PART A – EXPLANATORY NOTES PURSUANT TO FRS 134

1. BASIS OF PREPARATION

The interim financial statements have been prepared under the historical cost convention.

The interim financial statements are unaudited and have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 October 2007. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 October 2007.

2. CHANGES IN ACCOUNTING POLICIES

The significant accounting policies adopted are consistent with those of the audited financial statements for the financial year ended 31 October 2007 except for the adoption of the following new/revised Financial Reporting Standards ("FRS") effective for financial period beginning 1 January 2006:

FRS 3	Business Combinations
FRS 101	Presentation of Financial Statements
FRS 102	Inventories
FRS 108	Accounting Policies, Changes in Estimates and Errors
FRS 110	Events after the Balance Sheet Date
FRS 116	Property, Plant and Equipment
FRS 121	The Effects of Changes in Foreign Exchange Rates
FRS 127	Consolidated and Separate Financial Statements
FES 131	Interests in Joint Ventures
FRS 132	Financial Instruments: Disclosure and Presentation
FRS 133	Earnings per Share
FRS 136	Impairment of Assets
FRS 138	Intangible Assets

Revised FRSs which would be adopted from the financial period beginning 1 January 2007 are:

FRS 117	Leases
FRS 124	Related Party Disclosures

2. CHANGES IN ACCOUNTING POLICIES (CONT'D.)

The adoption of FRS 102, 108, 110, 116, 124, 127, 131, 132 and 133 does not have significant financial impact on the Group. The principal effects of the changes in accounting policies resulting from the adoption of the other new/revised FRSs are discussed below:

(a) FRS 5: Non-current Assets Held for Sale and Discontinued Operations

The Group has applied FRS 5 prospectively in accordance with its transitional provisions, which has resulted in a change in accounting policy on the recognition of a discontinued operation. Prior to 1 January 2006, under the previous FRS 135, the Group would have recognised a discontinued operation at the earlier of the date the Group enters into a binding sale agreement and the date the board of directors have approved and announced a formal disposal plan. FRS 5 requires a component of an entity to be classified as discontinued when the criteria to be classified as held for sale have been met or it has been disposed of. Such a component represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of the component or is a subsidiary acquired exclusively with a view to resale. The result of this change in accounting policy is that a discontinued operation is recognised by the Group at a later point than under the previous FRS 135 due to the stricter criteria in FRS 5.

An item is classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. The assets and liabilities of a discontinued operation (a disposal group) that are classified as held for sale are measured in accordance with FRS 5. Immediately before classification as held for sale, the carrying amount of all the assets and liabilities in the disposal group is measured in accordance with applicable FRSs. Then, on initial classification as held for sale, the disposal group is recognised at the lower of carrying amount and fair value less costs to sell.

(b) FRS 101: Presentation of Financial Statements

The adoption of the revised FRS 101 has affected the presentation of minority interest, share of net after-tax results of associates and other disclosures. In the consolidated balance sheet, minority interests are now presented within total equity. In the consolidated income statement, minority interests are presented as an allocation of the total profit or loss for the period. A similar requirement is also applicable to the statement of changes in equity. FRS 101 also requires disclosure, on the face of the statement of changes in equity, total recognised income and expenses for the period, showing separately the amounts attributable to equity holders of the parent and to minority interest.

The current period's presentation of the Group's financial statements is based on the revised requirements of FRS 101, with the comparatives restated to conform with the current period's presentation.

Any price increase is subject to approvals by the authorities.
