Malaysian Financial Reporting Standards ("MFRS Framework")

On 19 November 2011, the Malaysian Accounting Standard Board (MASB) issued a new MASB approved accounting framework, the MFRS Framework.

The MFRS Framework has been applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture (MFRS 141) and IC Interpretation 15 Agreements for Construction of Real Estate (IC 15), including its parent, significant investor and venture (herein called 'Transitioning Entities').

Transitioning Entities are allowed to defer adoption of the new MFRS Framework for an additional two years. Consequently, adoption of the MFRS Framework by Transitioning Entities is mandatory for annual periods beginning on or after 1 January 2014.

The Group falls within the scope of Transitioning Entities and have opted to defer adoption of the new MFRS Framework. Accordingly, the Group is required to prepare financial statements using the MFRS Framework in its first MFRS financial statements for the year ending 31 December 2015.

PASDEC HOLDINGS BERHAD

(Incorporated in Malaysia)

Malaysian Financial Reporting Standards (“MFRS Framework”) (continued)

In presenting its first MFRS financial statements, the Group is required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made retrospectively, against retained earnings. The major differences between FRS Framework and MFRS Framework are as follows:

- a) Agreement for the Construction of Real Estates: under FRS 201 revenues and expenses are recognised using the stage of completion method whilst under MFRS Framework, in accordance to IC Interpretation 15: Agreements for the Construction of Real Estate (“IC 15”), property development revenue and expenses from development of real estate units are recognized upon completion. This change in accounting policy, including the related deferred tax impact, shall be accounted for retrospectively.
- b) Land held for development: Under the FRS Framework, land held for future development is stated at cost. Under MFRS, land held for future development is to be stated at the lower of cost and net realisable value.
- c) Agriculture: Under the MFRS Framework, MFRS 141 Agriculture (MFRS 141), requires biological assets to be measured at fair value less costs to sell unless it is not possible to measure fair value reliably, in which case they are measured at cost. However this MFRS is not applicable to the Group.
