## **B ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS**

#### **B1** Review of Performance

The Group registered total revenue of RM66.61 million and pre-tax profit of RM14.46 million for the current quarter as compared to RM73.30 million in revenue and pre-tax profit of RM8.84 million reported in the corresponding quarter last year. Sales of filing products have gradually recovered from the COVID-19 pandemic. However, consumer sentiment remains weak. The recyclable food ware segment has, however, shown a spike in demand with the rising popularity in food take away and delivery.

While sales revenue has dropped, pre-tax profit for the quarter has improved from RM8.84 million to RM14.46 million. Profit from associate has increased to RM5.14 million as compared to RM1.35 million recorded in the corresponding quarter last year.

Operating margin has improved from 8.02% to 13.60% as a result of various cost saving measures including wage subsidy from government which help to bring down salary expenses. The improvement was further fueled by favorable exchange rate movement with a foreign exchange gain of RM1.03 million as opposed to foreign exchange loss of RM3.80 million suffered in the corresponding quarter last year.

## **B2** Comparison with Preceding Quarter

	30.09.20	30.06.20 RM'000
	RM'000	
Revenue	66,605	44,652
Profit Before Tax	14,456	1,100

In correspondence with the "Back to School" season in Europe and the gradual easing of movement control during the quarter, sales has increased from RM44.65 million in the preceding quarter to RM66.61 million in the current quarter. Our recyclable food ware products have also received positive responses as demand for takeaway food packaging went up considerably. Coupled with foreign exchange gain of RM1.03 million and profit sharing from an associate of RM5.14 million, the Group's profit before tax improved from RM1.10 million in the preceding quarter to RM14.46 million in the current quarter.

## **B3** Current Year Prospects

As Covid-19 infection cases increase rapidly around the world with no sign of subsiding soon, more and more countries are likely to re-impose tough movement restrictions. This will no doubt dampen the overall business sentiment just when economy is showing glimmers of gradual pick-up. In view of this development, we expect slower recovery of sales for the filing products segment with the impact to be cushioned by a boost from the anticipated launch of new products in the next quarter.

Our current focus is on the health and safety of our employees to ensure sustainability of our operations. With careful re-strategizing of operations backed by a solid balance sheet, the Board remains optimistic that the Group is well positioned to weather through these unprecedented challenges.

# **B4** Profit Forecast or Profit Guarantee

No profit forecast or profit guarantee was published by the Group.

#### **B13** Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, short term receivables and payables and short term borrowings reasonably approximate their fair values due to the relatively short term nature of these financial instruments.

The table below analyses financial instruments carried at fair value for which fair value is disclosed, together with their fair values and carrying amounts shown in the consolidated statement of financial position. The difference levels have been defined as follows:

- Level 1: Quoted prices (adjusted) in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (that is, as prices) or indirectly (that is, derived from prices)
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

The table below presents the financial instruments of the Group, which are measured at fair value, classified by level of the fair value hierarchy.
