NOTES TO THE QUARTERLY FINANCIAL REPORT FOR THE 3RD QUARTER ENDED 31 DECEMBER 2010.

A1. Basis of preparation

This quarterly financial report is unaudited and has been prepared in accordance with the applicable disclosure provisions of Paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Malaysia”) and compliance with Financial Reporting Standard FRS 134, Interim Financial Reporting.

The quarterly financial report do not include all the information required for the full annual financial statements and should be read in conjunction with the annual audited financial statements of the Group for the year ended 31 March 2010.

A2. Significant accounting policies

Save as disclosed below, the significant accounting policies adopted are consistent with those of the audited financial statements for the year ended 31 March 2010.

i) FRS 139, Financial Instruments: Recognition and Measurement

The adoption of FRS 139 has resulted in changes to accounting policies relating to recognition and measurement of financial instruments and the new accounting policies are as follows:

I. Initial recognition and measurement

A financial instrument is recognised in the financial statements when, and only when, the Group becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised initially, at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

II. Financial instrument categories and subsequent measurement

The Group categorises financial instruments as follows:

Financial assets

a) Loans and receivables

Loans and receivables category comprises debt instruments that are not quoted in an active market, trade and other receivables and cash and cash equivalents.

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest method.

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment.

GSB GROUP BERHAD

(Company No. 287036-X)

(Incorporated in Malaysia)

Financial liabilities

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Under the traditional provisions of FRS 139, the above changes are applied prospectively and the comparatives as at 31 March 2010 are not restated. The adoption of FRS 139 does not have any significant impact on the profit for the financial period-to-date.

III. Regular way purchase or sale of financial assets

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose term requires delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

A regular way purchase or sale of financial assets is recognised and derecognised, as applicable, using trade date accounting. Trade date accounting refers to:

- a) the recognition of an asset to be received and the liability to pay for it on the trade date, and
- b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

IV. Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in the profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the profit or loss.

ii) FRS 140, Investment property

Before 1 April 2010, an investment property under construction was classified as property, plant and equipment and measured at cost. Such property is stated at cost until construction or development was completed, at which time it would be reclassified at its prevailing carrying value as investment property.

With the amendment made to FRS 140 with effect from 1 April 2010, investment property under construction is classified as investment property.

Hence, the adoption of FRS 140 does not affect the basic and diluted earnings per ordinary share for the current and prior periods.

iii) FRS 8, Operating segments

As of 1 April 2010, the Group determines and presents operating segments based on the information that internally is provided to the Board of Directors. This change in accounting policy is due to the adoption of FRS 8. Previously operating segments were determined and presented in accordance with FRS 114²⁰⁰⁴, Segment Reporting.

Since the change in accounting policy only impacts presentation and disclosure aspects, there is no impact on earnings per ordinary share.

iv) FRS 117, Leases

The amendments clarify the classification of lease of land and require entities with existing leases of land and buildings to reassess the classification of land as finance or operating lease. Leasehold land which in substance is a finance lease will be reclassified to property, plant and equipment or investment properties. The adoption of these amendments will result in a change in accounting policy which will be applied retrospectively in accordance with the traditional provisions.

The reclassification does not affect the basic and diluted earnings per ordinary share for the current and prior periods.

The following comparative figures in the statement of financial position have been restated following the adoption of the amendment to FRS 117:

	As at 31 March 2010	
	Audited RM'000	As previously stated RM'000
Property, plant and equipment	10,968	6,833
Prepaid lease payments	-	4,135

v) FRS 101 (revised), presentation of financial statements

The Group applies revised FRS 101 (revised) which became effective as of 1 April 2010. As a result, the Group presents all non-owner changes in equity in the consolidated statement of comprehensive income.

Comparative information has been re-presented so that it is in conformity with the revised standard. Since the change only affects presentation aspects, there is no impact on earnings per ordinary share.
