17 Review of Group Performance (Continued)

(a) Comparison with Previous Year Corresponding Quarter's Results

The Group's revenue for the current quarter under review was RM239.181 million and profit before tax was RM12.930 million.

The revenue decreased by RM93.269 million or 28% as compared to preceding year corresponding quarter. The decreased was mainly attributable to lower demand from existing customers for electronics manufacturing (EMS) and raw wire and cable but partly offset with higher revenue from wire harness products. For comparison of segmental revenue for the respective quarters discussed, please refer to the tables below:

Breakdown of segmental revenue for the quarter ended 31 March 2024:

17 Review of Group Performance (Continued)

(a) Comparison with Previous Year Corresponding Quarter's Results (Continued)

Compared with the preceding year corresponding quarter, the profit before tax decreased by RM6.133 million or 32%. The decrease was mainly attributable to lower revenue and lower gain from foreign exchange transactions in the current quarter as compared to the corresponding quarter. However, the discrepancy noted above were offset against reversal of impairment of trade receivables, lower administrative and distribution expenses and higher investment income. For comparison of segmental profit before tax for the respective quarters discussed, please refer to the tables below:

- Non-controlling interests	103	-	103	100%

The Group's revenue in the quarter under review decreased by 20% as compared with the preceding quarter. The decrease was mainly due to lower demand recorded for EMS and raw wire & cable products segments but partly offset with higher revenue from wire harness products.

The Group profit before tax for the current quarter has decreased by 57% as compared to preceding quarter. The decrease was mainly due to lower revenue, lower margin of products mix and provision for slow moving inventories but was offset against lower administrative and distribution expenses, gain from foreign currency exchange transactions and higher investment income.

19 Review of Group Assets and Liabilities

Total equity	643,896	608,795	35,101	6%

Total assets

As at 31 March 2024, the Group's total assets decreased by 1% or RM10.664 million to RM897.970 million from RM908.634 million as at 31 December 2023. The decreased was mainly due to decrease in trade receivables as a result of collection of overdue trade receivables.

Total liabilities

As at 31 March 2024, the Group's total liabilities decreased by 15% or RM45.765 million to RM254.074 million from RM299.839 million as at 31 December 2023. The decrease was mainly due to repayment of trade payables.

Total equity

The Group's total equity as at 31 March 2024 increased by RM35.101 million to RM643.896 million as compared to RM608.795 million as at 31 December 2023. The increase in total equity is due to increase in distributable retained earnings as a net result of net profit of RM9.807 million for the current financial period under review. During the financial period under review, loss in foreign currency translation differences amounted RM1.215 million was being recognised. Also, there is a change in ownership interest in a subsidiary of which non-controlling interest amounting to RM26.509 million was recognised in current financial period under review.

20 Current Year Prospect

The major source of revenue and profit of the Group is from its manufacturing segment (99%).

For EMS activities (comprising 80% of the manufacturing segment), orders have shown improvement considering the strong order book from existing and new customers from the computer equipment sector near the end of second half of financial year 2023 have fuelled the momentum going into financial year 2024 (FY2024). In Q1 2024, shortages of some major ICs had caused many of the orders not being fulfilled, thus resulting in lower revenue and earnings. Nevertheless, the Group has engaged a new customer specialised in server and switches. In order to accommodate the new customer, entire 280,000 sq-ft Plant 6 is under major renovation and expansion to support the production capacity. Plant 6 is expected to be ready in Q4 2024 for pilot production and the huge orders from the new customer are expected to realised in financial year 2025 (FY2025) upon mass production.

The Group existing customer which initially occupied the operation in Plant 3 also potentially take up additional 180,000 sq-ft Plant 5 to meet the anticipated increased orders. The Plant 5 is expected to be ready in use by June 2024. The Group remains optimistic in engaging new customers from diverse industries in medical, industrial, consumer and telecommunication industries.

The Group has completed the installation of solar panels in 4 plants and expected to complete further 2 solar panels installation in another 2 plants for green electric energy generation which will mitigate the high rising electricity cost in future. Meanwhile, the Group also prioritizes investing in various automation and process optimization to improve the yield, efficiency, consistency and quality of products while minimizing labour dependency.

Revenue derived from the manufacturing activity of raw wire & cable (16%) is gradually starting to pick up once again. The copper price has seen a good rally since the beginning of Q4 2023 till to date. Our customers are gradually loading up on their orders in order to lock the price and avoid the risk of price hike. Nevertheless, this division is able to maintain its profit margin as the selling price quoted to customers is pegged to the copper price determined according to the market.

The revenue derived from cable assembly and wire harness (3%) of PIT in Thailand is expected to increase as more new business opportunities now available in Thailand. PIT is now expanding its manufacturing capacities and technical know-how in preparation of new opportunities in new EV wire harness business.

The trading segment will continue to promote the products of the respective parent companies for customers in the ASEAN market.

24 Status of Corporate Proposals Announced

There were no corporate proposals announced but pending completion as at the date of this unaudited interim financial report.

25 Changes in Material Litigation

Save for the litigation described below, the Group is not engaged in any material litigation, claims or arbitration either as plaintiff or defendant, and the Directors do not have any knowledge of any proceedings, pending or threatened, against the Group or of any facts likely to give rise to any proceedings which might materially and adversely affect the financial position or business of the Group.

In 2015, a subsidiary of the Group, Pan-International Electronics (Malaysia) Sdn. Bhd. ("PIESB") received demand letters from the RMC regarding unpaid import duties and sales tax amounting to RM8,432,283 and RM841,342 respectively.

The RMC had blacklisted all the Directors of PIESB from leaving and entering Malaysia and arising from this, the external legal counsel of PIESB had filed a judicial review application in the High Court of Malaya to challenge the condition imposed by the RMC. The RMC had subsequently withdrawn the blacklisting of all Directors with the condition that PIESB remit a payment of 28% of the disputed sum and placed a bank guarantee with the RMC for the remaining sum. PIESB had complied with the instructions of the RMC without prejudice.

To date, the RMC had not filed any suit against PIESB for the above said claim. PIESB had filed an appeal with the Ministry of Finance ("MOF"), Malaysia regarding the alleged unpaid import duties and sales tax of which its application was verbally rejected by the MOF on October 31, 2017. Subsequent to the rejection, the external legal counsel of PIESB had applied for a judicial review on the decision of the MOF with the High Court of Penang. The High Court of Penang dismissed PIESB's application for a judicial review. Following the dismissal by the High Court of Penang, PIESB had submitted an appeal application against the decision of the High Court of Penang to the Court of Appeals of which hearing of the case was fixed on June 24, 2019.

The Court of Appeal however decided that the appeal was premature as there was no documentary proof that the MOF had issued a letter to dismiss PIESB appeal for remission of the custom duties and sales tax. As such, the solicitor had advised PIESB to write a fresh letter of appeal to the MOF to request the Minister of Finance to reconsider and allow its appeal for the remission of the custom duties and sales tax.

On 10 May 2023, the external legal counsel of PIESB had a follow up meeting with MOF. However, the case is still in the midst of discussion in MOF within Legal & Law Department as per informed by Puan Faeza Afandi, Penolong Setiausaha Bahagian Cukai, Kementerian Kewangan, Putrajaya.

On 22 May 2023, MOF has rejected the appeal and seeking PIESB to continue the appeal with Court. The external legal councel of PIESB has advised and proposed PIESB to go for Juridical Review (JR) with the legal team.

On 19 February 2024, the High Court of Penang ruled in favour of PIESB and set aside the demand letters received by PIESB from RMC in 2015. As the decision of the High Court of Penang is consistent with PIESB's assessment of its chances of success made in prior years, no adjustments are required to be made to the financial statements of the Group.

On 18 March 2024, the MOF and RMC have filed an appeal towards the Court of Appeal of Malaysia against the decision made by the High Court of Penang on 19 February 2024. To date, there is no any further development on the appeal status from the Court of Appeal of Malaysia.
