B. ADDITIONAL INFORMATION REQUIRED BY BURSA MALAYSIA SECURITIES BERHAD LISTING REQUIREMENTS

B1. Review of Performance

The Group's performance for the current quarter ended 30 April 2018 with total revenue of RM24.34 million as compared to its corresponding quarter of RM19.39 million representing an overall increase of approximately 25.52% was satisfactory.

The Group's fast food and franchise division (FFD) continued to contribute positively with its recorded revenue of RM11.04 million as compared to its corresponding quarter of RM10.57 million despite unfavorable market conditions still prevailing then. There were five new openings (SugarBun-3 & Pezzo-2) and seven closures (SugarBun-2 & Pezzo-5) of franchised outlets during the quarter.

The property management and operations division (PMD) recorded a commendable revenue of RM11.20 million, which was mainly attributable to an on-going project that is scheduled to be completed by early next year, as against its corresponding quarter of RM1.41 million.

The mining, energy and related operations division (MED) however posted a lower revenue of RM2.08 million as compared to RM7.39 million in the corresponding quarter which included there-in gold spot trading transactions that has since been discontinued. During the quarter a total of 152.38 oz of gold dore extracted out of 42,150.40 MT of ore mined as compared to the corresponding quarter of 194.95 oz of gold dore out of 142,218.40 MT. Comparatively, the division has managed to improve its efficiency as reflected in the higher yield of 0.36oz/MT as compared to 0.13oz/MT previously.

B2. Review of Results

Despite the increase in its overall revenue, the Group recorded a loss of RM2.54 million for the current quarter as compared to RM5.25 million profits achieved in its previous corresponding quarter. This disproportionate results were attributable mainly to MED's reported loss of RM1.97 million suffered at the back of its much lower revenue whilst its comparative profit of RM5.89 million included fair value gains arising from gold spot trading transactions which has since been discontinued.

FFD's result for the quarter with its reported loss of RM0.30 million was reasonable although a disappointment considering that it was suffered against unfavorable market conditions that still prevailing then. PMD's contribution of RM0.32 million profit accrued mainly from the project undertaken was as envisaged.

Notes on the quarterly report – 30 April 2018

B3. Current Year Prospects

Notwithstanding the poor results for reasons as explained, the Group's overall performance for the current quarter was satisfactory and as planned. Accordingly, the Board was confident that the various divisions' ongoing activities and those in the pipe-line will continue smoothly as planned.

With MED's Limestones section presently in full swing, its Energy section's Bio-Fraction Vetrolysis plant expected commissioning in the near future and its Heap Leaching gold mining commencing soon, the Board is optimistic of their success and positive contribution to the Group in the future.
