15. Variation of results against preceding quarter

For the current quarter under review, the Group recorded a profit before tax of RM10.2 million as compared to profit before tax of RM38.8 million in the preceding quarter. International Group Limited resulting in it becoming a subsidiary.

By excluding the abovementioned one-off item, the Group recorded a profit before tax of RM8.4 million in the preceding quarter. The higher profit in the current quarter was mainly due to lower losses incurred by the China operations in the current quarter under review.

16. Current year prospects

The Board is mindful of the continuing challenges faced by the global economy. While the Group is experiencing reducing orders from an existing key customer due to extreme competition, it has developed a new key customer in recent years which is expected to contribute significantly to the future growth of the Group.
