#### QUARTERLY UNAUDITED REPORT ON CONSOLIDATED RESULTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2011

#### NOTES TO THE INTERIM FINANCIAL REPORT

#### A1. Basis of preparation

The interim financial report is unaudited and has been prepared in compliance with FRS 134, Interim Financial Reporting and Paragraph 9.22 of the Listing Requirements of the Bursa Malaysia Securities Berhad.

The quarterly financial report do not include all the information required for the full annual financial statements and should be read in conjunction with the annual audited financial statements of the Group for the year ended 31 December 2010.

#### **A2** Changes in Accounting Policies

Save as disclosed below, the significant accounting policies adopted are consistent with those of the audited financial statements for the year ended 31 December 2010.

#### i) Accounting for business combinations

Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.

The Group has changed its accounting policy with respect to accounting for business combinations.

From 1 January 2011 the Group has applied FRS 3, *Business Combinations* (revised) in accounting for business combinations. The change in accounting policy has been applied prospectively in accordance with the transitional provisions provided by the standard and does not have impact on earnings per share.

Under FRS 3 (revised), the definition of a business has been broadened, which will result in more acquisitions being treated as business combinations.

#### Acquisitions on or after 1 January 2011

For acquisitions on or after 1 January 2011, the Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any minority (will be known as non-controlling) interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

Any pre-existing interest in the acquiree will be measured at fair value with the gain or loss recognised in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

#### NOTES TO THE INTERIM FINANCIAL REPORT (continued)

#### A2 Changes in Accounting Policies (continued)

#### i) Accounting for business combinations (continued)

#### Acquisitions on or after 1 January 2011 (continued)

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

Any non-controlling interest will be measured at either fair value, or at its proportionate interest in the identifiable assets and liabilities of the acquiree, on a transaction-by-transaction basis.

When share-based payment awards (replacement awards) are required to be exchanged for awards held by the acquiree's employees (acquiree's awards) and relate to past services, then all or a portion of the amount of the acquirer's replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based value of the replacement awards compared with the market-based value of the acquiree's awards and the extent to which the replacement awards relate to past and /or future service.

#### Acquisitions between 1 January 2006 and 1 January 2011

For acquisitions between 1 January 2006 and 1 January 2011, goodwill represents the excess of the cost of the acquisition over the Group's interest in the recognised amount (generally fair value) of the identifiable assets, liabilities and contingent liabilities of the acquiree. When the excess was negative, a bargain purchase gain was recognised immediately in profit or loss.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurred in connection with business combinations were capitalised as part of the cost of the acquisition.

#### Acquisitions prior to 1 January 2006

For acquisitions prior to 1 January 2006, goodwill represents the excess of the cost of the acquisition over the Group's interest in the fair values of the net identifiable assets and liabilities.

#### ii) Loss of control

The Group applied FRS 127, Consolidated and Separate Financial Statements (revised) since the beginning of the reporting period in accordance with the transitional provisions provided by the standard and does not have impact on earnings per share. Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

(Company No. 334818-P)

#### QUARTERLY UNAUDITED REPORT ON CONSOLIDATED RESULTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2011

#### NOTES TO THE INTERIM FINANCIAL REPORT (continued)

#### A2 Changes in Accounting Policies (continued)

#### ii) Loss of control (continued)

In the previous years, if the Group retained any interest in the previous subsidiary, such interest was measured at the carrying amount at the date that control was lost and this carrying amount would be recognised as cost on initial measurement of the investment.

#### iii) Non-controlling interests

Non-controlling interests at the end of the reporting period, being the equity in a subsidiary not attributable directly or indirectly to the equity holders of the Company, are presented in the consolidated statement of financial position and statement of changes in equity within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group is presented in the consolidated statement of comprehensive income as an allocation of the profit or loss and the comprehensive income for the year between non-controlling interests and the owners of the Company.

Since the beginning of the reporting period, the Group has applied FRS 127, Consolidated and Separate Financial Statements (revised) where losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance. This change in accounting policy is applied prospectively in accordance with the transitional provisions of the standard and does not have impact on earnings per share.

In the previous years, where losses applicable to the non-controlling interests exceed the their interests in the equity of a subsidiary, the excess, and any further losses applicable to the non-controlling interests, were charged against the Group's interest except to the extent that the non-controlling interests had a binding obligation to, and was able to, make additional investment to cover the losses. If the subsidiary subsequently reported profits, the Group's interest was allocated with all such profits until the non-controlling interests' share of losses previously absorbed by the Group had been recovered.

The Group has not applied the following accounting standards, amendments, and interpretations that have been issued by the Malaysian Accounting Standards Board but are not yet effective for the Group:

### FRSs, Interpretations and amendments effective for annual periods beginning on or after 1 July 2011

- Amendments to IC 14, Prepayments of a Minimum Funding Requirement

# FRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2012

- FRS 124, Related Party Disclosures (revised)

#### **B1.** Review of Group performance

The Group registered revenue of RM27.6 million for the current quarter compared to RM32.0 million achieved in the corresponding quarter last year. This was attributable to lower revenue recorded by the Precision Stamping Division of RM6.6 million or 20%. The revenue decline was partially offset by the contribution from Oil Palm Plantation Division of RM2.2 million or 8% to the Group's revenue.

In the current quarter, as a result of the slowing business condition particularly in the electronics and electrical industry, the subsidiaries in Malaysia and China both posted lower revenue. Indonesia automotive business continues to be robust although business was affected by shortages of parts as a result of flood in Thailand.

The Group recorded a net profit of RM0.9 million for the current quarter compared to RM3.1 million profit registered in the corresponding quarter last year. The reduction was mainly due to lower revenue performance of the Precision Stamping Division and RM3.0 million gain from reversal of impairment in investment in associate recorded in the corresponding quarter last year.

Included in the other income of RM3.1 million in the current quarter was a negative goodwill recognized from fair value adjustment on investments in Oil Palm Plantation subsidiaries of RM10.9 million which was offset by reversal of RM7.4 million gain previously recognized from mark-to-market value of investment in associate company.

The Group's revenue for financial period to date of RM109.7 million was reduced by RM20.1 million as compared to the corresponding period. This was attributable to lower revenue posted by the Precision Stamping Division as well as revenue consolidated from the disposed subsidiary was lower by RM12 million. A total revenue of RM8.1 million was contributed by the newly acquired Oil Palm Plantation Division for the financial period to date.

The net profit for the financial period to date improved by RM13.2 million to RM22.6 million. The increase was attributable to the following:

- (i) profit contribution from the newly acquired Oil Palm Plantation Division of RM1.9 million for the current financial period; and
- (ii) recognition of negative goodwill (net of tax) of RM21.9 million on the revaluation of investments in oil palm plantations subsidiaries.

#### **B2.** Comparison with preceding quarter's results

The current quarter revenue of RM27.6 million reflected a decline of RM2.1 million or 7% against the preceding quarter revenue of RM29.7 million. Current quarter business demand was generally slower than the preceding quarter had resulted in a lower revenue contribution by the Precision Stamping segment of RM1.8 million or 6.6%. The Oil Palm Plantations Division's revenue was also reduced by RM0.3 million.

The Group's current quarter results declined by RM5.9 million compared to the preceding quarter of RM6.8 million net profit. The reduction was mainly attributable to RM3.5 million reversal of deferred tax recognized in the preceding quarter and lower revenue performance by both the Precision Stamping Division and Oil Palm Plantations Division.

#### **B3.** Prospects

The strong growth of automotive industry in Indonesia presents a good prospect for Jotech's Precision Stamping Division to contribute positively to the Group. Phase 1 of a new manufacturing plant in Indonesia was completed in December 2011 and is expected to contribute positively to the Group starting 2012. The strong demand by the automotive customers in Indonesia in the near to medium term will allow the Indonesia subsidiary to spearhead the growth in performance of the Group over the next few years.

The Group will continue to focus in growing the Oil Palm Plantation Division and with a positive prospect of strong crude palm oil price, this Division will contribute positively to the Group.

The Board of Directors foresees a continual positive prospect for the financial performance of the Group for the remaining financial quarters.

#### **B6.** Taxation

The taxation for the current quarter and year-to-date are as follows:-

		Financial year-
	Current quarter	to-date
	31.12.2011	31.12.2011
	RM'000	RM'000

The effective tax rate for the current quarter is higher than the statutory tax rate principally due to losses incurred by certain subsidiaries where group relief is not available and non-deductibility of certain operating expenditure for tax purpose. The year-to-date effective tax rate being lower than the statutory tax rate is principally due to non-taxability of certain other operating income recognised.
