A. Notes to the interim financial report

1. Basis of preparation

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Listing Requirements of the Bursa Malaysia Securities Berhad, including compliance with Financial Reporting Standard (FRS) 134, *Interim Financial Reporting*, issued by the Malaysian Accounting Standards Board (MASB).

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2007 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2008 annual financial statements. Details of these changes in accounting policies are set out in Note 2.

The preparation of an interim financial report in conformity with FRS 134, *Interim Financial Reporting* requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2007 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with FRSs.

The financial information relating to the financial year ended 31 July 2007 that is included in the interim financial report as being previously reported information does not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 July 2007 are available from the Company's registered office.

2. Changes in accounting policies

The MASB has issued a number of new and revised Financial Reporting Standards (FRSs, which term collectively includes the MASB's Issues Committee's Interpretations) that are effective for accounting periods beginning on or after 1 January 2006.

The Board of Directors has determined the accounting policies to be adopted in the preparation of the Group's annual financial statements for the year ending 31 July 2008 on the basis of FRSs currently in effect.

The following sets out further information on the changes in accounting policies for the annual accounting period beginning on 1 August 2007 which have been reflected in this interim financial report.

(Company No. 88160-P) (Incorporated in Malaysia)

Summary of the effect of changes in accounting policies

(a) Leasehold land (FRS 117, Leases)

In prior years, the leasehold interest in land held for own use classified as property, plant and equipment, were stated at revalued amounts less accumulated depreciation and accumulated impairment losses. Surpluses arising from revaluation are dealt with in the revaluation reserve account. Any deficit arising is offset against the revaluation reserve to the extent of a previous increase for the same property. In all other cases, a decrease in carrying amount is charged to the income statement.

With the adoption of FRS 117, the leasehold interest in the land held for own use is accounted for as being held under an operating lease. Such leasehold land will no longer be revalued. Where the leasehold land had been previously revalued, the Group retained the unamortised revalued amount as the surrogate carrying amount of prepaid lease payments as allowed by FRS 117.67A. Such prepaid lease payments are amortised on a straight line basis over the remaining lease term of the land.

The leasehold interest in land held for own use were revalued in August 2003 based on independent professional valuations on an open market basis.

3. Seasonal or cyclical factors

The Group's operations are not significantly affected by any seasonal or cyclical factors.

4. Unusual items affecting the assets, liabilities, equity, net income or cash flows

There are no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group for the current quarter and financial year-to-date.

5. Material changes in estimates

There are no material changes in estimates for the current quarter and financial year-todate.

6. Issuances, cancellations, repurchases, resale and repayments of debts and equity securities

There are no issuance, cancellations, repurchases, resale and repayments of debts and equity securities for the current financial year-to-date other than the followings:-

B. Additional information on interim financial report required by the Bursa Malaysia Listing Requirements

1. Review of performance

For the current quarter under review, the Group recorded a turnover of RM201.2 million, compared to RM289.1 million of the corresponding period of the preceding year, whilst profit before tax declined 48% to RM10.9 million from RM20.9 million in the preceding year's corresponding quarter. This was mainly due to lower sales volume to key customers in the third quarter.

For the nine months period ended 30 April 2008, the Group's profit before tax grew to RM66.5 million from RM62.4 million previously, in tandem with turnover growth to RM823.9 million from RM797.6 million previously.

2. Variation of results against preceding quarter

For the current quarter under review, the Group recorded a lower profit before tax of RM10.9 million from RM28.7 million in the preceding quarter, on the back of decreased turnover of RM201.2 million as compared to preceding quarter's turnover of RM332.7 million. The decrease in turnover was mainly due to lower sales volume to key customers in the third quarter.

3. Current year prospects

The Board expects that prospects for the remaining quarter of the current financial year will be challenging, in view of the less-than-optimistic developments in major economies, as the current world-wide downturn could possibly affect our performance in the short term.

However, barring unforeseen circumstances, the Board is still optimistic of achieving satisfactory performance for the whole of the current financial year.
