B3 Prospects

The Malaysia economy remains on a recovery path in 2021. While resurgence of COVID-19 cases and the re-imposition of nationwide containment measures are expected to weigh on growth, the impact will be cushioned by several factors. These include continued allowances for essential economic sectors to operate, higher adaptability to remote work, as well as increased automation and digitalisation. Growth will be further supported by policy measures, which will provide cash flow support, particularly for affected households and businesses. The rollout of the domestic COVID-19 vaccination program will also lift sentiments and support economic activities. The Group has participated in the Selangor COVID-19 vaccination program (SELVAX) in order to speed up the vaccination process for its employees towards improving the overall population health and thereby economic growth of the country.

The implementation of the first phase of the National Recovery Plan and assumptions on the gradual transitions to the second, third and fourth phases for each state is dependent on the pace of vaccination rollouts and healthcare system capacities. Bank Negara Malaysia announced that the Malaysian economy is projected to expand between 3.0% to 4.0% in 2021 which are lower compared to previously announced growth range between 6.0% to 7.5% mainly due to the re-imposition of nationwide containment measures.

Despite the challenges, the Group will continue to focus on its core business in mechanical and electrical engineering segment and endeavor to secure more opportunities and recurring projects in Malaysia which are able to contribute positively to the future earnings of the Group. In addition, the Group will also be assessing the risks and opportunities of diversification into other business segment with the right strategy and available resources in order to enhance its revenue growth. Notwithstanding the aforementioned, the management will be more prudent in the management of its assets and focus on its core competencies in order to deliver sustainable future growth to stakeholders.

The applicant appealed against the Shah Alam High Court's decision of 12 December 2019. On 12 October 2020, the Court allowed the discharge of the solicitors for the liquidator. Since the applicant got sanction from Court to intervene on behalf of SBP now, Court allowed applicant to file the records of appeal for his notice to appeal on the termination of winding up.

The Court has given the direction for both the Appellant's Notice of Motion to amend the Record of Appeal dated 3 February 2021 and the Appellant's Notice of Motion to amend the Record of Appeal dated 2 August 2021 to be heard together on 28 February 2022.

The parcel of land known as Geran No. 66423, Lot 42095, Pekan Serdang, Daerah Petaling, Selangor ("subject property") had been auctioned on 3 December 2018 and successfully bided by KBK.

A contributory of SBP had then filed an application to the Court of Appeal to *inter alia* intervene in the appeal and restrain KBK from dealing with the subject property until the disposal of SBP's appeal. KBK filed a motion to strike out the appeal given that SBP had failed to file its records of appeal within the prescribed time ("Enclosure 49"). The intervener had also filed a motion to stay the appeal pending the disposal of the S.493 application and/or S.471 application as disclosed above ("Enclosure 45").

We were informed that the Public Auction was carried out and concluded on 3 December 2018 and that there had not been any application to set aside the said Public Auction. As such, the Public Auction remains valid.
