13. Review of performance

For the current quarter under review, the Group recorded a revenue of RM987.1 million, a decrease of RM47.5 million as compared to the previous year corresponding quarter due to lower contribution from China operations. Profit before tax, meanwhile, grew by 38.9% or RM24.7 million to RM88.4 million over the same period.

The improved earnings for the current quarter despite decrease in revenue was mainly attributable to favourable product sales mix in Malaysia.

The comparison of the results of the segment are tabulated below:-

	Individual Quarter 31 October			
	2020 RM'000	2019 RM'000		
Revenue				
Malaysia	873,391	879,866		
Indonesia	68,396	70,220		
China	42,173	73,538		
Profit/(Loss) before tax				
Malaysia	92,041	64,680		
Indonesia	508	1,085		
China	(5,513)	(3,097)		

Malaysia segment

Malaysia segment posted a marginal decrease in revenue in the current quarter by comparison to previous corresponding quarter. Profit before tax, however, was higher at RM92.0 million due to earnings contribution from a more diversified clientele that led to an overall better product sales mix.

Indonesia segment

Indonesia segment recorded a lower profit before tax of RM0.5 million for the quarter under review as compared to a profit before tax of RM1.1 million in the preceding year corresponding quarter mainly due to lower sales order and absence of economies of scale.

China segment

China segment recorded a higher loss for the current quarter in tandem with the decrease in revenue. Operations continued to be affected by under-utilisation of capacity, absence of large orders coupled with the highly challenging operating landscape in China.

(Registration No. 198201008437 (88160-P)) (Incorporated in Malaysia)

14. Variation of results against preceding quarter

	Current Quarter 31 October 2020 RM'000	Preceding Quarter 31 July 2020 RM'000
Revenue	987,100	882,613
Profit before tax	88,410	73,058
Profit attributable to owners of the		
Company	66,677	54,741

For the current quarter under review, the Group recorded a higher profit before tax of RM88.4 million as compared to RM73.1 million in the preceding quarter mainly attributable to the narrower losses recorded from operations in China, as well as improved performance from Indonesia on the back of higher revenue and absence of impairment on receivables amounting to RM2.6 million incurred previously.

15. Current year prospects

The operating environment is expected to remain challenging due to the uncertainties stemming from the Covid-19 pandemic. However, the situation is anticipated to improve with continued containment measures adopted by various governments as well as the anticipated gradual rollout of vaccines from early 2021. Against this backdrop, global and local economies are expected to rebound and recover over the next 12 months, along with improved consumer sentiments.

The Group is and will continue to be kept busy fulfilling customers' orders in the coming quarters, including several new product models that are in the pipeline for launching in 2021 by our customers. To recap, the Group has in August 2020 secured a new customer from the US to produce cordless electrostatic sprayers on box-build assembly basis, and this is followed by the clinching of another new name in October 2020 to manufacture home appliance. With this, the Group's existing capacity is expected to be filled up by 2021. To cater for future expansion purpose, the Group has acquired six pieces of land with industrial buildings with a total land size of approximately 413,682 square feet in i-Park @ Senai Airport City, Senai, Johor for a total consideration of RM98.8 million. VS' headquarter will also move to i-Park @ Senai Airport City when the new buildings are ready.

On balance, the Board is cognizant of the challenges ahead. However, with prudent planning and careful execution, backed by the encouraging order flow from customers, the Board opines that the financial performance of the Group for the remaining quarters will be satisfactory.
