Notes to the unaudited results of the Group for the first quarter ended 30 Nov 2010.

1 Basis of Preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

Other than the application of FRS 101 and FRS 139, the application of the above FRSs, Amendments to FRSs and Interpretations did not result in any significant changes in accounting policies and presentation of the financial results of the Group.

(a) FRS 101: Presentation of Financial Statement (revised)

The revised FRS 101 introduces changes in the presentation and disclosures of financial statements. The revised Standard separates owner and non-owner changes in equity. The statement of changes in equity includes only details of transactions with owners, with all non-owner changes in equity presented as single line. The Standard also introduces the statement of comprehensive income, with all items of income and expense recognized directly in equity, either in one single statement, or in two statements. The Group has elected to present this statement in two statement approach. This Standard does not have any impact on the financial position and results of the Group.

2 Changes in Accounting Policies and Effects Arising from Adoption of New and Revised FRSs (Cont'd)

(b) FRS 139: Financial Instruments: Recognition and Measurement

Prior to the adoption of FRS 139, financial derivatives were recognized on their settlement dates. Outstanding derivatives at the balance sheet date were not recognized. With the adoption of FRS 139, all financial assets and financial liabilities, including derivatives, are recognized at contract dates when, and only when, the Company or any subsidiary becomes a party to the contractual provisions of the instruments.

With the adoption of FRS 139, financial assets and financial liabilities recognized and unrecognized in the prior financial year are classed into the following categories:

	Pre-FRS 139	Post-FRS 139
1	Long-term equity investments	Available-for-sale investments
2	Long-term quoted debt instruments	Held-to-maturity investments
3	Private-debt instruments	Loans and receivables
4	Current investments	Financial assets at fair value through profit or
		loss
5	Unrecognised derivative assets	Financial assets at fair value through profit or
		loss
6	Long-term borrowings and bonds	Financial liabilities at amortised cost
7	Unrecognised derivative liabilities	Financial liabilities at fair value through profit
		or loss

The measurement bases applied to the financial asset and financial liabilities in the prior financial year are changed to conform to the measurement standards of FRS 139 in the current quarter. At initial recognition, all financial assets and financial liabilities are measured at their fair value plus in the case of financial instruments not at fair value through profit or loss, transaction costs directly attributable to the acquisition or issuance of the instruments. Subsequent to their initial recognition, the financial liabilities are measured as follows:

	Category	Measurement basis
1	Financial instruments at fair value through	At fair value through profit or loss
	profit loss	
2	Held-to-maturity investments	At amortised cost effective interest method
3	Loans and receivables	At amortised cost effective interest method
4	Available-for-sale investments	At fair value through other comprehensive
		income, unless fair value cannot be reliably
		measured, in which case, they are measured at
		cost
5	Loans and other financial liabilities	At amortised cost effective interest method

Financial assets and financial liabilities designated as hedged items and hedging financial derivative are accounted for using the specified hedge accounting requirement of FRS 139. All financial assets other than those classified as at fair value through profit or loss are subject to impairment test of FRS 139.

In accordance with FRS 139, the recognition, derecognition, measurement and hedge accounting requirement are applied prospectively from 1 January 2010. The effects of the remeasurement on 1 September 2010 of the financial assets and financial liabilities brought forward from the previous financial year are adjusted to the opening retained profits and other opening reserves as disclosed in the statement of changes in equity.

15 Review of Performance of the Group

The Group's revenue for the current quarter was registered at RM38.4 million with a profit before taxation of RM1.0 million. Comparing to the same quarter of the previous year, the Group revenue has decreased by RM6.7 million. The lower revenue recorded in the current quarter is mainly attributed to lower sales to customers of Thai subsidiaries in Southern Thailand whose customers were affected by floods.

Amidst this situation, the Group has managed to report a higher profit before taxation by RM314,000 to RM1.0 million. The effective cost control and lower foreign exchange loss has mainly contributed to this better performance.

16 Material Changes in Profit Before Taxation Against Preceding Quarter

Current quarter revenue was RM9 million lower than the immediate preceding quarter. Likewise, the profit before taxation has shown a reduction of RM 951,000 as compared against immediate preceding quarter mainly due to lower revenue as explained in note 15 above.

(503292-K)

17 Prospects

The revenue from the electronic sector are expected to grow at a steady pace as we expect more businesses to be contracted to the Contract Manufacturing segment in the coming quarters. This augur well with the Proposed Acquisition of 30% equity interest in ISCMT that was announced on 10 January 2011 and 21 January 2011 respectively.
