PART A. EXPLANATORY NOTES TO THE INTERIM FINANCIAL STATEMENTS

A1. BASIS OF PREPARATION

The Interim Financial Statements for the third quarter ended 30 September 2014 are unaudited and have been prepared in accordance with the requirements of FRS 134 – "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board ("MASB") and Paragraph 9.22 of the Main Market Listing Requirements ("MMLR") of Bursa Malaysia Securities Berhad ("Bursa Malaysia"). The Interim Financial Statements should be read in conjunction with the Audited Financial Statements for the year ended 31 December 2013.

These explanatory notes attached to the Interim Financial Statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2013.

A2. CHANGES IN ACCOUNTING POLICIES

The accounting policies and methods of computation adopted by the Group in preparing this Interim Financial Statements are consistent with those adopted in the Audited Financial Statements for the year ended 31 December 2013, except for the compliance with the new/ revised Financial Reporting Standards ("FRSs") that came into effect during the financial quarter under review.

The adoption of the new/revised FRSs that came into effect during the financial quarter under review do not have any significant financial impact on the Group's financial result for the financial quarter under review nor the Group's shareholders' funds as at 30 September 2014.

To converge with International Financial Reporting Standards ("IFRSs") in 2012, the Malaysian Accounting Standard Board ("MASB") had on 19 November 2011 issued the Malaysian Financial Reporting Standards ("MFRS"), which are mandatory for annual financial period beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture and IC Interpretation 15 Agreements for Construction of Real Estate, including its parent, significant investor and venture (herein referred as "Transitioning Entity").

Transitioning Entity will be allowed to defer adoption of new MFRSs for an additional of three years. Consequently, adoption of the MFRSs by Transitioning Entity will be mandatory for annual periods beginning on or after 1 January 2015.

The Group is subject to the application of IC Interpretation 15 and is therefore a Transitioning Entity. As such, the Group elected to continue preparing its financial statements in accordance with the FRSs framework for the annual periods beginning on or before 1 January 2015.

The Group is currently in the process of determining the impact arising from the initial application of MFRS framework.

PART B: ADDITIONAL INFORMATION REQUIRED BY BURSA MALAYSIA LISTING REQUIREMENTS

B1. REVIEW OF PERFORMANCE

The Group's revenue was mainly derived from the development activities for the current financial quarter and year-to-date ended 30 September 2014.

Turnover for the current financial quarter was lower at RM23.92 million, a decrease of RM8.12 million, as compared to the preceding year's corresponding quarter of RM32.04 million. Turnover for the current financial year-to-date was also lower at RM69.11 million, a decrease of RM17.17 million, as compared to the preceding year's corresponding year-to-date of RM86.28 million. The decrease in turnover for both the current financial quarter and year-to-date were mainly due to most ongoing phases have reached their ending stages in the recent financial quarters coupled with the relatively slow development progress from its recently launched phases.

Despite the lower turnover (as mentioned above), profit after tax for both the current financial quarter and year-to-date were higher at RM3.21 million and RM8.51 million respectively as compared to the preceding year's corresponding profit after tax of RM1.91 million and RM4.59 million respectively. The higher profit after tax for both the current financial quarter and year-to-date were mainly due to the higher gross development profit contribution from the recently launched phases coupled with lower operating expenses and finance costs.

B2. COMPARISON WITH IMMEDIATE PRECEDING QUARTER'S REPORT

Turnover for the current financial quarter ended 30 September 2014 was slightly higher at RM23.92 million as compared to the preceding financial quarter of RM22.17 million.

The profit before tax for the current financial quarter was also slightly higher at RM4.20 million as compared to the preceding financial quarter of RM3.65 million.

B3. CURRENT YEAR PROSPECTS

Despite the view that the market for the property development is sustaining, the Directors expect the revenue of the Group to ease slightly for the financial year ending 31 December 2014 due to the slow development progress from its recently launched phases as well as the delay in the completion of the Corporate Proposals. However, with the new developments/development phases to be launched in the near future and the recent completion of the Corporate Proposals under Item B8, the Directors expect the Group's revenue to improve in the ensuing years.

B4. PROFIT FORECAST AND PROFIT GUARANTEE

Not applicable as the Company did not issue any profit forecast and/or profit guarantee.

B5. TAXATION

The taxation charge for the Group are as follows :-

- (under)/overprovision in prior year	-	(91)
Deferred tax	318	1,369
	<u>(994)</u>	<u>(3,098)</u>

The Group's effective tax rate for both the current financial quarter and year-to-date are higher than the Malaysian statutory tax rate of 25% due to the non-existence of group tax relief and certain expenses being non-deductible for income tax purposes.

However, the said disposal (which is expected to be completed by the 4th Quarter of 2014) has no material financial effect to the Group's result for both the current financial quarter and year-to-date.
