B3 Current year prospects

GDP continued to expand in the second quarter of 2022 and the Malaysian economy registered a strong growth of 8.9% in the second quarter of 2022 as compared to 5.0% in the first quarter. The improvement also reflected in the normalizing economic activity as Malaysia moved towards endemicity and reopened international borders. In Bank Negara's latest report for Q2 2022, the Malaysian economy is projected to expand further for the remainder of the year and this will be supported by firm domestic demand.

The construction sector grew by 2.4% (1Q 2022: -6.2%), and it is the first positive growth since the second quarter of 2021. The industry is set to rebound with a 6.1% growth in 2022, catalyzed by construction activities in large scale infrastructure projects such as the revival of the Mass Rapid Transit 3 (MRT 3) Circle Line project, which was estimated to cost approximately RM31 billion. The Group's construction segment will continue to focus on its current projects such as Duta Park Residences as well as its own property development projects in the affordable housing segment. The Group has an order book of approximately RM260 million and will proactively pursue opportunities to bid for new construction jobs in both private and government projects. The Group's tender for new construction projects currently amounts to RM2.9 billion in the private and government sectors.

In the property segment, the Malaysian government will continue to implement affordable housing projects to ensure the provision of adequate and quality housing under the 12th Malaysian Plan and this initiative targets families as well as individuals in the B40 and M40 category. In-line with the government's plan, the Group's second Malaysian property development project Vierra Residence @ Kinrara which was recently opened for booking, is an affordable housing development with a selling price of RM300,000 per unit. This development consist of 2 tower blocks of 1,604 units and

it is based on “Residensi Wilayah Keluarga Malaysia” (RUMAWIP) concept. Our maiden property development project Rica Residence @ Sentul launched in 2017 was completely sold as of August 2022. In Australia, the Group’s award-winning property development, the Paragon, was completed in 2021 with few remaining units available for sale. The Group’s third property development in Australia, The Wilds located in Northcote, Melbourne, is set to be a benchmark in Environmentally Sustainable Design principles and will become the first carbon-neutral detached housing development in inner Melbourne, with all houses 100 per cent electric and incorporating a solar panel array. The construction of The Wilds has started and is scheduled for completion end of 2022. The Group has also ventured into a new property development at Fitzroy, Melbourne and is currently applying for approval from the relevant authorities. This development is scheduled to launch in 2024.

In the Group’s Logging and Timber Trading segment, we have approximately 15,443 acres of working block through our subsidiaries and associate company and this will continue to contribute to the Group’s earnings in the future.

The Group has diversified its business into the plantation segment and foresee this new segment will generate good returns in the long term. The Group has ventured into an operation to carry fruit crops cultivation and plantation project with approximately 600 acres of land located in Jerantut. We will continue to explore options to identify suitable businesses or strategic acquisition and will continue to seek opportunities in this segment.

The Group will continue its focus on construction, property development, logging and timber trading and plantation segments to ensure sustained revenue. We will continue to bid for prospective infrastructure and rail construction projects and with our state-of-the-art trackwork machineries and expertise, as well as having excellent track record in completing railway projects on time, we are in a good position to bid for such jobs. The Group remains focused on the planned developments of its property projects in Malaysia as part of the long-term growth objective for its property development division. Depending on market conditions, the Group is also on the lookout to expand its property development footprints in the Klang Valley. Although the Group’s operations have been affected due to the effects brought by the COVID-19 pandemic, we will continue to explore more business opportunities and capitalise on our strengths to generate sustainable revenue from its existing or new businesses.

Barring any unforeseen circumstances, the Group is optimistic about the Group’s ability to continue to achieve satisfactory performance for the next financial year ended 30 June 2023.
