PART B: EXPLANATORY NOTES TO BURSA MALAYSIA SECURITIES BERHAD LISTING REQUIREMENTS UNDER PART A OF APPENDIX 9B

1. **REVIEW OF PERFORMANCE**

For the quarter ended 30 June 2017 (2Q17), the Group posted RM237.5 million of revenue, dropped 10.1% from RM264.1 million recorded in the quarter ended 30 June 2016 (2Q16). The drop was mainly attributable to lower revenue from construction division, but was mitigated by higher revenue from all other divisions, namely property, oil and gas, and plantation. Similarly, for the year-to-date, Group performance for the financial period ended 30 June 2017, dropped 14.9% to RM487.7 million compared against RM573.4 million reported in the corresponding period of the preceding year.

In spite of the lower revenue, the Group's pre-tax profit for 2Q17 increased by 155.3% to RM21.7 million in the current quarter, from RM8.5 million recorded in the corresponding quarter of the previous year. This brings the Group's cumulative pre-tax profit to RM28.5 million, jumped 95.2% from RM14.6 million registered for the same period last year. Higher pre-tax profit recorded was mainly attributable to the income derived from the assets facilities management of IIUM Medical Centre which started to contribute to the Group's bottom-line in June 2016.

Engineering and Construction

For 2Q17, the division registered RM196.7 million of revenue a decrease of 20.2% from RM246.4 million in 2Q16 due to various stages of completion of projects. This has also resulted in lower cumulative revenue for the division of RM425.3 million dropped 21.6% compared against RM542.5 million reported in the corresponding period of the preceding year.

In-line with lower revenue recorded as well as progress of different project mix, pre-tax profit for the division in 2Q17 was RM16.8 million and year-to-date was RM27.6 million, a decrease of 24.1% and 11.5% from the corresponding period of the preceding year respectively.

Property

The property division had demonstrated significant growth during the year under review with double digit revenue growth. For 2Q17, the division recorded 110.4% higher revenue to RM9.8 million compared against 2Q16 which brings cumulative revenue for the division to RM18.8 million, surged 137.2% from the same period under review last year. The better performance was mainly attributed to the income generated from assets facilities management of IIUM Medical Centre, which commenced its operation in June 2016.

Contribution from this assets facilities management business resulted the division to record pre-tax profit of RM13.3 million in 2Q17, compared to a pre-tax loss of RM2.9 million in 2Q16. Similarly, for the year-to-date, the division registered RM21.1 million of pre-tax profit compared to a pre-tax loss of RM2.5 million recorded in the same period under review in 2016.

PART B: EXPLANATORY NOTES TO BURSA MALAYSIA SECURITIES BERHAD LISTING REQUIREMENTS UNDER PART A OF APPENDIX 9B

1. **REVIEW OF PERFORMANCE (continued)**

Oil and Gas

The oil and gas division registered higher revenue of RM13.0 million in 2Q17, increased 34.0% from RM9.7 million in 2Q16 due to additional revenue contributed from Tok Bali Supply Base (TBSB) as the acquisition was completed in December 2016. For the-year-todate under review, the division registered RM22.1 million of revenue, an increase of 27.7% from RM17.3 million in the corresponding period of the preceding year.

However, the division recorded lower pre-tax profit of RM2.1 million in 2Q17 which is 32.0% lower than that recorded in 2Q16 of RM3.1 million due to sustained losses at TBSB as it has yet to reach optimal level of operation. Similarly, year-to-date pre-tax profit for the division dropped 74.6% to RM1.5 million against RM5.9 million registered in the same period under review in 2016.

Plantation

The new mill which was commissioned in February 2017 has contributed positively to the division. Revenue from the plantation division rose to RM18.0 million in 2Q17 against RM3.3 million recorded in 2Q16. For the year-to-date, the division's revenue surged to RM21.4 million compared against RM5.7 million recorded for the same period in 2016. The higher revenue was attributable to the sales of crude palm oil (CPO) and palm kernel (PK) of which for the quarter under review, the division sold 6,013 MT of CPO and 1,705 MT of PK. Due to these sales, the division also narrowed its pre-tax loss in 2Q17 to RM4.1 million, versus a pre-tax loss of RM9.1 million previously. Similarly, cumulative losses reduced to RM10.7 million against pre-tax loss of RM13.6 million for the same quarter under review in 2016.

2. REVIEW OF MATERIAL CHANGES BETWEEN CURRENT QUARTER AND PRECEDING QUARTER

	Current	Preceding	Diff
	Quarter (Q2'17)	Quarter (Q1'17)	+/(-)
	RM'000	RM'000	RM'000
REVENUE	237,479	250,186	(12,707)
PROFIT BEFORE TAX	21,717	6,779	14,938

The group recorded revenue of RM237.5 million in 2Q17, dropped 5.1% from RM250.2 million registered in the preceding quarter ended 31 March 2017 (1Q17), attributable to lower revenue from construction division. However, it was mitigated by higher revenue recorded from other divisions mainly plantation operations. In spite of the lower revenue, pre-tax profit for the quarter under review rose 219.1% to RM21.7 million, versus RM6.8 million in 1Q17. The higher profits in 2Q17 stemmed from a favourable project mix for the construction division, contribution from the assets facilities management, higher profit from oil and gas division and narrower losses in the plantation operations.

3. **PROSPECTS**

Engineering and Construction

The Group currently has an orderbook balance of RM3.5 billion as at 30 June 2017 and expects to add on to its orderbook as the Group is actively tendering for more works including infrastructure projects, commercial buildings and government buildings. With the government intending to undertake many major projects such as the East Coast Rail Link, High Speed Rail, Mass Rapid Transit 3 and Light Rail Transit 3, the Group intends to leverage on its position as a reputable infrastructure player to tap into the opportunities in the sector.

Property

During the current financial year, the division has launched one mixed development project called Puncak Temala in Marang, Terengganu, which has an estimated Gross Development Value (GDV) of RM217.7 million. Together with previously launched developments, property division is expected to contribute positively to the Group. Additionally, the facilities management of IIUM Medical Centre is expected to provide stable recurring income to the Group.

3. **PROSPECTS** (continued)

Oil and Gas

The outlook for the Oil and Gas sector is expected to improve this year, with oil price currently sustained above USD50 per barrel. The division's prospects are positive after the addition of TBSB as a full-fledged supply base in East Coast of Malaysia after a purely bunkering operation out of Kemaman Supply Base. This is supported by the division recently gaining Carigali HESS in a 2-year contract for crew boat activity and other support services at TBSB. Going forward, the Group intends to install more facilities to better accommodate current customers as well as to attract more customers to set up their base of operations at TBSB.

Plantation

With the palm oil mill being commissioned in February 2017, the division is able to process own FFB, as well as third-party FFB from neighbouring plantations. The 60 metric tonne (MT) per hour mill is capable of producing 79,200MT Crude Palm Oil per year when operating at its maximum capacity. The Group remains optimistic because the mill is the largest palm oil mill within an 80km radius of Kabupaten Landak, Indonesia. The division also intends to plant a further 1,200 hectares of palms in the second half of 2017, bringing the total planted area to 10,000 hectares. From the planted palms, about 51% of them will be matured palms, thus increasing the acreage yield and generating higher revenue for the Group going forward.

Generally, looking at the above, the Group is confident that its performance will show continuous improvement in 2017.
