This condensed consolidated interim financial statements (Condensed Report) have been prepared in accordance with MFRS 134 - Interim Financial Reporting, IAS 34: Interim Financial Reporting issued by the International Accounting Standard Board (IASB) and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The adoption of the above new MFRSs, amendments/improvements to MFRSs and new IC Int did not have any significant effect on the financial statements of the Group and of the Company, and did not result in significant changes to the Group's and the Company's existing accounting policies, except for the following:

Quarterly Report on consolidated results for the first quarter ended 31/3/2019

MFRS 16 Leases

MFRS 16 introduced a single, on-balance sheet accounting model for lessees. As a result, the Group, as a lessee, has recognised right-of-use assets representing its right to use the underlying assets and lease liabilities representing its obligation to make lease payments.

The Group has applied MFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 January 2019. Accordingly, the comparative information presented for year 2018 reporting period has not been restated.

A. Definition of lease

Under MFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

On transition to MFRS 16, the Group elects to apply the practical expedient not to reassess whether a contract contains a lease at the date of initial application. The Group applies MFRS 16 only to contracts that were previously identified as leases under MFRS 117 and IC Interpretation 4. Therefore, the definition of a lease under MFRS 16 has been applied only to contracts entered into on or after 1 January 2019.

B. As a lessee

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under MFRS 16, the Group recognises right-of-use assets and lease liabilities onto the statement of financial position.

However, the Group has elected not to apply the principles of MFRS 16 to short term leases (a lease with lease term of 12 months or less from date of commencement) and leases for which the underlying asset is of low value. The Group recognises the lease payments associated with these leases as an expense on a straight-in basis over the lease term.

i) Changes in accounting policies

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if the rate cannot be readily determined, the Group's incremental borrowing rate.

Quarterly Report on consolidated results for the first quarter ended 31/3/2019

The Group has applied judgement to determine the lease term for some lease contracts that include renewal options.

ii) Transition

At transition, for leases classified as operating leases under MFRS 117, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate as at 1 January 2019. On a lease by lease basis, the right-of-use assets are measured at either:

- their carrying amount as if MFRS 16 had been applied since the commencement date, discounted using the lessee's incremental borrowing rate at the date of initial application; or
- an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

The Group applies the following practical expedients when apply MFRS 16 to leases previously classified as operating lease under MFRS 117:

- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term.
- Excluded initial direct cost from measuring the right-of-use asset at the date of initial application.
- Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

For leases which were classified as finance lease under MFRS 17, the carrying amount of the right-of-use asset and the lease liability at 1 January 2019 for the finance lease was determined at the carrying amount of the lease asset and lease liability under MFRS117 immediately before that.

For palm oil mill segment, revenue increased 10% to RM 37.27 million from RM 33.87 million in the preceding year corresponding quarter.
