Malaysian Financial Reporting Standards (MFRS Framework)

On 19 November 2011, the Malaysian Accounting Standards Board (MASB) issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards (MFRS Framework).

The MFRS Framework is to be applied by all entities other than private entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture (MFRS 141) and IC Interpretation 15 Agreements for Construction of Real Estate (IC 15), including its parent, significant investor and venture (Herein called 'Transitioning Entities').

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework for an additional one year. However, on 30 June 2012, MASB further extended the transitional period for another one year. Consequently, adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2014.

Financial statements that are drawn up in accordance with the new MFRS framework will be equivalent to financial statements prepared by other jurisdiction which adopt IFRSs ("International Financial Reporting Standards").

The Group falls within the scope definition of Transitioning Entities and have opted to defer adoption of the new MFRS Framework. Accordingly, the Group will be required to prepare financial statements using the MFRS Framework in its first MFRS financial statements for the year ending 31 March 2015. In presenting its first MFRS financial statements, the Group will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Frame work. The majority of the adjustments required on transition will be made, retrospectively, against opening retained profits.

Currently, the Group is in the process of assessing the gap between current Group accounting policies and the requirements of MFRS Framework and expect to be in a position to fully comply with the requirements of the MFRS Framework for the financial year ending 31 March 2015.

B1 Review of performance

For the quarter under review, the Group recorded a revenue and profit before taxation ("PBT") of RM149.92 million and RM4.29 million respectively from a revenue and loss before taxation ("LBT") of RM175.19 million and RM7.67 million respectively in the corresponding quarter of the preceding financial year.

Revenue for the current quarter under review is lower by approximately 14% to that of the corresponding quarter of the preceding financial year. This has been due to lower recognition of revenue across the board. Quantum of gross profit for the quarter under review is also lower in line with lower volume of revenue recognized. The gross profit margin for the current quarter is approximately 2.37% against 19.18% in the corresponding quarter of the preceding financial year. The higher margin in the preceding year had been due to variation orders of a major project that was near completion. Despite a lower quantum of gross profit, a lower impairment loss on receivables and higher other income (principally for rebates and discounts received) for the current quarter under review resulted in higher "PBT" compared to a "LBT" for the corresponding quarter of the preceding financial year.

The Group's revenue for the financial year-to-date is RM355.34 million from RM367.76 million of the preceding financial year, a decrease of approximately 3.3%. Gross profit margin for the current financial year ended is approximately 8.68% compared to 15.54% for the preceding year. The higher margin in the preceding year had been due to variation orders of a major project that was near completion. However, due to lower impairment loss on receivables, "PBT" for the current financial year ended is higher.

B2 Material changes in the profit before taxation against the immediate preceding quarter

The Group's revenue for the quarter under review is RM149.92 million from RM87.14 million in the immediate preceding quarter. Revenue increased for the current quarter under review due to high recognition for certain newly acquired projects, currently in progress.

For the current quarter under review the Group shows a profit before taxation of RM4.29 million against RM1.01 million in the immediate preceding quarter. Gross profit quantum and margin are lower, at 2.37% against 9.79%, due to reclassification of written back costs to other income as they represent rebates and discount received from sub-contractors.

B3 Prospects

The Group is currently working on several projects in Malaysia, Singapore and Indonesia. The Group will continue to bid for projects in the region to build a healthy project pipeline despite of a competitive market. Nevertheless, we are confident that we will perform satisfactorily with our current projects in hand for the next financial year.
