At 30 September 2019	769,655	(102,716)	666,939

- Note:<sup>1</sup> The deficit was a result of the Group's capital management initiatives carried out during the financial year ended 31 December 2012. The Company ("Digi.Com Berhad") received dividends from one of its subsidiaries in the form of bonus issue of redeemable preference shares and capital repayment amounting to RM509.0 million and RM495.0 million respectively. The Company had declared part of these as special dividends to its shareholders. The deficit arose from the elimination of these intragroup dividends at Group level.
- Note:<sup>2</sup> The Group has adopted MFRS 16 on 1 January 2019. Under the transition method elected, comparatives were not restated. The Group recognised lease liabilities in the statement of financial position based on the remaining payment obligations from existing operating leases which were discounted using the incremental borrowing rate; and opted to measure the right-of-use assets at an amount equal to the lease liabilities, adjusted by the amount of the prepaid or accrued lease payments. Accordingly, there's no impact to the accumulated losses of the Group as at 1 January 2019. Further details of significant effects arising from adoption of the new standard are disclosed in Note A1.

## INTERIM FINANCIAL REPORT FOR THE THIRD QUARTER AND FINANCIAL PERIOD ENDED 30 SEPTEMBER 2019

#### NOTES TO THE INTERIM FINANCIAL REPORT

#### A1. Basis of Preparation

The interim financial report is unaudited and has been prepared in compliance with MFRS 134: Interim Financial Reporting.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2018.

The accounting policies and methods of computation adopted by the Group in this interim financial report are consistent with those adopted in the most recent audited financial statements for the financial year ended 31 December 2018 except for the newly-issued Malaysian Financial Reporting Standards ("MFRS"), interpretation and amendments to standards to be applied by all Entities Other Than Private Entities for the financial periods beginning on or after 1 January 2019:

MFRS 16:	Leases
MFRS 9:	Prepayment Features with Negative Compensation (Amendments to MFRS 9)
MFRS 128:	Long-term Interests in Associates and Joint Ventures (Amendments to MFRS 128)
MFRS 119:	Plan Amendment, Curtailment or Settlement (Amendments to MFRS 119)
IC Interpretation 23: Annual Improvements	Uncertainty over Income Tax Treatments to MFRS Standards 2015–2017 Cycle

The adoption of the above did not have any significant effects on the interim financial report upon their initial application, other than as disclosed below:

#### MFRS 16 Leases

MFRS 16 is effective for annual periods beginning on or after 1 January 2019. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under MFRS 117.

Lessor accounting under MFRS 16 is substantially the same as the accounting under MFRS 117 and does not impact leases where the Group is the lessor.

The Group adopted MFRS 16 using modified retrospective method and comparatives are not restated.

The Group assesses whether a contract is or contains a lease based on the definition of a lease and related guidance set out in MFRS 16.

### Leases previously classified as finance leases

The Group recognised the carrying amount of the leased asset and lease liability as at 31 December 2018 as the carrying amount of the right-of-use ("ROU") asset and the lease liability at the date of initial application.

#### A1. Basis of Preparation – cont'd

#### MFRS 16 Leases – cont'd

#### (a) Impact of adoption of MFRS 16 - cont'd

#### Leases previously accounted for as operating leases

The Group recognised ROU assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application and the Group has opted for the ROU assets to be carried at an amount equal to the lease liabilities, adjusted by the amount of the prepaid or accrued lease payments.

The Group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous before the date of initial application
- Excluded the initial direct costs from the measurement of the ROU assets at the date of initial application
- Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease

## (b) Reconciliation of operating lease commitment as at 31 December 2018 to the opening balance of lease liabilities as at 1 January 2019

The operating lease commitments as of 31 December 2018 is reconciled to arrive at the lease liabilities as at 1 January 2019 as follows:

	RM'000
Operating lease commitments disclosed as at 31 December 2018 (Less): short-term leases and low-value leases recognised on	840,536

#### A1. Basis of Preparation – cont'd

#### MFRS 16 Leases - cont'd

#### (c) Change in accounting policies

Applying MFRS 16 for all leases (except as noted below), the Group as a lessee:

- i) recognises ROU assets and lease liabilities in the statement of financial position, initially measured at the present value of future lease payments;
- ii) recognises depreciation of ROU assets and interest on lease liabilities in profit or loss; and
- iii) separates the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the statement of cash flows.

The Group has adopted the following accounting policy choices and elected to apply the following practical expedients:

- Fixed non-lease components embedded in the lease contract are not separated out from lease payments in measuring lease liabilities and capitalised as ROU assets
- Leases with a lease term of 12 months or shorter are exempted from recognition
- Leases for low-value assets, mainly refers to office equipment, are exempted from recognition
- Intangible assets, such as spectrum and licences, are considered under MFRS 16

#### (d) Amounts recognised in the statement of financial position as at 30 September 2019

## INTERIM FINANCIAL REPORT FOR THE THIRD QUARTER AND FINANCIAL PERIOD ENDED 30 SEPTEMBER 2019

# ADDITIONAL INFORMATION REQUIRED BY THE BURSA SECURITIES LR (APPENDIX 9B) -CONT'D

#### **B9.** Financial Instruments

As at 30 September 2019, the Group's outstanding net derivative financial instruments are detailed below:

Type of derivative	Notional value (RM'000)	Fair value - asset (RM'000)
Foreign currency forward contracts: - Less than one year	50,101	231
Interest rate swaps contracts - One year to three years - More than three years	300,000 775,000	7,430 16,808

#### **Accounting Policy**

The Group uses derivatives comprising of foreign currency forward contracts and interest rate swaps to manage risk exposures related to changes in foreign currency and interest rates.

#### (a) Foreign currency risk

The Group enters into foreign currency forward contracts to minimise its exposure to foreign currency risks as a result of transactions denominated in currencies other than its functional currency, arising from the normal business activities; in accordance with the Group's hedging policy. In line with the Group's hedging policy, hedging is only considered for firm commitments and highly probable transactions of which hedging shall not exceed 100% of the net exposure value. Firm commitments are netted-off against receivables denominated in the same currency, and only the net exposures are hedged so as to maximise the Group's natural hedge position.

#### (b) Interest rate risk

The Group manages its interest rate risk by having a balanced portfolio of fixed and floating rate financial liabilities that is consistent with the interest rates profiles acceptable to the Group. To manage this, the Group enters into interest rate swaps, in which the Group agrees to exchange, at specified intervals, a fixed interest rate for floating rates.

The Group uses interest rate swaps to hedge the fair value risk in relation to the fixed interest rates of IMTN with notional principal amounts of RM1,075.0 million (2Q19: RM750.0 million). The interest rate swaps entitles the Group to receive interest at a fixed rate ranging from 3.50% to 4.65% per annum, and in return, pays interest quarterly at floating rate plus a spread. The swaps mature at varying dates based on the maturity of different tranches of IMTN.

#### **B9.** Financial Instruments – cont'd

#### Accounting Policy – cont'd

Speculative activities are strictly prohibited. The Group adopts a layered approach to hedging, where a higher percentage of hedging will be executed for closer-dated exposures and with time, increase the hedge as the probability of the underlying exposure increases. The derivatives and their underlying exposures will be monitored on an on-going basis.

There were no changes in the cash requirement of the derivatives since the end of the previous financial year ended 31 December 2018.

Derivatives are stated at fair value which is equivalent to the marking of these derivatives to market, using prevailing market rates. Derivatives with positive market values (unrealised gains) are included under assets, whereas derivatives with negative market values (unrealised losses) are included under liabilities in the statement of financial position. Any gains or losses arising from derivatives held for trading purposes, or changes in fair value on derivatives during the financial period that do not qualify for hedge accounting are recognised in profit and loss.

#### Credit Risk Management Policy

Foreign currency forward contracts and interest rate swap transactions are executed only with credit-worthy financial institutions in Malaysia that are governed by appropriate policies and procedures.

#### **B10. Material Litigation**

There are no pending material litigations as at the date of this report.

#### B11. Dividends

The Board of Directors has declared a third interim tax exempt (single-tier) dividend of 4.5 sen per ordinary share (3Q 2018: 5.0 sen per ordinary share) in respect of the financial year ending 31 December 2019, which will be paid on 19 December 2019. The entitlement date is on 22 November 2019.

A Depositor shall qualify for the entitlement only in respect of:
