#### 1. Basis of preparation

The interim financial statements of the Group are unaudited and have been prepared in accordance with the requirements of Financial Reporting Standards ("FRS") 134, Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB") and Paragraph 9.22 and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements of the Group for the financial year ended 30<sup>th</sup> June 2014.

The auditors' report on the financial statements of the Group for the financial year ended 30<sup>th</sup> June 2014 was not subject to any qualification.

The accounting policies and methods of computation adopted by the Group in these quarterly financial statements are consistent with those adopted in the most recent annual audited financial statements for the year ended 30<sup>th</sup> June 2014 except for the adoption of the following Financial Reporting Standards ("FRS") and Amendments to FRSs:-

IC Interpretation 21 - Levies

Amendments to FRS 10, FRS 12 and FRS 127 - Investment Entities

Amendments to FRS 119 - Defined Benefit Plans: Employee Contributions

Amendments to FRS 132 - Offsetting Financial assets and Financial Liabilities

Amendments to FRS 139 - Novation of Derivatives and Continuation of Hedge Accounting Amendments to FRSs contained in the document entitled "Annual Improvements to FRSs 2010-2012 Cycle"

Amendments to FRSs contained in the document entitled "Annual Improvements to FRSs 2011-2013 Cycle"

The directors expect that the adoption of the above standards and interpretations will not have any significant impact on the financial statements of the Group and the Company in the period of initial application.

## Malaysia Financial Reporting Standards

In November 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRS") framework. The issuance was made in conjunction with the MASB's plan to converge with International Financial Reporting Standards ("IFRS") in 2012. The MFRS framework is a fully IFRS-compliant framework and equivalent to IFRSs.

The MFRS framework is to be applied by all entities other than private entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture and/or IC Interpretation 15 Agreements for Construction of Real Estate, including their parents, significant investors and venturers ("Transitioning Entities"). Transitioning Entities are allowed to defer the adoption of the MFRS Framework for annual periods beginning on or after 1 January 2017.

## 1. Basis of preparation (cont'd)

Being a Transitioning Entity as defined above, the Group and the Company have elected to continue preparing their financial statements in accordance with the FRS Framework and will first present the financial statements in accordance with the MFRS framework for the financial year ending 30 June 2018. Management is currently examining the financial impacts of transition to the MFRS framework.

## 2. Seasonal or cyclical operations

The business operations of the Group are subject to cyclical effects of the global semiconductors and electronics industries.

# 3. Nature and amount of items affecting assets, liabilities, equity, net income, or cash flows that unusual because of their nature, size or incidence

There were no unusual items affecting assets, liabilities, equity, net income or cash flows during the current quarter under review.

# 4. Nature and amount of changes in estimates of amounts reported in prior interim periods of the current financial year, which give a material effect in the current interim period

There were no significant changes in the estimates that have a material effect in the current quarter under review.

## 5. Issuance, cancellations, repurchases, resale or repayments of debts and equity securities

There were no issuance, cancellations, repurchase, resale and repayments of debts and equity securities during the current quarter under review.

#### 6. Dividend Paid

A first and final single tier exempt dividend of 3.0 sen per ordinary share in respect of financial year ended 30.6.14 was paid on 20<sup>th</sup> January 2015 (30.6.2014 : 2.0 sen).

<sup>(</sup>i) Inclusive gain on disposal of subsidiary of RM1.76 million

# a) Current Year Quarter vs Preceding Year Corresponding Quarter

The Group reported better performance in Quarter 4 of FYE 2015 as compared to FYE 2014. Should the gain on disposal of subsidiary of RM1.76 million in current quarter be excluded from comparison, the Group recorded an increase in profit by RM3.1 million as compared to the corresponding quarter.

The precision metal components segment recorded higher profits before tax mainly contributed from currency gain from export sales and the disposal of its loss making china operation which has cut down the negative impact to the segment.

For the metal fabrication segment, the enhanced production output and higher customer orders of its oil and gas business have contributed to the improved performance for the quarter.

<sup>(</sup>ii) Inclusive a gain on disposal of factory property amounted to RM5.81 million.

<sup>(</sup>iii) Inclusive of bad debts recovered of RM 1.44 million

## 1. Review of performance (cont'd)

## b) Current Year Todate vs Preceding Corresponding Year

Should the gain on disposal of factory property of RM 5.81 million and bad debts recovered of RM 1.41 million captured in preceding corresponding year, and gain on disposal of subsidiary of RM1.76 million in current year be excluded from comparison, the Group's profit before tax would have been increased by 116% as compared to preceding corresponding year.

The precision metal components segment recorded higher revenue and profit before tax as results of the growth in high-value added products in aerospace business, expanded external market, disposal of a loss making China subsidiary and currency gain from weakening Ringgit.

The metal fabrication segment recorded significant increase in revenue and profit before tax, should the gain on disposal of factory property of RM 5.81 million in preceding corresponding year be excluded from comparison. Better performance of the segment was mainly due to higher incoming orders from its oil and gas customers and improvement in its productivity and efficiency.

The precision tooling & equipment segment, which focuses primarily in semiconductor business, recorded slight improvement in its performance. No significant breakthrough as compared to preceding corresponding year.

The other operating segments have shown higher revenue and profit before tax from the additional rental income and sales from its trading activities, should the bad debts recovered of RM 1.41 million captured in preceding corresponding year be excluded from comparison.

## 2. Comparison with preceding quarter's results

The Group reported revenue of RM27.67 million and profit before tax of RM5.75 million during the quarter, posted a decrease of 15% in revenue and increase of 30% in profit before tax as compared to preceding quarter.

The precision metal components segment recorded decrease of 4% in revenue and 10% in profit before tax in the preceding quarter due to lower incoming orders in the current quarter.

Despite of decrease of 10% in revenue, profit before tax of the metal fabrication segment increased by 18% resulted from better margin sales mix in the current quarter.

Besides, the other operating segments recorded decrease of 95% in revenue and 76% in profit before tax due to higher sales from trading activities in the preceding quarter.

#### 3. Commentary on the prospects of the Group

The precision metal component segment is expected to achieve positive growth by penetrating into export market on high value products for sectors in aerospace and medical.

In reaction to lower capital spending budgets or deferred new projects by oil and gas industry which has been resulted from the uncertain crude oil price environment and its slow recovery, the metal fabrication segment's performance is expected to be challenging and to grow at a slower pace. However, the metal fabrication segment will continue to broaden its customer base and product range apart from enhancing the segment's productivity and quality.

The precision tooling & equipment segment operation is expected to remain flat in its performance with no significant growth expected.

The property development segment is hopeful to obtain approvals from relevant authorities for at least one of its projects and to be launched by end of 2<sup>nd</sup> Quarter of FYE 2016.

Overall, the Group will continue to penetrate into higher value-added products, expanding overseas customer base, focus on operations reformation to enhance its cost competitiveness, technical competency, manufacturing efficiency and pursue quality perfection.

In view of the current economic uncertainties and challenges ahead, the Group expects lower growth rate in the coming financial year but is cautiously optimistic to remain profitable in the coming financial year.
