The Group's total revenue in the quarter under review was RM83.09million or 28.6% higher than the corresponding quarter of the preceding year at RM64.61million which was mainly attributed to the additional revenue contribution from the Manufacturing and Trading segment of RM3.82million and Palm oil Mill Segment of RM15.17million.

The Group's profit before tax was RM1.32million compared to RM1.26million in the preceding year's corresponding quarter. The higher profit before tax in the current quarter was mainly attributed to lower loss incurred in the Manufacturing and Trading segment. However, the profit before tax in the quarter under review was negated by lower profit from the Palm Oil Mill segment as well as the Renewable Energy segment.

The Investment Holding segment recorded slightly higher at RM147,000 compared to RM140,000 in the previous year's corresponding quarter due to slightly higher operating expenses in the quarter under review.

The loss in the Manufacturing and Trading segment was reported lower at RM0.22million compared to RM1.69million in the preceding year's corresponding quarter. This was mainly attributed to the higher sales achieved at RM14.14million in the current quarter compared to RM10.32million in the previous year's corresponding quarter.

Quarterly Report on consolidated results for the first quarter ended 31/3/2021

The revenue for Palm Oil Mill segment increased to RM67.48million from RM52.31million in the preceding year's corresponding quarter. The increase in revenue was mainly due to the higher average selling price of Crude Palm Oil ("CPO") and Palm Kernel ("PK"). However, the profit before tax was lower due to the rising cost of fresh fruit bunches ("FFB") offsetting the higher average selling price of CPO and PK as well as lower availability of FFB that lead to the lower production output in the quarter under review.

The revenue of Renewable Energy segment was lower at RM1.46million compared to RM1.97million in the preceding year's corresponding quarter resulting from lower availability of palm oil mill effluent (POME) due to the lower production output in the Palm Oil Mill segment. The profit before tax was lower at RM0.53million compared to RM1.43million in the preceding year's corresponding quarter which was mainly due to the lower revenue achieved as well as higher operating expenses in the quarter under review.

The results of the current quarter and financial year-to-date have not been affected by any transaction or event of a material or unusual nature which have arisen between 1 January 2021 and the date of this report.
