NOTES TO BURSA MALAYSIA SECURITIES BERHAD REVISED LISTING REQUIREMENTS

15. Performance review

The Group registered total revenue of RM25.57 million for the current quarter, a marginal decrease of RM1.07 million or 4.03% compared to the RM26.65 million in the corresponding quarter of preceding year mainly due to lower revenue contribution from the engineering division. However, the effect of reduction in revenue from engineering projects is mitigated by higher revenue contribution from the temperature controlled logistics ("TCL") division following the completion of its major facilities such as the cross-dock centre in Port Klang and Shanghai cold room in 2007.

Profit after tax before minority interest (PATBMI) reduced from RM4.28 million to RM1.1 million compared to the corresponding quarter of preceding year as a result of fewer engineering projects procured during the quarter, higher interest cost and higher depreciation charges due to completion of new TCL facilities during 2007.

16. Material change in quarterly results

Comparing with the preceding fourth quarter of 2007, the Group's revenue recorded a slight improvement from RM23.58 million to RM25.57 million, an increase of RM1.99 million or 8.4% mainly due to income derived from the newly completed TCL facilities. Current quarter's PATBMI of RM1.1 million is an improvement from previous quarter's losses before MI of RM6.59 million. The previous quarter's high losses were largely caused by the high cost of raw material required for galvanising projects and the writing off of pre-operating expenses of its Shanghai subsidiary. The raw material price has since stabilised and returned to its previous price level during the current quarter.

17. Prospects for the remaining quarter until 31 December 2008

The Group expects its engineering and galvanising operations to continue to contribute to the Group's performance.

The Group's multiple temperature controlled warehousing, transportation and ice manufacturing operations in both local and oversea markets are also expected to contribute positively to the Group revenue albeit the operating environment will remain competitive and challenging with the increasing fuel and energy cost. The Group's new facility in Shanghai will be providing new recurring income stream to the Group in the coming years in view of strong demand for such facilities in China.

The management is optimistic about the market outlooks and will continue to explore new business opportunities, leverage on the Group's core expertise to explore synergistic business opportunities to further strengthen its income stream.

Notes to the First Quarter Report For The Financial Period Ended 31 March 2008

24. Off balance sheet risks

There were no financial instruments with off balance sheet risk as at the date of issue of this report.

25. Material litigation

a. Mayekawa Mfg. Co. Ltd. and Mayekawa (M) Sdn. Bhd., ("the Plaintiffs") had on 1 August 2005 served a Writ of Summons dated 27 June 2005 on the Company, Hai San & Sons Sdn. Bhd. ("HSSSB") and Beh Teng Hong ("the Defendants"), claiming infringement of trademark "MYCOM" and passing off by the Defendants and requesting, inter alia for a mandatory injunction against the Defendants from dealing in MYCOM products. The First and Second Defendants had on 9 August 2005 and 29 August 2005 filed the memorandum of appearance and Defence respectively.

The High Court at Kuala Lumpur ("High Court") dismissed the Plaintiffs' application for an interlocutory injunction against the Defendants on 14 December 2005. The Plaintiffs thereafter on 16 December 2005 filed a Notice of Appeal to the Court of Appeal against the High Court's decision and thereafter on 19 December 2005 filed a Summons in Chambers at the High Court seeking, inter alia, an interim injunction against the Defendants pending the outcome of the Notice of Appeal ("Erinford Injunction). The application for Erinford Injunction was dismissed by the High Court on 7 February 2006.

The Plaintiffs subsequently on 15 February 2006 upon the dismissal of the application for Erinford Injunction by the High Court filed an Originating Motion at the Court of Appeal, seeking the same application for Erinford Injunction. The Court of Appeal allowed the Erinford Injunction on 20 March 2006.

The First and Second Defendants had on 19 April 2006 filed an Originating Motion at the Federal Court for leave to appeal against the decision of the Court of Appeal granting the Erinford Injunction. The Federal Court conducted a case management before the Registrar on 9 November 2006 and fixed a hearing date for the Originating Motion on 26 March 2007. The hearing date was postponed pending discussion for settlement by the parties and no hearing date has yet been fixed by the Federal Court.

On 3 October 2007, consent judgement has been entered against the third Defendant and the suit has been withdrawn against the First and Second Defendant with liberty to file afresh. The plaintiff and the First and Second Defendants have signed a Settlement Deed on 3 October 2007. The Plaintiff through their solicitor has filed a Notice of Discontinuance of Appeal in the Court of Appeal as both parties have settled the matters. The First and Second Defendant's solicitors are in the midst of filing of Notice of Discontinuance of Notice of Motion in the Federal Court.

b. On 29 November 2006, the Company filed a claim against Persatuan Peladang Negeri Pulau Pinang (1st Defendant), Ketua Pengarah Jabatan Perkhidmatan Haiwan (2nd Defendant) and the Government of Malaysia (3rd Defendant) for the recovery of the outstanding sum of RM4,698,775 for a shipment of cattles delivered and sold to the defendants pursuant to a Purchase Order dated 5 January 2006 issued by the 1st Defendant who had taken delivery of the shipment of cattles. The 3rd Defendant is responsible for the supervision and administration of the 2nd Defendant.

In the Statement of Claim, the Company also sues the Defendants for negligence as an alternative claim because the 2nd Defendant, as agent and/or servant of the 3rd Defendant, has inspected and selected the cattles themselves in Australia before the

shipment of cattles set on sail. However, they subsequently claimed that the cattles did not comply with specifications and refuse to make payment.

The case is currently pending the Court to fix a date for case management and the solicitors are of the opinion that the Company has a strong case to succeed in their claim against the Defendants. In the view of the above, the Company has not made any provision in relation to the said outstanding sum in the financial statements for the financial year ended 31 December 2007.
