Quarterly Report on consolidated results for the fourth quarter ended 31/12/2018

The manufacturing and trading segment's revenue recorded lower at RM 11.9 million in the current quarter as compared with RM 13.5 million in the preceding year corresponding quarter as a result of lower sales volume achieved for the quarter under review.

For palm oil mill segment, revenue reduced by 20.5% to RM 41.1 million from RM 51.6 million in the preceding year corresponding quarter. This was mainly attributed to lower average selling price of Crude Palm Oil ("CPO") and Palm Kernel ("PK") in the quarter under review.

The lower profit before tax of RM 1.7 million as compared to RM 3.2 million in preceding year corresponding quarter was mainly due to lower sales volume achieved in manufacturing and trading segment as well as lower Crude Palm Oil ("CPO") extraction rate achieved in palm oil mill segment.

The results for the current quarter and financial year-to-date have not been affected by any transaction or event of a material or unusual nature which have arisen between 1 January 2018 and the date of this report.
