# 1. Detailed Analysis of the Performance of all Operating Segments

	Individual Quarter		<b>Cumulative Period</b>		
	31.01.2013 RM'000	31.01.2012 RM'000	31.01.2013 RM'000	31.01.2012 RM'000	
Revenue	16,263	7,617	27,848	17,797	
Loss before tax	(2,144)	(1,402)	(1,909)	(1,235)	

For the current quarter under review, the Group's revenue and the loss before tax has increased by approximately RM8.6 million and RM0.7 million compared with the corresponding quarter ended 31 January 2012.

The increase in revenue is mainly due to the trading of computer accessories in Takaso Trading Sdn Bhd ("TTSB") and revenue generated from two new subsidiaries, namely Takaso Industries Pte Ltd ("TIPL') and Benchmark Vista Sdn. Bhd ("BVSB). The consolidation of TIPL and BVSB financial results is from 1 December 2011 and 2 January 2012 respectively. The principal activities of these new subsidiaries is trading of industrial cable support system and electrical and mechanical products and recycling of glass.

The Group manufacturing segment has reduced its advertising and promotion events in the current quarter under review of approximately RM0.5 million. However the loss before tax has been increased mainly due to share-based compensation of approximately RM1.4 million pursuant to the SIS granted on 23 January 2013.

For the cumulative period under review, the Group's revenue and the loss before tax has increased by approximately RM10.1 million and RM0.7 million as compared with the corresponding cumulative period ended 31 January 2012. The increased in revenue and loss before tax is due to the reason mentioned above.

## Further Analysis by Segments

## Manufacturing Segment

The revenue has increased by approximately RM2.0 million for the current quarter under review and RM5.2 million for the corresponding cumulative period under review compared to the previous corresponding quarter and cumulative period ended 31 January 2012. The increased in revenue for the current period under review is mainly from the revenue generated by BVSB which its acquisition was completed on 2 January 2012.

## Trading Segment

Revenue increased by approximately RM6.6 million for the current quarter under review and RM4.9 million for cumulative period under review compared to the corresponding quarter and cumulative period ended 31 January 2012. This is mainly due to trading of computer accessories in TTSB and acquisition of TIPL.

2. Comments on Material Changes in the (Loss)/Profit Before Tax for the Quarter Reported as Compared with the Preceding Quarter

	Individual Quarter		
	31.01.2013 RM'000	31.10.2012 RM'000	
Revenue	16,263	11,585	
(Loss)/Profit before tax	(2,144)	235	

The Group achieved loss before tax for the current quarter as compared to profit before tax for the preceding quarter mainly due to share-based compensation of approximately RM1.4 million pursuant to the SIS granted on 23 January 2013. Decrease in overseas revenue in manufacturing segment also one of the contributing factors to the increase of loss before tax as the revenue is unable to cover the fixed operating overheads.

## 3. Current Year Prospects

The Group being export orientated with major distributors based in the Middle East and Europe, foresees a challenging outlook despite the respective political and debt crisis of the two continent is recovering. However, steps have already been started to reduce the dependency on these two major markets by venturing into Asian countries.

Inflation is expected to continue trending upwards. The Group will continue to alert and will consider increasing its selling prices to maintain margins while ensuring its competitiveness is not compromised.

Management expects that the current financial year to be an extreme challenging year as the Group is continuously making its best effort to improve its current operation and identifying suitable business ventures to enable the Group turn profitable with sustainable growth.
