14. Review Of Performance Of The Group And Its Principal Subsidiaries

For the quarter under review, the Group recorded revenue of RM38.5 million as compared with a revenue of RM49.8 million recorded in the preceding year's corresponding quarter.

The lower revenue as compared with the preceding year's corresponding quarter was mainly due to the reduction in charter revenue and aircraft lease rental in the current quarter.

Group loss before tax for the quarter under review of RM0.3 million is lower than the preceding year's corresponding quarter's loss of RM21.0 million. The lower loss was mainly due to an unrealized foreign exchange gain of RM11.2 million on USD Dollar loans. If the unrealized foreign exchange gain were excluded, the Group's loss before tax should be RM10.9 million.

During the quarter, the wide body aircraft was reclassified to assets held for sale. Thus, the wide body aircraft will not be depreciated with effect from 1 April 2009.
