-Renewable Energy 829 73 756 103	5.6%
2,166 1,870 296 1	5.8%

The Group recorded revenue of RM87.34million or 35.1% lower than the corresponding quarter of the preceding year with RM134.68million, mainly attributed to the decrease in the revenue contribution from the Palm Oil Mill segment by RM45.06million and the Manufacturing and Trading segment by RM2.37million.

Despite the lower revenue, the Group registered higher profit before tax of RM2.17million compared to RM1.87million in the preceding year's corresponding quarter. This was mainly due to the higher profit before tax achieved in the Palm Oil Mill segment and the Renewable Energy segment. However, the higher profit before tax was partially negated by the loss incurred in the Manufacturing and Trading segment.

The Investment Holding segment recorded slightly higher loss at RM157,000 compared to RM148,000 in the previous year's corresponding quarter due to higher operating expenses in the quarter under review.

The Manufacturing and Trading segment reported lower revenue of RM11.92million compared to RM14.29million in the preceding year's corresponding quarter which resulted in a loss incurred of RM448,000 in the Manufacturing and Trading segment compared to the profit before tax of RM345,000 in the preceding year's corresponding quarter. This was mainly due to lower sales achieved in the current quarter.

Quarterly Report on consolidated results for the first quarter ended 31/3/2023

The Palm Oil Mill segment recorded lower revenue of RM73.69million compared to RM118.76million in the preceding year's corresponding quarter. The decrease in revenue was mainly the result of lower average selling price of Crude Palm Oil ("CPO") and Palm Kernel ("PK") in the current quarter. However, the profit before tax was higher at RM1.94million compared to RM1.60million in the preceding year's corresponding quarter, mainly contributed by the increase of production output as a result of higher availability of fresh fruits bunches for production in the current quarter.

The revenue of the Renewable Energy Segment was slightly higher at RM1.72million compared to RM1.64million in the preceding year's corresponding quarter with a profit before tax of RM829,000 compared to RM73,000 in the preceding year's corresponding quarter, mainly due to higher revenue and lower operating expenses in the quarter under review.

The results of the current quarter and financial year-to-date have not been affected by any transaction or event of a material or unusual nature which have arisen between 1 January 2023 and the date of this report.

The Group's profit before tax in the quarter under review was lower at RM2.17million compared to RM7.61million in the immediate preceding quarter, mainly due to the lower profit in the Palm Oil Mill segment as well as a loss incurred in the Manufacturing and Trading segment.

Quarterly Report on consolidated results for the first quarter ended 31/3/2023

The Investment Holding segment reported lower loss of RM157,000 compared to RM189,000 in the immediate preceding quarter due to lower operating expenses in the current quarter.

The Manufacturing and Trading segment recorded a loss of RM448,000 compared to the profit before tax of RM887,000 in the immediate preceding quarter. The loss incurred in the current quarter was mainly attributed to lower sales contribution from better margin products.

The profit before tax of the Palm Oil Mill segment was lower at RM1.94million compared to RM6.21million in the immediate preceding quarter, as a result of lower availability of fresh fruits bunches for production as well as lower average oil extraction rate ("OER") in the quarter under review.

For the Renewable Energy segment, the profit before tax was higher at RM829,000 compared to RM698,000 in the immediate preceding quarter, mainly due to lower operating expenses in the current quarter.
