#### 17. REVIEW OF PERFORMANCE

The Group recorded a revenue of RM83.2 million and profit before tax of RM11.5 million during the current quarter ended 30 September 2017. During the current quarter, quantity produced and sold have increased because of higher demand for bottled water as a result of the KUALA LUMPUR 2017 SEA Games and ASEAN Para Games ("KUALA LUMPUR 2017"). Raw materials prices have temporarily stabilised during the current quarter and the Group has also implemented certain cost control policies to manage operating expenses.

For the financial year-to-date ended 30 September 2017, the Group recorded a revenue of RM234.4 million and profit before tax of RM26.2 million. In this 9-month period ended 30 September 2017, the Group experienced lower than expected sales volume due to the prevailing soft market sentiment. Costs of sales, in particular the cost of raw materials such as PET resin and employee benefit expenses have continued to rise during the period and the Group continue to incur significant selling and distribution costs for market exploration, product advertising and promotion, both locally and in China.

During the current quarter ended 30 September 2017, the Group's manufacturing segment contributed RM79.4 million revenue whereas its trading segment contributed RM3.7 million revenue, representing 95.4% and 4.4% respectively, of the Group's current quarter revenue of RM83.2 million. The Group's manufacturing segment result for the quarter is RM13.5 million, whereas its trading segment incurred unfavourable results of RM1.8 million, the factors which contributed to the unfavourable results are high operating costs, below expected sales as a result of stiff competition as well as the Group's lack of presence in China being a first-time entrant into the market in 2016.

During the financial year-to-date ended 30 September 2017, the Group's manufacturing segment contributed RM222.7 million revenue and its trading segment contributed RM11.4 million revenue, representing 95.0% and 4.9% respectively, of the Group's revenue of RM234.4 million. The segment results of the Group's manufacturing segment is RM33.9 million whereas the trading segment has an unfavourable results of RM7.0 million. The factors which contributed to the unfavourable results are as explained in the preceding paragraph.

## 18. MATERIAL CHANGES IN THE QUARTERLY RESULTS COMPARED TO THE RESULTS OF THE PRECEDING QUARTER

	Quarter ended 30.9.2017	Quarter ended 30.6.2017	Changes
	RM'000	RM'000	%
Revenue	83,237	78,543	6%
Cost of sales and other operating expenses	(71,305)	(70,601)	1%
Profit before tax	11,513	7,626	51%
Profit attributable to owners of the Company	8,032	5,129	57%

The Group recorded a revenue of RM83.2 million during the current quarter ended 30 September 2017 representing a 6% increase compared to RM78.5 million revenue recorded in the preceding quarter. Revenue increased mainly due to increased in sales volume due to KUALA LUMPUR 2017. Cost of sales and other operating expenses for the current quarter is RM71.3 million, which is quite consistent with the RM70.6 million incurred in the preceding quarter. Profit before tax for the current quarter compared to the preceding quarter has increased 51% from RM7.6 million to RM11.5 million mainly due to increase in sales volume as a result of increased demand during KUALA LUMPUR 2017 coupled with less advertising and sponsorship spending during the current quarter.

#### 19. FUTURE PROSPECTS

The financial year 2017 is expected to be challenging amidst global and domestic economic uncertainties and volatility. Consumer sentiment is expected to remain soft due to higher cost-push inflation and the impact of depreciation of the domestic exchange rate. The Group is also experiencing higher input and operating costs.

We will continue with our marketing and sales efforts so as to improve our sales of bottled water in Guangzhou, China and in Malaysia. We will also continue with our market development and brand awareness activities in China. We remain confident that the sales of our bottled water products will be sustainable in the domestic market. We are also taking firm steps to improve our business operations in China.

With our integrated and efficient manufacturing process, coupled with our strong brand equity and leading position in the Malaysian bottled water industry, the directors are cautiously optimistic that the Group will be able to generate satisfactory results in the financial year ending 31 December 2017.
