#### 2 Changes in Accounting Policies and Effects Arising from Adoption of New and Revised FRSs (Cont'd)

(a) FRS 101: Presentation of Financial Statement (revised)

The revised FRS 101 introduces changes in the presentation and disclosures of financial statements. The revised Standard separates owner and non-owner changes in equity. The statement of changes in equity includes only details of transactions with owners, with all non-owner changes in equity presented as single line. The Standard also introduces the statement of comprehensive income, with all items of income and expense recognized directly in equity, either in one single statement, or in two statements. The Group has elected to present this statement in two statement approach. This Standard does not have any impact on the financial position and results of the Group.

(b) FRS 139: Financial Instruments: Recognition and Measurement

Prior to the adoption of FRS 139, financial derivatives were recognized on their settlement dates. Outstanding derivatives at the balance sheet date were not recognized. With the adoption of FRS 139, all financial assets and financial liabilities, including derivatives, are recognized at contract dates when, and only when, the Company or any subsidiary becomes a party to the contractual provisions of the instruments.

With the adoption of FRS 139, financial assets and financial liabilities recognized and unrecognized in the prior financial year are classed into the following categories:

	Pre-FRS 139	Post-FRS 139
1	Long-term equity investments	Available-for-sale investments
2	Long-term quoted debt instruments	Held-to-maturity investments
3	Private-debt instruments	Loans and receivables
4	Current investments	Financial assets at fair value through profit or
		loss
5	Unrecognised derivative assets	Financial assets at fair value through profit or
		loss
6	Long-term borrowings and bonds	Financial liabilities at amortised cost
7	Unrecognised derivative liabilities	Financial liabilities at fair value through profit
		or loss

The measurement bases applied to the financial asset and financial liabilities in the prior financial year are changed to conform to the measurement standards of FRS 139 in the current quarter. At initial recognition, all financial assets and financial liabilities are measured at their fair value plus in the case of financial instruments not at fair value through profit or loss, transaction costs directly attributable to the acquisition or issuance of the instruments. Subsequent to their initial recognition, the financial assets and financial liabilities are measured as follows:

	Category	Measurement basis
1	Financial instruments at fair value through	At fair value through profit or loss
	profit loss	
2	Held-to-maturity investments	At amortised cost effective interest method
3	Loans and receivables	At amortised cost effective interest method
4	Available-for-sale investments	At fair value through other comprehensive income, unless fair value cannot be reliably measured, in which case, they are measured at
		cost
5	Loans and other financial liabilities	At amortised cost effective interest method

(503292-K)

#### 2 Changes in Accounting Policies and Effects Arising from Adoption of New and Revised FRSs (Cont'd)

(b) FRS 139: Financial Instruments: Recognition and Measurement (Cont'd)

Financial assets and financial liabilities designated as hedged items and hedging financial derivative are accounted for using the specified hedge accounting requirement of FRS 139. All financial assets other than those classified as at fair value through profit or loss are subject to impairment test of FRS 139.

In accordance with FRS 139, the recognition, derecognition, measurement and hedge accounting requirement are applied prospectively from 1 January 2010. The effects of the remeasurement on 1 September 2010 of the financial assets and financial liabilities brought forward from the previous financial year are adjusted to the opening retained profits and other opening reserves as disclosed in the statement of changes in equity.

(c) Amendment to FRS 117: Leases

This amendment clarifies the classification of lease of land and requires entities with existing leases of land and buildings to reassess the classification of land as finance or operating lease. Leasehold land which in substance is a finance lease will be reclassified to property, plant and equipment. The adoption of this amendment will result in a change in accounting policy which will be applied retrospectively in accordance with the transitional provisions. The reclassification of leasehold land from prepaid land lease payments to property, plant and equipment and investment properties have been accounted for retrospectively.

As at the date of authorisation of these financial statements, the following new FRSs and Interpretations were issued but not yet effective and have not been applied by the Group, which are:

#### Effective for financial periods beginning on or after 1 January 2011

Amendment to FRS 1: Limited Exemption from Comparative FRS 7 Disclosures for First-time Adopters Amendment to FRS 7: Improving Disclosures about Financial Instruments Amendment to FRS 1: Additional Exemptions for First-time Adopters Amendment to FRS 2: Group Cash-settled Share-based Payment Transactions IC Interpretation 4: Determining whether an Arrangement contains a lease IC Interpretation 18: Transfers of Assets from Customers Improvements to FRSs issued in 2010

#### 15 Review of Performance of the Group

The current quarter's revenue is registered at approximately RM45 million with a profit before taxation of RM2.3 million. Comparing this to the same quarter last year, the Group's revenue has shown a reduction of approximately RM2.4 million. However, the current quarter's profit is RM324,000 higher than the same quarter of the previous year is mainly due to the net gain after offsetting the insurance company's compensation with the book value of our factory building that was burnt down.

The Group's revenue for the 12 month's period is recorded at RM172million which is a reduction of approximately RM15million from the previous year. This is mainly due to the flood incident in the Southern Thailand which occurred at the end of 2010. However, the Group's profit before taxation is RM1.5million higher than preceding year mainly due to a reversal of an amount owing to a trade creditor and also better cost control within the Group.

#### 16 Material Changes in Profit Before Taxation Against Preceding Quarter

The current quarter's revenue has registered a decrease of RM1.6 million compared to the immediate preceding quarter.

Despite the lower revenue, this current quarter's profit before taxation is RM896,000 higher than immediate preceding quarter. This is mainly due to the net gain after offsetting the insurance company's compensation with the book value of our factory building that was burnt down and effective cost control within the Group.

#### **17 Prospects**

The current uncertainties in the global outlook, the slowdown of the Electrical and Electronic (E&E) sector and the recent flood in Bangkok, Thailand which has affected our manufacturing facilities is expected to give a negative impact on the Group's performance.

#### 18 Profit Forecast and Profit Guarantee

Not applicable.
