## EXPLANATORY NOTES TO THE INTERIM FINANCIAL REPORT THIRD QUARTER ENDED DECEMBER 31, 2010

## PART A: REQUIREMENTS OF FRS 134 INTERIM FINANCIAL REPORTING

#### A1 Basis of Preparation

The interim financial report is unaudited and has been prepared in compliance with FRS 134 Interim Financial Reporting and the additional disclosure requirements as in Part A of Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa").

This interim financial report include only condensed consolidated financial statements and should be read in conjunction with the audited financial statements for the year ended March 31, 2010, as this interim report focus on events and transactions that are significant to an understanding of the changes in financial position and performance of the Group that have occurred since that report. The condensed consolidated financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with Financial Reporting Standards ("FRSs").

The preparation of an interim financial report in conformity with FRS 134 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The significant accounting policies and method of computation adopted by the Group in this interim financial report are consistent with those of the audited financial statements for the year ended March 31, 2010 except for the adoption of new FRSs, Amendments to FRSs and IC interpretations effective for the financial year beginning on April 1, 2010.

The adoption of these standards, amendments and interpretations do not have any material impact on the interim financial report of the Group other than set out below:

### (i) FRS 101 (revised), Presentation of Financial Statements

As a result of the adoption of the revised FRS 101, all non-owner changes in equity which previously presented in the statement of changes in equity are now included in the statement of comprehensive income as other comprehensive income. The adoption of this standard only affects the presentation aspects and does not have any impact on the financial position and results of the Group.

## (ii) FRS 8, Operating Segments

FRS 8 requires the identification and reporting of operating segments based on internal reports that are regularly reviewed by the chief operation decision maker of the Group in order to allocate resources to the segment and to assess its performance. As this is a disclosure standard, there is no impact on the financial position and results of the Group.

### (iii) Amendment to FRS 117, Leases

Leasehold land is classified as a finance lease if the Group has substantially all the risks and rewards incidental to ownership. Leasehold land was previously classified as an operating lease unless title is expected to be passed to the lessee at the end of the lease term. With the adoption of the Amendment to FRS 117, the Group has reassessed and determined that leasehold land of the Group are finance lease in substance and has reclassified the leasehold land to investment properties. The effect of the change is adjusted for retrospectively in accordance with the transitional provisions of the amendment as follows:

### (iv) FRS 139, Financial Instruments: Recognition and Measurement Amendments to FRS 139, Financial Instruments: Recognition and Measurement

FRS 139 sets out the new requirements for the recognition and measurement of the Group's financial instruments. Under FRS 139, financial instruments are recorded initially at fair value. Subsequent measurement of these instruments at the balance sheet date depends on the classification of the financial instruments. Set out below are the major changes in classifications of financial assets and financial liabilities of the Group:

#### (a) Financial Assets

Available-for-sale financial assets

The Group's other investments which previously measured at cost and subject to impairment are now classified as available-for-sale financial assets. These are initially measured at fair value plus transaction costs and subsequently, at fair value. Any changes in fair values of available-for-sale investments are recognised in other comprehensive income.

### Loans and receivables

The Group's loan and receivables which previously measured at gross receivables less provision for doubtful debts are now measured at fair value initially and subsequently at amortised cost using the effective interest rate method. Gains and losses arising from the amortisation process, impairment or derecognition of this financial assets are recognised in the income statement.

#### (b) Financial Liabilities

The Group's financial liabilities include borrowings and trade and other payables. All
financial liabilities are subsequently measured at amortised cost using the effective interest
rate method.

In accordance with FRS 139, the recognition, derecognition and measurement of the financial instruments are applied prospectively and the comparatives as at March 31, 2010 are not restated. Instead, the changes have been accounted for by restating the opening balance as at April 1, 2010. The adoption of this standard does not have significant impact on the financial position and result of the Group except the followings:
