## **B** ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS

## **B1** Review of Performance

## Current Quarter

The Group recorded a total revenue of RM 77.0 million as compared with RM 76.7 million achieved in the corresponding quarter last year. Out of the total turnover generated during the quarter, RM 65.1 million was from the filing division while the remaining RM 11.9 million was contributed by the Consumer and Food ware division.

Profit before tax for the quarter dropped from RM 10.6 million to RM 9.5 million. The weakening of both GBP and EURO has affected the bottom line of the Group. When compared with September 2021, GBP/MYR contracted from 5.65 to 5.17 while EURO/ MYR dropped from 4.85 to 4.55 end of September 2022. In addition, the significant drop in GBP/USD and EURO/USD of more than 15% since one year ago has added pressure to the group's operating margin as majority of export proceeds are denominated in GBP and EURO while imports are primarily denominated in USD.

## **B1** Review of Performance (continued)

## Year To Date

Total revenue for the six months' period increased by 4.5% from RM 157.6 million to RM 164.7 million. Despite the above increase, pretax profit slipped from RM 30.1 million to RM 21.2 million.

During the period, total foreign exchange loss of RM 4.0 million was incurred as compared to foreign exchange gain of RM 3.1 million recorded during the corresponding period. The result for the period was also adversely affected by the sharing of associate's loss of RM 1.1 million as compared to share of profit of RM 6.3 million last year.

## **B2** Comparison with Preceding Quarter

	30.09.22	30.06.22
	RM'000	RM'000
Revenue	76,969	87,741
Operating Profit	7,994	13,470
Profit Before Tax	9,545	11,632

Based on a lower turnover, profit before tax declined to RM 9.5 million in the second quarter as compared to RM 11.6 million achieved in the preceding quarter. In addition, the operation in overseas was also affected by higher operating cost in particular the significant increase in energy cost during the quarter.

## **B3** Current Year Prospects

Recent economy indicators pointed to a general slowdown in global economy while inflation remains elevated. Being a consumer industry player, this will no doubt pose a challenging operating landscape to the Group. With the previous effort taken in diversifying the business segment to include recyclable food ware and household products, the Group is confident that it will help to fuel growth in revenue and set the foundation to expand its product range and also penetration into new markets. The Group's strong balance sheet position has enabled it to better manage the currency volatility while efforts have been taken to rebalance its currency exposure in material procurement. Despite the anticipated challenges, the Group is confident that it is well positioned to achieve another year of profitable performance for the financial year ending 31 March 2023.

#### **B12** Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, short term receivables and payables and short term borrowings reasonably approximate their fair values due to the relatively short term nature of these financial instruments.

The table below analyses financial instruments carried at fair value for which fair value is disclosed, together with their fair values and carrying amounts shown in the consolidated statement of financial position. The difference levels have been defined as follows:

Level 1: Quoted prices (adjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (that is, as prices) or indirectly (that is, derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

## **B12** Fair Value of Financial Instruments (continued)
