 are as follows:

| Director | Title of training/ seminar | Number of day(s) spent |
|--------------------|--|------------------------|
| Mdm. Ngu Ying Ping | Seminar on Malaysian Anti-Corruption Commission Amendment Act 2018 | 1 day |
| | - 2020 Budget Seminar | 1 day |

The other Directors were unable to attend any formal training during the financial year due to their unavoidable tight schedule and the cancellation of many seminars or workshops resulting from the outbreak of Covid-19 pandemic. Throughout the year, all Directors regularly received updates and briefings, particularly from the Company Secretaries, internal and external auditors on changes in regulatory and requirements. They continue to remain updated on industrial practice, business environment, information and communication technologies via various in-house talks and online materials. The Directors have joined some webinars since the financial year-end.

NOMINATION COMMITTEE

The Board has on 19 June 2003 set up a Nomination Committee and members of the Nomination Committee for the financial year ended 31 July 2020 are as follows:

| Chairperson | Mdm. Ngu Ying Ping | Senior Independent Director |
|-------------|----------------------|---|
| Member | Mr. Tiong Kiong King | Non-Independent Non-Executive Director |
| Member | Mr. Tiong Ing Ming | Independent Director |
| Member | Mr. Poh Kee Eng | Independent Director |

The Nomination Committee consists of four (4) members, all of whom are Non-Executive Directors and a majority of whom are Independent Directors.

The terms of reference of the Nomination Committee is available at the Company's website at www.suburtiasa.com.

The activities carried out by the Nomination Committee during the financial year ended 31 July 2020 are as follows:

- reviewed the mix of skills, size and composition, experience, core competencies and other qualities required for the Board;
- (b) evaluated the performance and effectiveness of the Board and Board Committees including contribution of each individual director;
- (c) assessed the independence of the Independent Directors;
- (d) assessed the Directors who are due for retirement and re-appointment pursuant to the Company's Contitution and the Companies Act 2016;
- (e) reviewed the term of office, performance and effectiveness of the Audit Committee and Remuneration Committee;
- (f) assessed the training needs of Directors; and
- (g) carried out annual assessment of Directors.

The Nomination Committee meets as and when required. One (1) meeting was held during the financial year ended 31 July 2020 and was attended by all the members.

CRITERIA FOR RECRUITMENT AND ANNUAL ASSESSMENT OF DIRECTORS

The Code endorses, as good principles, a formal and transparent procedure for appointment of Directors to the Board, where the Nomination Committee shall recommend to the Board the suitable candidates to be appointed. The Code, however, states that the Board as a whole may perform this procedure, although, as a matter of good corporate governance, it is recommended that this responsibility be delegated to an independent committee.

The Nomination Committee is responsible to recommend the identified candidate to the Board if there is vacancy arises from resignation, retirement or any other reasons or if there is a need to appoint additional director with the required skill or profession to the Board.

The Board has adopted a gender diversity policy. The Board currently has two (2) female Directors namely YBhg. Dato' Tiong Ing and Mdm. Ngu Ying Ping. The Board will ensure that women candidates are sought as part of its recruitment exercise should the needs arise in the future.

TIME COMMITMENT

The existing Directors are obliged to notify the Board before accepting any new directorship in other listed issuer. The notification will include an indication of time spent on the new appointment to ensure the Directors have sufficient time to discharge their duties to the Board and other Board Committees on which they serve. All the Directors hold less than five (5) directorships in listed issuers as defined in the Listing Requirements.

All the Directors are required to submit to the Company an update on their total number of directorships held by them in listed issuers every six (6) months for monitoring purpose.

During the financial year ended 31 July 2020, four (4) Board meetings were held. The details of attendance of each of the Directors at the Board meetings were outlined as follows:

| Directors | Total |
|-----------------------|------------|
| Mr. Tiong Kiong King | 4 out of 4 |
| YBhg. Dato' Tiong Ing | 4 out of 4 |
| Mdm. Ngu Ying Ping | 4 out of 4 |
| Mr. Tiong Ing Ming | 4 out of 4 |
| Mr. Poh Kee Eng | 4 out of 4 |

The Board is satisfied with the level of time commitment given by all the Directors in fulfilling their roles and responsibilities as Directors of the Company.

III. REMUNERATION

The Board has on 19 June 2003 set up a Remuneration Committee and the members of the Remuneration Committee are as follows:

| Chairperson | Mdm. Ngu Ying Ping | Senior Independent Director |
|-------------|----------------------|---|
| Member | Mr. Tiong Kiong King | Non-Independent Non-Executive Director |
| Member | Mr. Tiong Ing Ming | Independent Director |
| Member | Mr. Poh Kee Eng | Independent Director |

The Remuneration Committee consists of four (4) members, all of whom are Non-Executive Directors and a majority of whom are Independent Directors. The Remuneration Committee met once during the financial year ended 31 July 2020.

The Board has adopted and formalized Remuneration Policies and Procedures for the Directors. Each individual Director has abstained from the Board discussion and decision making on his/her own remuneration.

The terms of reference of the Remuneration Committee and the Remuneration Policies and Procedures are available at the Company's website at www.suburtiasa.com.

The Remuneration Committee will be responsible for developing the remuneration policy and recommending the remuneration packages for Executive Directors of the Company and its subsidiaries so as to ensure that the remuneration package offered is sufficient to attract and retain Directors with necessary caliber, experience and quality required to run the Group in an effective and efficient manner. In formulating the remuneration package, the Remuneration Committee takes into account the responsibility and job functions, remuneration packages of

comparable companies within the same industry as well as individual and corporate performance. The fees for Non-Executive Directors are determined by the Board as a whole.

Details of the remuneration of the Directors of the Company for the financial year ended 31 July 2020 distinguishing between executive and non-executive Directors are set out as below:

PRINCIPLE B: EFFECTIVE AUDIT AND RISK MANAGEMENT

I. AUDIT COMMITTEE

In presenting the annual financial statements and quarterly announcement to shareholders, the Directors have fiduciary responsibility to present a balanced evaluation and comprehensive assessment of the Group's performance, position and prospects.

The Board through its Audit Committee ensures that the quarterly financial statements and audited financial statements prepared are drawn in accordance with the provision of the Companies Act 2016, Listing Requirements and the Financial Reporting Standards in Malaysia. The Audit Committee provides assistance to the Board of Directors in fulfilling these statutory and fiduciary responsibilities with regard to the financial reporting process, reviewing the scope and results of internal and external auditing processes and monitoring the effectiveness of the internal controls and risk management to ensure the Board makes properly informed decisions and the interests of shareholders are protected.

The Statement of Directors' Responsibility in respect of preparation of financial statements is set out on page 40 of this annual report.

The Company undertakes an annual assessment of the External Auditors, via the Audit Committee, based on the criteria including quality of audit services, audit fees and audit independence as set out in the Auditor Independence Policy.

In supporting the Audit Committee's assessment of their independence, the External Auditors had provided a written assurance, confirming that they were, and had been, independent throughout the conduct of the audit engagement with the Company in accordance with the By-laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants.

During the financial year under review, the Audit Committee met with the External Auditors once without the presence of other Directors and employees. The External Auditors received full cooperation from management, had full access to the Group's records and had no issue of concern that required the Audit Committee's attention.

II. RISK MANAGEMENT AND INTERNAL CONTROL

The Directors acknowledge their responsibilities for the Group's system of internal controls covering not only financial controls but also operational and compliance controls as well as risk management. The Internal Control System involves each business and key management from each business, including the Board, and is designed to meet the Group's particular needs and to manage the risks to which it is exposed. This system, by its nature, can only provide reasonable but not absolute assurance against misstatement or loss.

The Statement on Risk Management and Internal Control on pages 36 to 37 of this annual report provides an overview of the state of risk management and internal controls within the Group.

The Risk Management Committee, led by the Managing Director, YBhg. Dato' Tiong Ing, comprises heads of the respective business units.

The Risk Management Committee provides oversight and direction for the implementation and application of the Risk Management Policy and framework, reviewing Risk Management Policy and framework and make recommendation to the Board for approval, reviewing risk management process and assessing whether they provide reasonable assurance that risk are effectively managed, reviewing key business risks to ensure that action and risk mitigation plans have been implemented effectively, encouraging promotion of risk management awareness among the staff and reporting key business risks of the Group to the Board.

INTERNAL AUDIT FUNCTION

The Board has established an internal audit function within the Company, which is led by the Head of Internal Audit who reports directly to the Audit Committee. The Audit Committee reviews and approves the annual internal audit plan and audit program and ensures that there are adequate resources available for the Internal Auditors to carry out their audit responsibilities.

Details of the Company's internal audit functions are set out in the Audit Committee Report on page 39 of this annual report.

CORPORATE GOVERNANCE OVERVIEW STATEMENT (CONT'D)

PRINCIPLE C: INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

I. COMMUNICATION WITH STAKEHOLDERS

The Board and management value the importance of effective and transparent communications with shareholders and investors. This is achieved through the timely release of annual reports, quarterly announcements and other corporate announcements made to Bursa Securities. Corporate and financial information on the Group are easily accessible by the shareholders and the public through the Company's website, www.suburtiasa.com. The website provides up-to-date corporate details, overview of business activities and operations, Company's performance and position, annual reports, and all announcements made. This ensures no selective dissemination of information and there is always symmetry of information disclosure.

Currently, communications are made through the quarterly announcements of financial results to Bursa Securities, relevant announcements and circulars, general meetings of shareholders and the Company's website www. suburtiasa.com where shareholders can access corporate information, annual reports, financial information and Company announcements.

II. CONDUCT OF GENERAL MEETINGS

The Annual General Meeting is a crucial mechanism as it provides the Board an important forum for shareholders' communication. At each Annual General Meeting, the Board encourages shareholders to participate in question and answer session in order to communicate their views and to seek clarifications. The Chairman, members of the Board, Company Secretaries, senior management and external auditors are present to address queries during the meeting.

All concerns or queries regarding the Group may be conveyed to the Senior Independent Director at the Company's registered address and feedback and responses will be provided where such information can be made available to the public.

Notice of Annual General Meeting is issued and served to all shareholders at least twenty-eight (28) days prior to the Annual General Meeting. The outcome of the annual general meeting is announced to Bursa Securities on the same meeting day.

Each item of special business included in the notice of the Annual General Meeting is accompanied by a full explanation of the effects of a proposed resolution in order to facilitate understanding and evaluation of the issues involved. Separate resolutions are proposed at the Annual General Meeting for each separate issues.

COMPLIANCE STATEMENT

The Group is considered complied with the principles and recommendations of the Code, except for those disclosed herein before. With the introduction of the new Code, the Board remains committed to inculcating good corporate governance for the Group. The Group will continue to endeavor to comprehend with all the key principles and practices of the new Code where the Board deems appropriate, in its efforts to observe high standard of transparency, accountability and integrity to achieve the intended outcome.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

INTRODUCTION

36

The Board of Directors ("Board") upholds their commitment to maintaining a sound system of risk management and internal control to safeguard shareholders' investments and the Group's assets. Pursuant to paragraph 15.26(b) of the Bursa Malaysia Securities Berhad's ("Bursa Malaysia") Main Market Listing Requirements and guided by the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, the Board is pleased to present the Statement on Risk Management and Internal Control of the Group.

BOARD RESPONSIBILITY

The Board recognises the importance of a sound risk management framework and internal control system for good corporate governance and acknowledges its responsibility to establish a sound risk management framework and internal control system.

However, in view of the inherent limitations in any system, such system of risk management and internal control is designed to manage rather than to eliminate risks of failure to the achievement of the Group's business objectives. The system can therefore only provide reasonable and not absolute assurance against material misstatements or losses, fraud, contingencies or any irregularities.

RISK MANAGEMENT FRAMEWORK

The Group has put in place an ongoing risk management process to identify, evaluate, monitor and manage significant risks that affect the achievement of the Group's business objectives. The process is supported by policies, procedures, methodologies, evaluation criteria and documentation requirements to ensure clarity and consistency of application across the Group. Risk management is practised within the Group on an iterative basis.

The Group's risk profile is assessed through a bottom-up approach covering operating and supporting functions. Major business units and departments implement risk identification process to assess, evaluate and review risks pertaining to their areas of supervision and control and implement controls to manage these risks. Risk profiles of business units or departments are regularly reviewed to ensure they remain effective and current.

The Board confirms that the risk management process in identifying, evaluating and managing key business risks faced by the Group has been in place throughout the financial year 2020 and up to the date of approval of this statement.

The Board on an annual basis reviews the adequacy and effectiveness of risk management process and ensures that appropriate processes to identify and assess key business risks of the Group are implemented and appropriate measures are taken to mitigate these risks by Management. The Group has a Risk Management Committee which is chaired by the Group Managing Director and comprises Senior Management of the Group, to provide oversight and added impetus to the risk management process.

INTERNAL CONTROL SYSTEM

The Group has in place a system of internal control that provides reasonable assurance that assets of the Group are safeguarded, transactions are properly authorized and recorded and risks are managed effectively. Existing internal controls which are embedded in the daily operations of the Group are stated as follows:-

- Policies and procedures have been established for key business processes and support functions to ensure that there
 are adequate risk management, financial and operational policies, procedures and rules relating to the roles and
 responsibilities, delegation and segregation of duties;
- Annual business plans and operating budgets are prepared by business and operating units, and are approved by the Board. Actual performances and significant variances against budget are monitored on an ongoing basis;
- Management and the Board receives timely, relevant and reliable management and financial reports which are reviewed on a regular basis;
- The Group has in place a Management Information System that captures, compiles, analyzes and reports relevant data, which enables management to make business decisions in an accurate and timely manner;
- The Group's policies and procedures are reviewed and revised periodically to meet changing business and operational needs and regulatory requirements;

37

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL (CONT'D)

- Board meetings are held at least on a quarterly basis with a formal agenda on matters for discussion. In addition, regular
 management and operational meetings are conducted by senior management which comprises the Managing Director
 and divisional heads; and
- The Group's Internal Audit function monitors compliance with policies, procedures, laws and regulations, and provides
 independent assurance on the adequacy and effectiveness of the system of risk management and internal controls by
 conducting regular audits and continuous assessment. Significant audit findings and recommendations for improvements
 are highlighted to senior management and the Audit Committee, with periodic follow-up reviews of the implementation
 of corrective action plans.

The internal control system is reviewed by the Board through its Audit Committee which is supported by Internal Audit function. On a quarterly basis, reports are prepared on the adequacy, efficiency and effectiveness of the internal control system based on the annual audit plan approved by the Audit Committee.

BOARD'S ASSESSMENT

The Board has reviewed the adequacy and effectiveness of the risk management and internal control system. Based on the results of these reviews as well as the assurance it has received from the Group Managing Director and Chief Operating Officer, the Board is of the view that the Group's risk management and internal control system is operating adequately and effectively throughout the financial year 2020 and up to the date of approval of this statement.

REVIEW OF THIS STATEMENT

Pursuant to paragraph 15.23 of Bursa Malaysia Securities Berhad Main Market Listing Requirements, the external auditors have reviewed this statement for inclusion in the Annual Report for the financial year ended 31 July 2020 and reported to the Board that nothing has come to their attention that causes them to believe that this statement is inconsistent with their understanding of the process the Board has adopted for review of adequacy and effectiveness of the system of internal control and risk management.

This Statement is made in accordance with the resolution of the Board dated 6 November 2020.

AUDIT COMMITTEE REPORT (CONT'D)

INTERNAL AUDIT FUNCTION

The company has an in-house internal audit function. The Internal Audit Department plays an essential role in assisting the Committee in discharging its duties and functions. It undertakes independent, regular and systematic review of the system of internal control so as to provide reasonable assurance that such system continues to operate satisfactorily and effectively within the Group.

Annual audit plan is reviewed and approved by the Committee prior to the commencement of new financial year. The Internal Audit Department performs planned and routine audit covering all operating units within the Group i.e. forest operations, oil palm operations, manufacturing operations and including head office functions such as finance, human resources, IT and other administrative support. The emphasis is dependent on risk areas and its regular assessment. Internal Audit Department also performs ad-hoc audits and investigative assignments whenever relevant and so required. Audit reports are issued to the Committee incorporating findings and recommendations to rectify weaknesses or enhance controls as noted in the course of audits. Management's comments are incorporated in the audit findings with a commitment to improve on an agreed timeline. A monitoring or follow-up system is in place to ensure that all corrective and preventive actions had been taken by the Management on the agreed audit issues and recommendations disclosed in the audit reports.

The total cost incurred for the internal audit function in respect of financial year ended 31 July 2020 was RM921,332 (2019: RM654,258).

If any such indication exists, the Group shall estimate the recoverable amounts of these assets. | Our procedures included, amongst others:- assessing the competence, capabilities and objectivity of management's valuation experts. evaluating the valuation methodologies and the appropriateness of the assumptions used by the valuation experts. evaluating the adequacy of the disclosures in the financial statements, including disclosures of key assumptions and judgements. | | | |
| Management uses independent professional valuers to determine the fair values of property, plant and equipment of those subsidiaries (involving in the timber- related businesses) that had been making losses for the past few years. | | | | |
| We gave audit focus on the impairment of property, plant and equipment because of the significant judgement required for the determination of recoverable amounts of these property, plant and equipment. | | | | |

| Fair Values of Biological Assets Refer to Note 9 in the financial statements | | | | |
|--|--|--|--|--|
| Key Audit Matter | How our audit addressed the key audit matter | | | |
| As at 31 July 2020, the Group's biological assets carried a fair value in an aggregate of RM78.6 million. The biological assets of the Group comprise fresh fruit bunches ("FFBs") and standing timbers prior to harvest. | Our procedures included, amongst others:- evaluating the valuation methodologies and the appropriateness of assumptions used by management. | | | |
| Management uses the income approach to estimate the fair values of FFBs and standing timbers by discounting the net cash flows expected to be generated from the sale of these agricultural produce. This approach uses several key assumptions, including assumptions about future prices of FFBs and standing timbers, as well as yields of oil palm and different species of trees. | evaluating the adequacy of the disclosures in the financial statements, including disclosures of key assumptions and judgements. | | | |
| Due to the degree of management judgement involved in estimating the fair values of biological assets, we considered this to be an area of audit focus. | | | | |

Key Audit Matters (Cont'd)

| Refer to Note 16 in the financial statements | | | | | | |
|---|--|--|--|--|--|--|
| Key Audit Matter | How our audit addressed the key audit matter | | | | | |
| The Group's inventories were stated at a carrying amount of RM94.9 million as at 31 July 2020. These inventories mainly consist of work-in-progress and finished goods. Inventories are measured at the lower of cost and net realisable value. The cost of work-in-progress and finished goods is based on a bill of materials that includes an allocation of the costs, including labour and overheads, to convert raw materials into finished goods. The allocation of conversion costs and the assessment of net realisable value of inventories on hand as at the end of the reporting period require management estimates and judgements. This, in combination with the significance of inventories in the financial statements, made us identifying the valuation of inventories as a key audit matter of our audit. | Our procedures included, amongst others:- understanding management's process in determining an appropriate costing basis, including the allocation of labour and overhead costs. comparing, on a sample basis, the net realisable value to the cost of inventories as at the end of the reporting period to assess the reasonableness of inventories write-down; including testing the actual selling prices of inventories post year-end and the estimated costs to make the sale. evaluating the adequacy of the disclosures in the financial statements. | | | | | |

Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT (CONT'D) TO THE MEMBERS OF SUBUR TIASA HOLDINGS BERHAD (Incorporated In Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONT'D)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors, are disclosed in Note 5 to the financial statements.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

1. GENERAL INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia. The registered office, which is also the principal place of business, is No. 66 – 78, Pusat Suria Permata, Jalan Upper Lanang, C.D.T. 123, 96000 Sibu, Sarawak.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors dated 6 November 2020.

2. PRINCIPAL ACTIVITIES

The Company is principally engaged in the business of investment holding, provision of management services, extraction and sale of logs. The principal activities of the subsidiaries are set out in Note 5 to the financial statements. There have been no significant changes in the nature of these activities during the financial year.

3. BASIS OF PREPARATION

The financial statements of the Group are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under significant accounting policies, and in compliance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

3.1 During the current financial year, the Group has adopted the following new accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any):-

MFRSs and/or IC Interpretations (Including the Consequential Amendments)

MFRS 16 Leases

IC Interpretation 23 Uncertainty Over Income Tax Treatments

Amendments to MFRS 9: Prepayment Features with Negative Compensation

Amendments to MFRS 16: COVID-19-Related Rent Concessions

Amendments to MFRS 119: Plan Amendment, Curtailment or Settlement

Amendments to MFRS 128: Long-term Interests in Associates and Joint Ventures

Annual Improvements to MFRS Standards 2015 - 2017 Cycles

The adoption of the above accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any) did not have any material impact on the Group's financial statements except as follows:-

MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and replace the previous guidance on lease accounting. Under MFRS 16, the classification of leases as either finance leases or operating leases is eliminated for lessees. All lessees are required to recognise their leased assets and the related lease obligations in the statements of financial position (with limited exceptions) as right-of-use assets and lease liabilities respectively. The right-of-use assets are subject to depreciation and the interest on lease liabilities is calculated using the effective interest method. For a lessor, MFRS 16 continues to allow the lessor to classify its leases as either operating leases or finance leases and to account them differently. The impacts on the financial statements of the Group upon the initial application of MFRS 16 are disclosed in Note 41 to the financial statements.

The Group has early adopted Amendments to MFRS 16 which allow lessees to elect not to assess whether a COVID-19-related rent concession is a lease modification when conditions are met. The Group has applied such practical expedient to all of its COVID-19-related rent concessions and the financial impacts on the Group's financial statements are immaterial.

3. BASIS OF PREPARATION (CONT'D)

3.2 The Group has not applied in advance the following accounting standards and interpretations (including the consequential amendments, if any) that have been issued by the Malaysian Accounting Standards Board ("MASB") but are not yet effective for the current financial year:-

| MFRSs and/or IC Interpretations (Including the Consequential Amendments) | Effective Date |
|--|------------------------------------|
| MFRS 17 Insurance Contracts | 1 January 2023* |
| Amendments to MFRS 3: Definition of a Business | 1 January 2020 |
| Amendments to MFRS 3: Reference to the Conceptual Framework | 1 January 2022 |
| Amendments to MFRS 4: Extension of the Temporary Exemption from Applying MFRS 9 | At issue date of 17 August 2020 |
| Amendments to MFRS 9, MFRS 139 and MFRS 7: Interest Rate Benchmark Reform | 1 January 2020 |
| Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16: Interest Rate Benchmark Reform – Phase 2 | 1 January 2021 |
| Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture | Deferred |
| Amendments to MFRS 17: Insurance Contracts | 1 January 2023 |
| Amendments to MFRS 101 and MFRS 108: Definition of Material | 1 January 2020 |
| Amendments to MFRS 101: Classification of Liabilities as Current or Non-current | 1 January 2023** |
| Amendments to MFRS 101: Classification of Liabilities as Current or Non-current – Deferral of Effective Date | At issue date of 17 August 2020 |
| Amendments to MFRS 116: Property, Plant and Equipment – Proceeds before Intended Use | 1 January 2022 |
| Amendments to MFRS 137: Onerous Contracts – Cost of Fulfilling a Contract | 1 January 2022 |
| Amendments to References to the Conceptual Framework in MFRS Standards | 1 January 2020 |
| Annual Improvements to MFRS Standards 2018 – 2020 | 1 January 2022 |

- * The effective date has been deferred from annual reporting periods beginning on or after 1 January 2021 to 1 January 2023 pursuant to the amendments to MFRS 17 issued by the MASB, namely "Amendments to MFRS 17: Insurance Contracts".
- ** The effective date has been deferred from annual reporting periods beginning on or after 1 January 2022 to 1 January 2023 pursuant to the amendments to MFRS 101 issued by the MASB, namely "Amendments to MFRS 101: Classification of Liabilities as Current or Non-current Deferral of Effective Date".

The adoption of the above accounting standard(s) and/or interpretation(s) (including the consequential amendments, if any) is expected to have no material impact on the financial statements of the Group upon their initial application.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Key Sources of Estimation Uncertainty

Management believes that there are no key assumptions made concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year other than as disclosed below:-

(a) Depreciation of Property, Plant and Equipment

The estimates for the residual values, useful lives and related depreciation charges for the property, plant and equipment are based on commercial factors which could change significantly as a result of technical innovations and competitors' actions in response to the market conditions. The Group anticipates that the residual values of its property, plant and equipment will be insignificant. As a result, residual values are not being taken into consideration for the computation of the depreciable amount. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised. The carrying amount of property, plant and equipment as at the reporting date is disclosed in Note 6 to the financial statements.

(b) Valuation of Investment Properties

Investment properties of the Group are reported at fair value which is based on valuations performed by independent professional valuers by reference to the selling prices of recent transactions and asking prices of similar properties of nearby location and where necessary, adjusting for tenure, location, size and market trends. Other factors such as model assumptions, market dislocations and unexpected correlations can also materially affect these estimates and the resulting valuations. The carrying amount of investment properties as at the reporting date is disclosed in Note 7 to the financial statements.

(c) Impairment of Goodwill

The assessment of whether goodwill is impaired requires an estimation of the value-in-use of the cash-generating unit to which the goodwill is allocated. Estimating a value-in-use amount requires management to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill as at the reporting date is disclosed in Note 12 to the financial statements.

(d) Impairment of Property, Plant and Equipment (Including Right-of-use Assets)

The Group determines whether its property, plant and equipment (including right-of-use assets) are impaired by evaluating the extent to which the recoverable amounts of the assets are less than their carrying amounts. This evaluation is subject to changes such as market performance, economic and political situation of the country. A variety of methods is used to determine the recoverable amounts, such as valuation reports and discounted cash flows. For discounted cash flows, significant judgement is required in the estimation of the present value of future cash flows generated by the assets, which involve uncertainties and are significantly affected by assumptions used and judgements made regarding estimates of future cash flows and discount rates. The carrying amount of property, plant and equipment (including right-of-use assets) as at the reporting date is disclosed in Note 6 to the financial statements.

(e) Fair Value Estimates for Biological Assets

The biological assets of the Group consist of fresh fruit bunches ("FFBs") and trees prior to harvest. The Group adopts the income approach to estimate the fair value of biological assets. For the income approach, significant judgement is required to estimate the present value of the net cash flows expected to be generated from the sale of agricultural produce. Such estimation involves uncertainties and is affected by assumptions used and judgements made regarding future cash flows and discount rates. The carrying amount of biological assets as at the reporting date is disclosed in Note 9 to the financial statements.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONT'D)

Key Sources of Estimation Uncertainty (Cont'd)

(f) Fair Value Estimates for Unquoted Investments

The Group carries an investment that is not traded in an active market at fair value. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. The amount of fair value changes would differ if the Group uses different valuation methodologies and assumptions, and eventually affect profit. The carrying amount of the unquoted investment as at the reporting date is disclosed in Note 11 to the financial statements.

(g) Write-down of Inventories

Reviews are made periodically by management on damaged, obsolete and slow-moving inventories. These reviews require judgement and estimates. Possible changes in these estimates could result in revisions to the valuation of inventories. The carrying amount of inventories as at the reporting date is disclosed in Note 16 to the financial statements.

(h) Impairment of Trade Receivables

The Group uses the simplified approach to estimate a lifetime expected credit loss allowance for all trade receivables. The Group develops the expected loss rates based on the payment profiles of past sales and the corresponding historical credit losses, and adjusts for qualitative and quantitative reasonable and supportable forward-looking information. If the expectation is different from the estimation, such difference will impact the carrying value of trade receivables. The carrying amount of trade receivables as at the reporting date is disclosed in Note 17 to the financial statements.

(i) Impairment of Non-Trade Receivables

The loss allowances for non-trade financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting appropriate inputs to the impairment calculation, based on the past payment trends, existing market conditions as well as forward-looking estimates at the end of each reporting period. The carrying amounts of other receivables and amount owing by subsidiaries as at the reporting date are disclosed in Notes 18 and 14 to the financial statements respectively.

(j) Income Taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Group recognises tax liabilities based on its understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax expense and deferred tax balances in the period in which such determination is made.

(k) Deferred Tax Assets

Deferred tax assets are recognised for all deductible temporary differences, and unused tax losses and tax credits to the extent that it is probable that future taxable profits would be available against which the deductible temporary differences, and unused tax losses and tax credits could be utilised. Management judgement is required to determine the amount of deferred tax assets that can be recognised, based on the assessment of the probability of the future taxable profits. The carrying amount of deferred tax assets as at the reporting date is disclosed in Note 15 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D) FOR THE FINANCIAL YEAR ENDED 31 JULY 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONT'D)

Critical Judgements Made in Applying Accounting Policies

Management believes that there are no instances of application of critical judgement in applying the Group's accounting policies which will have a significant effect on the amounts recognised in the financial statements other than as disclosed below:-

(a) Classification between Investment Properties and Owner-occupied Properties

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes.

Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as investment properties.

(b) Lease Terms and Incremental Borrowing Rates

Some leases contain extension options exercisable by the Group before the end of the non-cancellable contract period. In determining the lease term, management considers all facts and circumstances including the past practice and any cost that will be incurred to change the asset if an option to extend is not taken. An extension option is only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

In determining the incremental borrowing rates of the respective leases, the Group first determines the closest available borrowing rates before using significant judgement to determine the adjustments required to reflect the term, security, value or economic environment of the respective leases.

(c) Coronavirus Disease 2019 ("COVID-19")

The current outbreak of COVID-19 has resulted in the occurrence of a multitude of associated events such as temporary closure of businesses, travel restrictions and quarantine measures across the globe. These measures and policies affect supply chains and the production of goods and services and lower economic activity which is likely to result in reduced demand for the Group's goods and services. The Group exercises judgement, in light of all facts and circumstances, to assess what event in these series of events provides additional evidence about the condition that existed at the reporting date and therefore affects the recognition and measurement of the Group's assets and liabilities at 31 July 2020.

4.2 BASIS OF CONSOLIDATION

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to the end of the reporting period.

Subsidiaries are entities controlled by the Group. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive. The Group also considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.2 BASIS OF CONSOLIDATION (CONT'D)

Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate.

Intragroup transactions, balances, income and expenses are eliminated on consolidation. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Where necessary, adjustments are made to the financial statements of subsidiaries to ensure consistency of accounting policies with those of the Group.

(a) Business Combinations

Acquisitions of businesses are accounted for using the acquisition method. Under the acquisition method, the consideration transferred for acquisition of a subsidiary is the fair value of the assets transferred, liabilities incurred and the equity interests issued by the Group at the acquisition date. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs, other than the costs to issue debt or equity securities, are recognised in profit or loss when incurred.

In a business combination achieved in stages, previously held equity interests in the acquiree are remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

Non-controlling interests in the acquiree may be initially measured either at fair value or at the noncontrolling interests' proportionate share of the fair value of the acquiree's identifiable net assets at the date of acquisition. The choice of measurement basis is made on a transaction-by-transaction basis.

(b) Non-Controlling Interests

Non-controlling interests are presented within equity in the consolidated statement of financial position, separately from the equity attributable to owners of the Company. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(c) Changes in Ownership Interests in Subsidiaries without Change of Control

All changes in the parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of consideration paid or received is recognised directly in equity of the Group.

(d) Loss of Control

Upon the loss of control of a subsidiary, the Group recognises any gain or loss on disposal in profit or loss which is calculated as the difference between:-

- (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest in the former subsidiary; and
- (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the former subsidiary and any non-controlling interests.

Amounts previously recognised in other comprehensive income in relation to the former subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of (i.e. reclassified to profit or loss or transferred directly to retained profits). The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under MFRS 9 or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.3 GOODWILL

66

Goodwill is measured at cost less accumulated impairment losses, if any. The carrying value of goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying amount may be impaired. The impairment value of goodwill is recognised immediately in profit or loss. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Under the acquisition method, any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interests recognised and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities at the date of acquisition is recorded as goodwill.

Where the latter amount exceeds the former, after reassessment, the excess represents a bargain purchase gain and is recognised in profit or loss immediately.

4.4 FUNCTIONAL AND FOREIGN CURRENCIES

(a) Functional and Presentation Currency

The individual financial statements of each entity in the Group are presented in the currency of the primary economic environment in which the entity operates, which is the functional currency.

The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional and presentation currency and has been rounded to the nearest thousand, unless otherwise stated.

(b) Foreign Currency Transactions and Balances

Transactions in foreign currencies are converted into the respective functional currencies on initial recognition, using the exchange rates at the transaction dates. Monetary assets and liabilities at the end of the reporting period are translated at the exchange rates ruling as of that date. Non-monetary assets and liabilities are translated using exchange rates that existed when the values were determined. All exchange differences are recognised in profit or loss.

(c) Foreign Operations

Assets and liabilities of foreign operations (including any goodwill and fair value adjustments arising on acquisition) are translated to the Group's presentation currency at the exchange rates at the end of the reporting period. Income, expenses and other comprehensive income of foreign operations are translated at exchange rates at the dates of the transactions. All exchange differences arising from translation are taken directly to other comprehensive income and accumulated in equity; attributed to the owners of the Company and non-controlling interests, as appropriate.

Goodwill and fair value adjustments arising from the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the end of the reporting period.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign subsidiary, or a partial disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that foreign operation attributable to the owners of the Company are reclassified to profit or loss as part of the gain or loss on disposal. The portion that related to non-controlling interests is derecognised but is not reclassified to profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.4 FUNCTIONAL AND FOREIGN CURRENCIES (CONT'D)

(c) Foreign Operations (Cont'd)

In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences is reattributed to non-controlling interests and is not recognised in profit or loss. When the Group disposes of only part of its investment in an associate that includes a foreign operation while retaining significant influence, the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

In the consolidated financial statements, when settlement of an intragroup loan is neither planned nor likely to occur in the foreseeable future, the exchange differences arising from translating such monetary item are considered to form part of a net investment in the foreign operation and are recognised in other comprehensive income.

4.5 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised in the statements of financial position when the Group has become a party to the contractual provisions of the instruments.

Financial instruments are classified as financial assets, financial liabilities or equity instruments in accordance with the substance of the contractual arrangement and their definitions in MFRS 132. Interest, dividends, gains and losses relating to a financial instrument classified as a liability are reported as an expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity.

Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

A financial instrument is recognised initially at its fair value (other than trade receivables without significant financing component which are measured at transaction price as defined in MFRS 15 *Revenue from Contracts with Customers* at inception). Transaction costs that are directly attributable to the acquisition or issue of the financial instrument (other than a financial instrument at fair value through profit or loss) are added to/deducted from the fair value on initial recognised immediately in profit or loss.

Financial instruments recognised in the statements of financial position are disclosed in the individual policy statement associated with each item.

(a) Financial Assets

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value (through profit or loss, or other comprehensive income), depending on the classification of the financial assets.

Debt Instruments

(i) Amortised Cost

The financial asset is held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset. When the asset has subsequently become credit-impaired, the interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), excluding expected credit losses, through the expected life of the financial asset or a shorter period (where appropriate).

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.5 FINANCIAL INSTRUMENTS (CONT'D)

(a) Financial Assets (Cont'd)

Debt Instruments (Cont'd)

(ii) Fair Value through Other Comprehensive Income

The financial asset is held for both collecting contractual cash flows and selling the financial asset, where the asset's cash flows represent solely payments of principal and interest. Movements in the carrying amount are taken through other comprehensive income and accumulated in the fair value reserve, except for the recognition of impairment, interest income and foreign exchange difference which are recognised directly in profit or loss. Interest income is calculated using the effective interest rate method.

(iii) Fair Value through Profit or Loss

All other financial assets that do not meet the criteria for amortised cost or fair value through other comprehensive income are measured at fair value through profit or loss.

The Group reclassifies debt instruments when and only when its business model for managing those assets changes.

Equity Instruments

All equity investments are subsequently measured at fair value with gains and losses recognised in profit or loss except where the Group has made an irrevocable election to present the subsequent changes in fair value in other comprehensive income and accumulated in the fair value reserve at initial recognition.

The designation at fair value through other comprehensive income is not permitted if the equity investment is either held for trading or is designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise.

Dividend income from this category of financial assets is recognised in profit or loss when the Group's right to receive payment is established unless the dividends clearly represent a recovery of part of the cost of the equity investments.

(b) Financial Liabilities

(i) Financial Liabilities at Fair Value through Profit or Loss

Fair value through profit or loss category comprises financial liabilities that are either held for trading or are designated to eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise. The changes in fair value of these financial liabilities are recognised in profit or loss.

(ii) Other Financial Liabilities

Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts), through the expected life of the financial liability or a shorter period (where appropriate).

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.5 FINANCIAL INSTRUMENTS (CONT'D)

(c) Equity Instruments

Equity instruments classified as equity are measured at cost and are not remeasured subsequently.

(i) Ordinary Shares

Ordinary shares are classified as equity and recorded at the proceeds received, net of directly attributable transaction costs.

Dividends on ordinary shares are recognised as liabilities when approved for appropriation.

(ii) Treasury Shares

When the Company's own shares recognised as equity are bought back, the amount of the consideration paid, including all costs directly attributable, are recognised as a deduction from equity. Own shares purchased that are not subsequently cancelled are classified as treasury shares and are presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of treasury shares.

Where treasury shares are reissued by resale, the difference between the sales consideration received and the carrying amount of the treasury shares is recognised in equity.

Where treasury shares are cancelled, their costs are transferred to retained profits.

(d) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortised cost, the difference between the carrying amount of the asset and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of a debt instrument classified as fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the fair value reserve is reclassified from equity to profit or loss. In contrast, there is no subsequent reclassification of the fair value reserve to profit or loss following the derecognition of an equity investment.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(e) Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specific debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantee contracts are recognised initially as liabilities at fair value, net of transaction costs. Subsequent to initial recognition, financial guarantee contracts are recognised as income in profit or loss over the period of the guarantee or, when there is no specific contractual period, recognised in profit or loss upon discharge of the guarantee. If the debtor fails to make payment relating to a financial guarantee contract when it is due and the Group, as the issuer, is required to reimburse the holder for the associated loss, the liability is measured at the higher of the amount of the credit loss determined in accordance with the expected credit loss model and the amount initially recognised less cumulative amortisation.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.6 INVESTMENTS IN SUBSIDIARIES

Investments in subsidiaries are stated at cost in the statement of financial position of the Company, and are reviewed for impairment at the end of the reporting period if events or changes in circumstances indicate that the carrying values may not be recoverable. The cost of the investments includes transaction costs.

On the disposal of the investments in subsidiaries, the difference between the net disposal proceeds and the carrying amount of the investments is recognised in profit or loss.

4.7 PROPERTY, PLANT AND EQUIPMENT

(a) Bearer Plants

Bearer plants, included within property, plant and equipment, are defined as living plants that are used in the production or supply of agricultural produce and for which there is only a remote likelihood that the plant will also be sold as agricultural produce. Bearer plants (before maturity), representing nursery development, and immature oil palm and coconut plantations, are measured at cost, which consists of the costs incurred in the preparation of the nursery, purchase of seedlings and maintenance of the plantations. No depreciation is provided for immature bearer plants. Upon maturity, bearer plants are measured at cost less accumulated depreciation and impairment losses, if any. Mature bearer plants are depreciated over the estimated useful lives of the bearer plants of 25 years.

(b) Other Property, Plant and Equipment

All other items of property, plant and equipment are initially measured at cost. Cost includes expenditure that are directly attributable to the acquisition of the asset and other costs directly attributable to bringing the asset to working condition for its intended use.

Subsequent to initial recognition, all property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when the cost is incurred and it is probable that the future economic benefits associated with the asset will flow to the Group and the cost of the asset can be measured reliably. The carrying amount of parts that are replaced is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Freehold land is not depreciated. Depreciation on other property, plant and equipment is charged to profit or loss (unless it is included in the carrying amount of another asset) on a straight-line method to write off the depreciable amount of the assets over their estimated useful lives. Depreciation of an asset does not cease when the asset becomes idle or is retired from active use unless the asset is fully depreciated. The principal annual rates used for this purpose are:-

| Leasehold land | Not applicable (2019: Over the lease periods of 16 to 184 years) |
|--|--|
| Buildings | 2% - 10% |
| Watercrafts, trucks and motor vehicles | 5% - 25% |
| Plant and machinery | 5% - 20% |
| Infrastructure facilities | 5% - 10% |
| Furniture, fittings and equipment | 5% - 20% |

The depreciation method, useful lives and residual values are reviewed, and adjusted if appropriate, at the end of each reporting period to ensure that the amounts, method and periods of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of the property, plant and equipment. Any changes are accounted for as a change in estimate.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.7 PROPERTY, PLANT AND EQUIPMENT (CONT'D)

(b) Other Property, Plant and Equipment (Cont'd)

Capital work-in-progress represents assets under construction, and which are not ready for commercial use at the end of the reporting period. Capital work-in-progress is stated at cost, and is transferred to the relevant category of assets and depreciated accordingly when the assets are completed and ready for commercial use.

Cost of capital work-in-progress includes direct cost, related expenditure and interest cost on borrowings taken to finance the acquisition of the assets to the date that the assets are completed and put into use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising from derecognition of the asset, being the difference between the net disposal proceeds and the carrying amount, is recognised in profit or loss.

4.8 INVESTMENT PROPERTIES

Investment properties are properties which are owned or right-of-use asset held to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, used in the production or supply of goods or services or for administrative purposes.

Investment properties which are owned are initially measured at cost. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The right-of-use asset held under a lease contract that meets the definition of investment property is measured initially similar as other right-of-use asset.

Subsequent to initial recognition, investment properties are stated at fair value with fair value changes recognised in profit or loss.

Investment properties are derecognised when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal.

On the derecognition of an investment property, the difference between the net disposal proceeds and the carrying amount is recognised in profit or loss.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property or inventories, the fair value at the date of change becomes the cost for subsequent accounting purposes. If owner-occupied property becomes an investment property, such property shall be accounted for in accordance with the accounting policy for property, plant and equipment up to the date of change in use.

4.9 LAND HELD FOR PROPERTY DEVELOPMENT

Land held for property development consists of land or such portions thereof on which no development activities have been carried out or where development activities are not expected to be completed within the Group's normal operating cycle. Such land is classified as a non-current asset and is stated at cost less accumulated impairment losses, if any.

Land held for property development is reclassified as property development costs at the point when development activities have commenced and where it can be demonstrated that the development activities can be completed within the Group's normal operating cycle.

Costs associated with the acquisition of land includes the purchase price of the land, professional fees, stamp duties, commissions, conversion fees, other direct development expenditure and related overheads.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.10 BIOLOGICAL ASSETS

Biological assets comprise produce growing on bearer plants and planted trees.

Produce growing on bearer plants (i.e. FFBs) is classified as current assets as it is expected to be harvested and sold or used for production on a date not more than 15 days after the reporting date. Planted trees are classified as non-current assets as they are expected to be harvested and sold or used for production on a date more than 12 months after the reporting date.

Biological assets are measured at fair value less costs to sell. Any gains or losses arising on initial recognition and from changes in the fair value less costs to sell are recognised in profit or loss for the period in which they arise.

4.11 INTANGIBLE ASSETS

(a) Computer Software

Computer software is initially capitalised at cost which includes the purchase price (net of any discounts and rebates) and other directly attributable cost of preparing the asset for its intended use. Direct expenditure, which enhances or extends the performance of computer software beyond its specifications and which can be reliably measured, is recognised as capital improvement and added to the original cost of the software. Costs associated with maintaining the computer software are recognised as an expense as incurred.

Capitalised computer software is subsequently carried at cost less accumulated amortisation and impairment losses, if any. These costs are amortised on a straight-line basis over their estimated useful lives of 10 years.

(b) Rights in Timber Licences

Rights in timber licences are expenditure incurred in respect of the acquisition of timber licences.

The rights acquired by the Group are stated at cost less accumulated amortisation and impairment losses, if any. The cost is amortised on a straight-line basis over the remaining tenure of the licence periods, which range from 7 to 15 years.

(c) Commercial Rights on Licence for Planted Forest ("LPF")

Commercial rights on LPF represent rights granted to the Group to plant trees on licensed area, which will expire in March 2064.

The rights acquired by the Group are stated at cost less accumulated amortisation and impairment losses, if any. The cost is amortised on a straight-line basis over the remaining term of the licence of 45 years at the date of acquisition.

Gains or losses arising from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the assets and are recognised in profit or loss when the assets are derecognised.

4.12 LEASES

The Group assesses whether a contract is or contains a lease, at the inception of the contract. The Group recognises a right-of-use asset and corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for low-value assets and short-term leases with 12 months or less. For these leases, the Group recognises the lease payments as an operating expense on a straight-line method over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.12 LEASES (CONT'D)

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The rightof-use assets that do not meet the definition of investment property are presented in the statements of financial position within property, plant and equipment, and the associated lease liabilities are presented within borrowings.

The right-of-use asset is initially measured at cost. Cost includes the initial amount of the corresponding lease liability, adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, less any incentives received.

The right-of-use asset is subsequently measured at cost less accumulated depreciation and any impairment losses, and adjustment for any remeasurement of the lease liability. The depreciation starts from the commencement date of the lease. If the lease transfers ownership of the underlying asset to the Group or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those property, plant and equipment.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in the future lease payments (other than lease modification that is not accounted for as a separate lease) with the corresponding adjustment made to the carrying amount of the right-of-use asset or recognised in profit or loss if the carrying amount has been reduced to zero.

Accounting Policies Applied Until 31 July 2019

(a) Finance Leases

A lease is recognised as a finance lease if it transfers substantially to the Group all the risks and rewards incidental to ownership. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. The corresponding liability is included in the statements of financial position as hire purchase obligations.

Minimum lease payments made under finance leases are apportioned between the finance costs and the reduction of the outstanding liability. The finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised in the profit or loss and allocated over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability for each accounting period.

Leasehold land which in substance is a finance lease is classified as property, plant and equipment.

(b) Operating Leases

All leases that do not transfer substantially to the Group all the risks and rewards incidental to ownership are classified as operating leases and, the leased assets are not recognised on the statement of financial position of the Group and of the Company.

Payments made under operating leases are recognised as an expense in the profit or loss on a straightline method over the term of the lease. Lease incentives received are recognised as a reduction of rental expense over the lease term on a straight-line method. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.13 INVENTORIES

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:-

- (a) Raw materials and general stores original cost of purchase, determined on a weighted average basis.
- (b) Finished goods and work-in-progress cost of raw materials, direct labour, and an appropriate proportion of production overheads, determined on an average basis.

Net realisable value represents the estimated selling price less the estimated costs of completion and the estimated costs necessary to make the sale.

4.14 CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash in hand, bank balances, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value with original maturity periods of three months or less. For the purpose of the statements of cash flows, cash and cash equivalents are presented net of bank overdrafts.

4.15 IMPAIRMENT

(a) Impairment of Financial Assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at fair value through other comprehensive income, and trade receivables, as well as on financial guarantee contracts.

The expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument. The Group always recognises lifetime expected credit losses for trade receivables using the simplified approach. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience and are adjusted for forward-looking information (including time value of money where appropriate).

For all other financial instruments, the Group recognises lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at fair value through other comprehensive income, for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve, and does not reduce the carrying amount of the financial asset in the statements of financial position.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.15 IMPAIRMENT (CONT'D)

(b) Impairment of Non-financial Assets

The carrying values of assets, other than those to which MFRS 136 *Impairment of Assets* does not apply, are reviewed at the end of each reporting period for impairment when an annual impairment assessment is compulsory or there is an indication that the assets might be impaired. Impairment is measured by comparing the carrying values of the assets with their recoverable amounts. When the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount and an impairment loss shall be recognised. The recoverable amount of an asset is the higher of the asset's fair value less costs to sell and its value-in-use, which is measured by reference to discounted future cash flows using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where it is not possible to estimate the recoverable amount of an individual asset, the Group determines the recoverable amount of the cash-generating unit to which the asset belongs.

An impairment loss is recognised in profit or loss immediately. Any impairment loss recognised in respect of a cash-generating unit is allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit and then to reduce the carrying amounts of the other assets in the cash-generating unit on a pro rata basis.

In respect of assets other than goodwill, and when there is a change in the estimates used to determine the recoverable amount, a subsequent increase in the recoverable amount of an asset is treated as a reversal of the previous impairment loss and is recognised to the extent of the carrying amount of the asset that would have been determined (net of amortisation and depreciation) had no impairment loss been recognised. The reversal is recognised in profit or loss immediately.

4.16 PROVISIONS

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate of the amount can be made. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the provision is the present value of the estimated expenditure required to settle the obligation. The discount rate shall be a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as interest expense in profit or loss.

4.17 EMPLOYEE BENEFITS

(a) Short-term Benefits

Wages, salaries, paid annual leave and bonuses are measured on an undiscounted basis and are recognised in profit or loss and included in the property, plant and equipment, and biological assets, where appropriate, in the period in which the associated services are rendered by employees of the Group.

(b) Defined Contribution Plans

The Group's contributions to defined contribution plans are recognised in profit or loss and included in the property, plant and equipment, and biological assets, where appropriate, in the period to which they relate. Once the contributions have been paid, the Group has no further liability in respect of the defined contribution plans.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.18 INCOME TAXES

(a) Current Tax

Current tax assets and liabilities are the expected amount of income tax recoverable or payable to the taxation authorities.

Current taxes are measured using tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period and are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss (either in other comprehensive income or directly in equity).

(b) Deferred Tax

Deferred tax is recognised using the liability method for all temporary differences other than those that arise from goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on the tax rates that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. The carrying amounts of deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that the related tax benefits will be realised.

Where investment properties are carried at their fair value, the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying value at the reporting date unless the property is depreciable and is held with the objective to consume substantially all of the economic benefits embodies in the property over time, rather than through sale.

Current and deferred tax items are recognised in correlation to the underlying transactions either in profit or loss, other comprehensive income or directly in equity. Deferred tax arising from a business combination is adjusted against goodwill or negative goodwill.

Current tax assets and liabilities or deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same taxable entity (or on different tax entities but they intend to settle current tax assets and liabilities on a net basis) and the same taxation authority.

4.19 CONTINGENT LIABILITIES

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that an outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements, unless the probability of outflow of economic benefits is remote. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.20 OPERATING SEGMENTS

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

4.21 EARNINGS PER ORDINARY SHARE

Basic earnings per ordinary share is calculated by dividing the consolidated profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the reporting period, adjusted for own shares held.

Diluted earnings per ordinary share is determined by adjusting the consolidated profit or loss attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

4.22 BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of those assets, until such time as the assets are ready for their intended use or sale. The capitalisation of borrowing costs is suspended during extended periods in which active development is interrupted. The capitalisation rate used to determine the amount of borrowing costs eligible for capitalisation is the weighted average of the borrowing costs applicable to borrowings that are outstanding during the financial year, other than borrowings made specifically for the purpose of financing a specific project-in-progress, in which case the actual borrowing costs incurred on that borrowings less any investment income on temporary investment of that borrowings will be capitalised.

All other borrowing costs are recognised in profit or loss as expenses in the period in which they are incurred.

4.23 FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using a valuation technique. The measurement assumes that the transaction takes place either in the principal market or in the absence of a principal market, in the most advantageous market. For a non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial reporting purposes, the fair value measurements are analysed into level 1 to level 3 as follows:-

- Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liability that the entity can access at the measurement date;
- Level 2: Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Inputs are unobservable inputs for the asset or liability.

The transfer of fair value between levels is determined as of the date of the event or change in circumstances that caused the transfer.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.24 REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is measured based on the consideration specified in a contract with a customer in exchange for transferring goods or services to a customer net of sales and service tax, returns, rebates and discounts. The Group recognises revenue when (or as) it transfers control over a product or service to customer. An asset is transferred when (or as) the customer obtains control of the asset. Depending on the substance of the contract, revenue is recognised when the performance obligation is satisfied, which may be at a point in time or over time.

(a) Sale of Goods

Revenue from the sale of goods is recognised when the Group has transferred control of the goods to the customer, being when the goods have been delivered to the customer and upon its acceptance. Following delivery, the customer has full discretion over the manner of distribution and price to sell the goods, and bears the risks of obsolescence and loss in relation to the goods.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(b) Rendering of Services

Revenue from the provision of services is recognised over time in the period in which services are rendered. Customers are invoiced on a monthly basis and consideration is payable when invoiced.

4.25 OTHER INCOME

(a) Dividend Income

Dividend income from investment is recognised when the right to receive dividend payment is established.

(b) Interest Income

Interest income is recognised on an accrual basis using the effective interest method.

(c) Rental Income

Rental income is accounted for on a straight-line method over the lease term.

- (c) Certain buildings of the Group with a total carrying amount of RM1,831,000 (2019: RM1,973,000) are situated on land which is held by a company in which a director of certain subsidiaries and certain substantial shareholders of the Company have financial interests.
- (d) During the financial year, the Group carried out a review of the recoverable amount of its property, plant and equipment because certain subsidiaries had been making losses for the past few years. An impairment loss of RM3,321,000 (2019: Nil), representing the write-down of the property, plant and equipment to the recoverable amount was recognised in "Other Expenses" line item of the consolidated statement of profit or loss and other comprehensive income as disclosed in Note 30 to the financial statements. The recoverable amount of the property, plant and equipment was determined based on valuations performed by independent professional valuers on market comparison approach and depreciated replacement cost method. The methods make reference to:-
 - (i) Land the recent transacted prices of similar land in close proximity with adjustments made for size, location, improvements and tenure.
 - (ii) Buildings the estimation of reproduction cost of the buildings of same kind and design as when new based on current market prices for materials, labour and current construction techniques and deducting therefrom the accrued depreciation due to use and disrepair, age and obsolescence through technology and market changes.
 - (iii) Plant and machinery the remaining economic life span of the plant and machinery, current state of the technology of the industry and the observed physical condition of the plant and machinery.

(g) Leases – the Group as a lessee

The Group leases leasehold land, buildings, watercrafts, trucks and motor vehicles, and plant and machinery for its operational purposes:-

(i) Leasehold land

The Group has made upfront payment to secure the right-of-use of leasehold land for lease periods ranging from 4 to 183 years. Certain pieces of leasehold land are pledged to licensed banks as security for banking facilities granted to the Group as disclosed in (b) above. There is no option to purchase the leasehold land at the expiry of the respective lease periods.

(ii) Buildings

The Group has leased buildings which are used as offices and staff quarters that run in the period ranging from 2 to 3 years, with an option to renew the leases upon the expiry of the respective lease terms. The Group is restricted from assigning and subleasing the leased assets without the written consent of the lessor and the leased assets may not be used as security for borrowing purposes. The extension option is negotiated by management to provide flexibility in managing the portfolio of assets and to align with the Group's business needs.

(iii) Watercrafts, trucks and motor vehicles, and plant and machinery

Watercrafts, trucks and motor vehicles, and plant and machinery have been leased under hire purchase arrangements. The leases are secured by the leased assets with lease terms ranging from 4 to 5 years; and bear effective interest at rates ranging from 4.86% to 6.53% per annum. The Group has an option to purchase the assets at the expiry of the respective lease periods at an insignificant amount.

The comparative information is not presented as the Group has applied MFRS 16 using the modified retrospective approach.

6. PROPERTY, PLANT AND EQUIPMENT (CONT'D)

(h) Leases – the Group as a lessor

The Group leases buildings and equipment to its customers under operating leases with rentals payable monthly. The leases contain initial non-cancellable periods ranging from 1 to 2 years and their subsequent renewals are negotiated separately on a contract-by-contract basis.

The Group does not require a financial guarantee. Instead, the Group requires 1 to 3 months of advanced payments from the lessees. The leases do not include residual value guarantee and variable lease payments.

As at the reporting date, the future minimum rentals receivable under the non-cancellable operating leases are as follows:-

| | The Group 2020 RM'000 | The Company 2020 RM'000 |
|--|---|-------------------------------|
| Within 1 year Between 1 and 2 years | 219 60 | 160 240 |

7. INVESTMENT PROPERTIES (CONT'D)

(a) The investment properties of the Group and of the Company are leased to customers under operating leases with rentals payable monthly. The leases contain initial non-cancellable periods ranging from 1 to 10 and 10 years respectively and an option that is exercisable by the customers to extend their leases for an average of 1 year.

The Group and the Company do not require a financial guarantee. Instead, the Group and the Company require 2 to 3 months of advanced payments from the lessees. The leases do not include residual value guarantee and variable lease payments that depend on an index or rate.

As at the reporting date, the future minimum rentals receivable under the non-cancellable operating leases are as follows:-

| | The Group 2020 RM'000 | The Company 2020 RM'000 |

The comparative information is not presented as the Group and the Company have applied MFRS 16 using the modified retrospective approach.

- (b) The investment properties of the Company are pledged to licensed banks as security for banking facilities granted to the Company as disclosed in Note 23 to the financial statements.
- (c) Investment properties are stated at fair value, which is determined based on valuations performed by independent professional valuers at the end of the reporting date using the market comparison approach. Sales prices of comparable properties in close proximity are adjusted for differences in key attributes such as property size, location, tenure and market trends. The most significant input into this valuation approach is price per acre of comparable properties. There has been no change to the valuation technique during the financial year.

The fair values of the investment properties are within level 2 of the fair value hierarchy.

There were no transfers between level 1 and level 2 during the financial year.

The fair value measurements of the investment properties are based on the highest and best use which does not differ from their actual use.

| | | | |

The biological assets of the Group comprise trees prior to harvest and unharvested agricultural produce of bearer plants, i.e. fresh fruit bunches ("FFBs").

(a) Biological Assets, Non-current – Trees Prior to Harvest

The Group adopted the income approach to measure the fair value of the unharvested trees. To arrive at the fair value of the unharvested trees, management considered the net cash flows to be incurred and generated from the management of tree planting. Costs to sell, which include harvesting and transportation costs, are deducted from the fair value. The key assumptions used in the determination of the fair value less costs to sell of the unharvested trees are as follows:-

- (i) number of trees planted as of the reporting date, adjusted for mortality rates estimated based on past experience.
- (ii) grow-out periods of trees planted and yields at harvest based on past experience of those in natural and planted forests.
- (iii) estimated prices of unharvested trees based on the market prices of trees as of the reporting date, adjusted for harvesting and transportation costs estimated based on past experience.

The fair value measurement of the Group's unharvested trees is categorised within level 3 of the fair value hierarchy.

The directors estimate that a decrease in the market price of trees by 1% would result in the carrying amount of biological assets (non-current) reducing by RM2,437,000 (2019: RM1,266,000).

As at 31 July 2020, the Group has 5,400 (2019: 4,300) hectares of planted forests.

(b) Biological Assets, Current – Agricultural Produce of Bearer Plants (i.e. FFBs)

The Group adopted the income approach to measure the fair value of the unharvested FFBs. To arrive at the fair value of the unharvested FFBs, management considered the oil content of the unripe FFBs and assumed that the net cash flows to be generated from FFBs prior to more than 2 weeks to harvest are negligible. Costs to sell, which include harvesting, transportation cost and windfall profit levy, are deducted from the fair value. The key assumptions used in the determination of the fair value less costs to sell of the unharvested FFBs are as follows:-

(i) estimated volume of unharvested FFBs as of the reporting date, with reference to the actual harvest data subsequent to the reporting date.

9. BIOLOGICAL ASSETS (CONT'D)

- (b) Biological Assets, Current Agricultural Produce of Bearer Plants (i.e. FFBs) (Cont'd)
 - (ii) estimated prices of unharvested FFBs based on the market prices of FFBs as of the reporting date, adjusted for the oil content of the unripe FFBs.
 - (iii) estimated selling costs based on past practices and experience.

The fair value measurement of the Group's unharvested FFBs is categorised within level 3 of the fair value hierarchy.

The directors estimate that a decrease in the price of FFBs by 10% would result in the carrying amount of biological assets (current) reducing by RM532,000 (2019: RM278,000).

During the financial year, the Group harvested approximately 310,000 (2019: 268,000) tonnes of FFBs from the oil palm plantation.

(c) The following expenses are included in the biological assets:-

10. INTANGIBLE ASSETS (CONT'D)

- (a) Included in the amortisation charge of the Group for the financial year is an amount of RM225,000 (2019: RM18,000), which is capitalised under the property, plant and equipment.
- (b) The Group has 3 (2019: 3) timber licences. The timber licences are renewable on a yearly basis.
- (c) Commercial rights on LPF are rights conferred upon the Group to plant trees under the Tree Planting Plan. The licence will expire in March 2064.

The Tree Planting Plan has been approved and incorporated the planting of oil palm for a maximum period of 25 years (with 10 years remaining at the end of the reporting period). Upon expiry of the said period of 25 years, the licensed area where oil palm is permitted to be cultivated shall be planted with trees other than oil palm.

(d) The commercial rights on LPF are pledged to licensed banks as security for banking facilities granted to the Group as disclosed in Note 23 to the financial statements.

(a) The Group designated the below equity investments at fair value through other comprehensive income because the Group intends to hold for long-term strategic purposes.

The fair value of each investment is summarised below:-

| | The Group/Th 2020 RM'000 | ne Company 2019 RM'000 |
|--|--------------------------------|------------------------------|

| | 7,501 | 15,198 |

(b) During the financial year, the Group disposed of some of its equity investments as part of its investment strategy. The shares sold had a fair value of RM12,712,000 at the time of sale and the cumulative loss of RM10,247,000 previously accumulated in the fair value reserve was not reclassified to profit or loss.

12. GOODWILL

| | 2020 RM'000 | 2019 RM'000 |
| Cost:- At 1 August/31 July | 2,720 | 2,720 |

- (a) Goodwill acquired through business combination is allocated to the Group's oil palm plantation cash-generating unit, which belongs to "Plantation" reportable segment.
- (b) During the financial year, the Group assessed the recoverable amount of goodwill allocated and determined that no impairment is required. The recoverable amount of the cash-generating unit is determined using the value-in-use approach, and this is derived from the present value of the future cash flows from the cashgenerating unit computed based on the projections of financial budgets approved by management covering a period of 5 years. The key assumptions used in the determination of the recoverable amount are as follows:-
 - Discount rate (pre-tax) an estimate of pre-tax rate that reflects specific risks relating to oil palm plantation, which is 11.00% (2019: 9.90%).
 - (ii) Growth rate management's estimate of commodity prices, oil palm yields and oil extraction rates.
 - (iii) Selling prices of fresh fruit bunches an estimate based on expectations of future changes in the market.
 - (iv) Development and direct costs an estimate based on past practices and experience.

The values assigned to the key assumptions represent management's assessment of future trends in the cash-generating unit and are based on both external sources and internal historical data.

(c) The directors believe that there is no reasonable possible change in the above key assumptions applied that is likely to materially cause the cash-generating unit carrying amount to exceed its recoverable amount.

13. PREPAYMENT

Prepayment represents an advance payment made to a third party in respect of the purchase of all merchantable timber logs from a forest concession for a period of 20 years (with 16 months remaining at the end of the reporting period). This amount will be set off against the amount payable for future purchases of timber logs from this third party.

36. OPERATING SEGMENTS

Operating segments are prepared in a manner consistent with the internal reporting provided to the Group Managing Director as its chief operating decision maker in order to allocate resources to segments and to assess their performance on a quarterly basis. For management purposes, the Group is organised into business units based on their products and services provided.

The Group is organised into 2 main reportable segments as follows:-

- Timber Segment involved in the extraction, sale of logs and subcontractor for tree planting (reforestation), and the business of manufacturing and trading of plywood, veneer, raw and laminated particleboard, sawn timber, finger-joint moulding, charcoal and the supply of electricity for its manufacturing activities.
- Plantation Segment involved in the cultivation of oil palm and sale of fresh fruit bunches.
- Others involved in the provision of towage and transportation services, insurance services, property holding and development, and manufacturing and trading of drinking water.
- (a) The Group Managing Director assesses the performance of the reportable segments based on their profit before taxation. The accounting policies of the reportable segments are the same as the Group's accounting policies.
- (b) Each reportable segment assets is measured based on all assets (including goodwill) of the segment.
- (c) Each reportable segment liabilities is measured based on all liabilities of the segment.

36. OPERATING SEGMENTS (CONT'D)

Transactions between reportable segments are carried out on agreed terms between both parties. The effects of such inter-segment transactions are eliminated on consolidation.

38. CONTINGENCIES

The Company and its two subsidiaries, namely JPH Logging Sdn. Bhd. and Subur Tiasa Forestry Sdn. Bhd., are defendants in a legal action involving the alleged claims against the companies for the outstanding contract fees, as well as the costs incurred for upgrading the logging roads and logponds for a total sum of RM9.6 million. The claims against the companies were struck out by the High Court, and the plaintiff has filed an appeal to the Court of Appeal. The directors believe that the action can be successfully defended and therefore no provision is required to be made in the financial statements.

39. FINANCIAL INSTRUMENTS

The Group's activities are exposed to a variety of market risk (including foreign currency risk, interest rate risk and equity price risk), credit risk and liquidity risk. The Group's overall financial risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

39.1 FINANCIAL RISK MANAGEMENT POLICIES

The Group's policies in respect of the major areas of treasury activity are as follows:-

(a) Market Risk

(i) Foreign Currency Risk

The Group is exposed to foreign currency risk on transactions and balances that are denominated in currencies other than the respective functional currencies of entities within the Group. The currencies giving rise to this risk are primarily United States Dollar ("USD"), Euro ("EUR"), Japanese Yen ("JPY") and Singapore Dollar ("SGD"). Foreign currency risk is monitored closely on an ongoing basis to ensure that the net exposure is at an acceptable level. The Group also holds cash and cash equivalents denominated in foreign currencies for working capital purposes.

(a) Market Risk (Cont'd)

Interest Rate Risk (ii)

> Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk arises mainly from its long-term borrowings with variable rates. The Group's policy is to obtain the most favourable interest rates available.

> The Group's deposits with licensed banks and fixed rate borrowings are carried at amortised cost. Therefore, they are not subject to interest rate risk as defined in MFRS 7 since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

> The Group's exposure to interest rate risk based on the carrying amounts of the financial instruments at the end of the reporting period is disclosed in Note 23 to the financial statements.

Interest Rate Risk Sensitivity Analysis

The following table details the sensitivity analysis to a reasonably possible change in the interest rates at the end of the reporting period, with all other variables held constant:-

| basis points | + 898 | + 904 | + 14 | + 5 |

(iii) Equity Price Risk

The Group's principal exposure to equity price risk arises mainly from changes in quoted investment prices. The Group manages its exposure to equity price risk by maintaining a portfolio of equities with different risk profiles.

Equity Price Risk Sensitivity Analysis

The following table details the sensitivity analysis to a reasonably possible change in the prices of the quoted investments at the end of the reporting period, with all other variables held constant:-

| | The Group/T | he Company |
|---------------------------------------|-------------|------------|
| | 2020 | 2019 |
| | RM'000 | RM'000 |
| Effects on Other Comprehensive Income | | |

| Decrease of 10% (2019: 10%) | - 150 | - 920 |
| | | |

As the Group's equity investments are measured at fair value through other comprehensive income, there is no financial impact on profit after taxation for the changes in prices of quoted investments.

(b) Credit Risk

The Group's exposure to credit risk, or the risk of counterparties defaulting, arises mainly from its trade and other receivables. The Group manages its exposure to credit risk by the application of credit approvals, credit limits and monitoring procedures on an ongoing basis. For other financial assets (including deposits with licensed banks, and cash and bank balances), the Group minimises credit risk by dealing exclusively with high credit rating counterparties.

The Company's exposure to credit risk arises principally from its loans and advances to subsidiaries, and corporate guarantee given to financial institutions for credit facilities granted to certain subsidiaries. The Company monitors the results of these subsidiaries regularly and repayments made by the subsidiaries.

(i) Credit Risk Concentration Profile

The Group's major concentration of credit risk relates to the amounts owing by 4 customers which constituted approximately 53% of its trade receivables (including related parties) at the end of the reporting period.

(ii) Exposure to Credit Risk

At the end of the reporting period, the maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position of the Group and of the Company after deducting any allowance for impairment losses (where applicable).

In addition, the Company's maximum exposure to credit risk also includes corporate guarantees provided to its subsidiaries as disclosed under the "Maturity Analysis" of item (c) below, representing the outstanding banking facilities of the subsidiaries as at the end of the reporting period. These corporate guarantees have not been recognised in the Company's financial statements since their fair value on initial recognition was not material.

(iii) Assessment of Impairment Losses

At each reporting date, the Group assesses whether any of the financial assets at amortised cost are credit impaired.

The gross carrying amounts of financial assets are written off when there is no reasonable expectation of recovery (i.e. the debtor does not have assets or sources of income to generate sufficient cash flows to repay the debt) despite the fact that they are still subject to enforcement activities.

Trade Receivables

The Group applies the simplified approach to measure expected credit losses using a lifetime expected credit loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables (including related parties) have been grouped based on shared credit risk characteristics and the days past due.

For certain large customers or customers with a high risk of default, the Group assesses the risk of loss of each customer individually based on their financial information, past trends of payments and external credit rating, where applicable.

Also, the Group considers any trade receivables having financial difficulty or in default with significant balances outstanding for more than 120 days as credit impaired and assesses for their risk of loss individually.

The expected loss rates are based on the historical credit losses experienced, adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle their debts.

The information about the exposure to credit risk and the loss allowances calculated under MFRS 9 for trade receivables are summarised below:-

The movement in the loss allowances in respect of trade receivables is disclosed in Note 17 to the financial statements.

Other Receivables (Including Related Parties)

The Group applies the 3-stage general approach to measure expected credit losses for its non-trade receivables. Under this approach, the Group assesses whether there is a significant increase in credit risk on the receivables by comparing their risk of default as at the reporting date with the risk of default as at the date of initial recognition based on available reasonable and supportable forward-looking information. Regardless of the assessment, a significant increase in credit risk is presumed if a receivable is more than 90 days past due in making a contractual payment.

The Group considers a receivable as credit impaired when the receivable is in significant financial difficulty, for instances, the receivable is in breach of financial covenants or insolvent. Receivables that are credit impaired are assessed individually while other receivables are assessed on a collective basis.

Deposits with Licensed Banks, and Cash and Bank Balances

The Group considers these banks and financial institutions have low credit risks. In addition, some of the bank balances are insured by Government agencies. Therefore, the Group is of the view that the loss allowance is immaterial and hence, it is not provided for.

Amount Owing by Subsidiaries

The Company applies the 3-stage general approach to measure expected credit losses for all inter-company balances. Generally, the Company considers loans and advances to subsidiaries have low credit risks. The Company assumes that there is a significant increase in credit risk when a subsidiary's financial position deteriorates significantly. As the Company is able to determine the timing of payments of the subsidiaries' loans and advances when they are payable, the Company considers the loans and advances to be in default when the subsidiaries are not able to pay when demanded. The Company considers a subsidiary's loan or advance to be credit impaired when the subsidiary is unlikely to repay its loan or advance in full or the subsidiary is having a deficit in its total equity.

The Company determines the probability of default for these loans and advances individually using internal information available.

The information about the exposure to credit risk and the loss allowances calculated for the amount owing by subsidiaries are summarised below:-

| The Company | Gross Amount RM'000 | 12-month Loss Allowance RM'000 | Lifetime Loss Allowance RM'000 | Carrying Amount RM'000 |

Financial Guarantee Contracts

All the financial guarantee contracts are considered to be performing, have low risks of default and historically there were no instances where these financial guarantee contracts were called upon by the parties of which the financial guarantee contracts were issued to. Accordingly, no loss allowances were identified based on 12-month expected credit losses.

(c) Liquidity Risk

Liquidity risk arises mainly from general funding and business activities. The Group practices prudent risk management by maintaining sufficient cash balances and the availability of funding through certain committed credit facilities.

39.2 CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities within the Group will be able to maintain an optimal capital structure so as to support its businesses and maximise shareholder(s) value. To achieve this objective, the Group may make adjustments to the capital structure in view of changes in economic conditions, such as adjusting the amount of dividend payment, returning of capital to shareholders or issuing new shares.

The Group manages its capital based on debt-to-equity ratio that complies with debt covenants and regulatory, if any. The debt-to-equity ratio is calculated as net debt divided by total equity. The Group includes within net debt, loans and borrowings from financial institutions less cash and cash equivalents. Capital includes equity attributable to the owners of the parent and non-controlling interests. The debt-to-equity ratio of the Group at the end of the reporting period was as follows:-

| | The Group | | |

39. FINANCIAL INSTRUMENTS (CONT'D)

39.5 FAIR VALUE INFORMATION (CONT'D)

(a) Fair Value of Financial Instruments Carried at Fair Value

The fair values above are determined using the following basis:-

- (i) The fair value of quoted investments is determined at their quoted closing bid prices at the end of the reporting period.
- (ii) The fair value of unquoted equity investments is determined based on market comparison technique using market multiples derived from quoted prices of companies comparable to the investee, adjusted for the effect of non-marketability of the unquoted shares.

There were no transfers between level 1 and level 2 during the financial year.

(b) Fair Value of Financial Instruments Not Carried at Fair Value

The fair values, which are for disclosure purposes, are determined using the following basis:-

(i) The fair value of hire purchase obligations is determined by discounting the relevant future contractual cash flows using current market interest rates for similar instruments at the end of the reporting period. The interest rate used to discount the estimated cash flows is as follows:-

| | The Group 2019 % | The Company 2019 % |
|---------------------------|------------------------|--------------------------|
| Hire purchase obligations | 5.55 | 5.49 |

(ii) The fair value of term loans that carry floating interest rates approximated their carrying amounts as they are repriced to market interest rates on or near the reporting date.

40. SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR

The outbreak of COVID-19 in early 2020 has affected the business and economic environment of the Group. The governments and various private corporations have taken different measures to prevent the spread of the virus such as travel bans, quarantines, closures of non-essential services, social distancing and home quarantine requirements which impacted consumers' spending pattern and the Group's operations directly or indirectly. As a result, the COVID-19 pandemic impacted the Group's financial statements on the recoverability of the Group's trade and other receivables that are subject to the expected credit loss assessment.

41. INITIAL APPLICATION OF MFRS 16

The Group has adopted MFRS 16 using the modified retrospective approach under which the cumulative effect of initial application is recognised as an adjustment to the retained profits as at 1 August 2019 (date of initial application) without restating any comparative information.

The Group has applied MFRS 16 only to contracts that were previously identified as leases under MFRS 117 Leases and IC Interpretation 4 Determining Whether an Arrangement Contains a Lease. Therefore, MFRS 16 has been applied only to contracts entered into or changed on or after 1 August 2019.

41. INITIAL APPLICATION OF MFRS 16 (CONT'D)

(a) Lessee Accounting

At 1 August 2019, for leases that were classified as operating leases under MFRS 117, the Group measured the lease liabilities at the present value of the remaining lease payments, discounted using the Group's weighted average incremental borrowing rate at that date, i.e. 5.00%. The right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease.

The Group has used the following practical expedients in applying MFRS 16 for the first time:-

- Applied a single discount rate to a portfolio of leases with reasonably similar characteristics;
- Applied for the exemption not to recognise operating leases with a remaining lease term of less than 12 months as at 1 August 2019;
- Excluded initial direct costs for the measurement of right-of-use assets at the date of initial application; and
- Used hindsight in determining the lease term where the lease contract contains options to extend or terminate the lease.

For leases that were classified as finance leases, the Group has recognised the carrying amount of the leased asset and the lease liability immediately before 1 August 2019 as the carrying amount of the right-of-use asset and the lease liability as at the date of initial application.

The following table explains the difference between the operating lease commitments determined under MFRS 117 and the lease liabilities recognised at 1 August 2019:-

| | The Group RM'000 | The Company RM'000 |
|---|---------------------|-----------------------|
| Operating lease commitments as at 31 July 2019 as disclosed in the previous financial year | | |
| Discounted using the incremental borrowing rate as at 1 August 2019 Add: Finance lease liabilities as at 31 July 2019 Add: Lease liabilities recognised upon initial application of | 19,306 | - 17 |
| lease definition under MFRS 16 | 1,130 | 1,100 |
| Lease liabilities recognised as at 1 August 2019 | 20,436 | 1,117 |

(b) Lessor Accounting

The Group did not make any adjustments to the accounting for assets held as lessor under operating leases as a result of the adoption of MFRS 16.

8. To consider and, if thought fit, pass the following ordinary resolution:

Proposed renewal of shareholder mandate for recurrent related party transactions of a Resolution 7 revenue or trading nature ("Shareholder Mandate")

"THAT approval be hereby given to the Company and its subsidiaries ("STH Group") to enter into any of the category of related party transactions which are recurrent, of a revenue or trading nature and are necessary for day-to-day operations of STH Group as outlined in point 3(b) of the Circular to Shareholders dated 23 November 2020 ("Circular"), with the specific related parties mentioned therein subject further to the following:

- (a) the transactions are in the ordinary course of business and are on normal commercial terms which are not more favourable to the related parties than those generally available to the public and not detrimental to the interest of the minority shareholders; and
- (b) disclosure is made in the annual report a breakdown of the aggregate value of the transactions conducted pursuant to the Shareholder Mandate during the financial year where the aggregate value is equal to or more than the threshold prescribed under Paragraph 10.09(1) of the Main Market Listing Requirements, and amongst others, based on the following information:
 - the type of the recurrent related party transactions made; and
 - the names of the related parties involved in each type of the recurrent related party transactions made and their relationship with the Company.

AND THAT such approval will continue to be in force until:

- the conclusion of the next annual general meeting ("AGM") of the Company, at which time it will lapse, unless by ordinary resolution passed at the meeting, the authority is renewed;
- (b) the expiration of the period within which the next AGM of the Company after that date is required to be held pursuant to Section 340(1) and 340(2) of the Companies Act 2016 ("Act") [but must not extend to such extension as may be allowed pursuant to Section 340(4) of the Act]; or
- (c) revoked or varied by resolution passed by the shareholders in general meeting,

NOTICE OF ANNUAL GENERAL MEETING (CONT'D)

whichever is the earlier.

AND THAT the Directors of the Company be hereby authorised to complete and do all such acts and things as they may consider expedient or necessary to give effect to the Shareholder Mandate."

9. To transact any other business which may properly be transacted at an annual general meeting, due notice of which shall have been previously given in accordance with the Companies Act 2016 and the Company's Constitution.

By Order of the Board of Directors Ling Chieh Min (MIA 18531) SSM Practicing Certificate No.: 202008002152 Voon Jan Moi (MAICSA 7021367) SSM Practicing Certificate No.: 202008001906 Joint Company Secretaries

Dated : 23 November 2020 Sibu, Sarawak

Explanatory Notes

- (a) This agenda item is meant for discussion only and therefore, it will not be put forward for voting.
- (b) Ordinary resolution in relation to the re-election of Independent Director (proposed Resolutions 2 and 3) The Nomination Committee and the Board of Directors have assessed the independence of Mr. Tiong Ing Ming and Mdm. Ngu Ying Ping and recommended them to be re-elected as Directors of the Company.
- (c) Ordinary resolution in relation to continuation in office as Independent Director pursuant to Practice 4.2 of the Malaysian Code on Corporate Governance 2017 (proposed Resolution 5) The proposed Resolution No. 5 is to seek shareholders' approval to retain Mdm. Ngu Ying Ping, whose tenure as Independent Director of the Company has exceeded tenure limit of nine (9) years. The Board of Directors ("Board") and the Nomination Committee have assessed her and thereby recommended that she continues in office as an Independent Director of the Company based on the following justifications:
 - *i) her experience, networking, understanding of business and objectivity in approach enables her to provide the Board and Board Committees with pertinent expertise, skills and competence and her independent judgement will continue to add credence to the Company;*
 - *ii)* she remains professionally independent and vocal, actively participated in deliberations and exercised independent judgement at Board and Board Committee meetings without being influenced by operational consideration; and
 - *iii)* she acts in the best interests of all shareholders and her continuation in office as Independent Director will provide a check and balance to operational management.

(d) Ordinary resolution on proposed renewal of authority for purchase of own shares by the Company (proposed Resolution 6)

The proposed Resolution No. 6, if passed, will renew the authority for the Company to purchase and/or hold up to ten per cent (10%) of the total number of issued shares of the Company through Bursa Malaysia Securities Berhad. This authority will expire at the conclusion of the next annual general meeting, unless revoked or varied by ordinary resolution passed by shareholders at general meeting.

Please refer to the Statement to Shareholders dated 23 November 2020 for further information.

(e) Ordinary resolution on Shareholder Mandate for recurrent related party transactions (proposed Resolution 7)

Paragraph 10.09 of Main Market Listing Requirements states that with regard to related party transactions which are recurrent, of a revenue or trading nature and which are necessary for day-to-day operations ("RRPT"), a public listed company may seek a shareholder mandate.

NOTICE OF ANNUAL GENERAL MEETING (CONT'D)

The proposed resolution No. 7, if passed, will authorise the Company and each of its subsidiaries to enter into RRPT with the mandated related parties as identified in point 3(b) of the Circular to Shareholders dated 23 November 2020 ("Circular"), which are necessary for day-to-day operations of the STH Group, provided that such transactions are in the ordinary course of business and are on normal commercial terms which are not more favourable to the related parties than those generally available to the public and not detrimental to the interest of the minority shareholders.

By obtaining the Shareholder Mandate, the necessity to convene separate meetings from time to time to seek shareholders' approval as and when such RRPT occur would not arise. This would reduce substantial administrative time and costs associated with the convening of such meetings without compromising on the corporate objectives of the STH Group or adversely affecting the business opportunities available to the STH Group.

Please refer to the Circular for further information.
